Simple Present and Present Progressive for the Future

1 · NOTICE

- Our English exam **starts** at nine o'clock on Monday.
- I **am revising** Chemistry with Elif this evening.
- The new term **begins** next Monday, according to the school calendar.
- We **are trying** a new study app next week — the teacher already booked the tablets.

Which sentences describe a fixed timetable or schedule, and which describe a personal plan or arrangement someone has already made?

2 · DISCOVER — A · COMPLETE THE RULE

Look at the Notice sentences again. Complete the rule with the words in the box.

is/are + -ing

base verb (+s/es)

a fixed timetable or programme

a personal arrangement

1. For _____ (school terms, exam dates, timetables), we use the Simple Present: _____.
2. For _____ that a person has already planned, we use the Present Progressive: _____.

B Build sentences

Use the cues to build true future sentences. Choose Simple Present or Present Progressive.

e.g.

the exam

start

at nine

The exam starts at nine.

1. the new term begin on Monday

2. I meet my study group tomorrow (arranged)

3. the library close at five every day

4. we try a new app next week (arranged)

5. ? / the term end before the holidays

C Your turn

Write four sentences about your own week: one school timetable fact, one personal study arrangement, and two more future plans using Simple Present or Present Progressive.

School usually...

This week I am...

Our next exam...

On Friday, I am...

RULE

We use the Simple Present for future events fixed by a timetable, programme or official calendar. We use the Present Progressive for a personal future arrangement that has already been planned.

TR Sabit bir program, ders programı ya da resmi takvime göre gerçekleşecek gelecek olaylar için Simple Present kullanılır. Kişisel olarak önceden planlanmış bir gelecek etkinlik için ise Present Progressive kullanılır.

When?

Use the Simple Present for exam dates, timetables and the school calendar; use the Present Progressive for personal arrangements, like studying with a friend.

TR Sınav tarihlerini, ders programını ya da okul takvimini anlatırken Simple Present; bir arkadaşla ders çalışma planı gibi kişisel düzenlemelerden bahsederken Present Progressive kullanırız.

POSITIVE	NEGATIVE	QUESTION	SHORT ANSWERS
The exam starts at nine. I am revising with Elif tonight.	The library doesn't close early on Fridays. We aren't meeting today — it's cancelled.	Does the new term begin on Monday? Are you studying with your group tomorrow?	Yes, it does. / No, it doesn't. Yes, I am. / No, I'm not.

X WRONG	✓ RIGHT	WHY?
I am revising Chemistry every Tuesday.	I revise Chemistry every Tuesday.	A repeated routine takes the Simple Present, not the Progressive, because it isn't a one-off arrangement. TR Düzenli tekrar eden bir alışkanlık için Simple Present kullanılır, kişisel geçici bir düzenleme değildir.
The exam is starting at nine every year.	The exam starts at nine every year.	A fixed programme or rule uses the Simple Present. TR Sabit bir program/kural anlatılıyorsa Simple Present kullanılır.
Does you meeting your study group tomorrow?	Are you meeting your study group tomorrow?	Present Progressive questions use 'be', not 'does'. TR Present Progressive sorularında 'be' fiili kullanılır, 'does' değil.

1 Choose the correct option.

4 × 1 pts

- According to the school calendar, the new term _____ next Monday.
(a) begins (b) is beginning (c) begin
- I can't come to lunch — I _____ my Chemistry teacher at one.
(a) meet (b) am meeting (c) meets
- The library _____ at five every weekday.
(a) is closing (b) close (c) closes
- We _____ a new study app next week — the teacher already booked the tablets.
(a) try (b) are trying (c) tries

2 Complete with the correct form.

3 × 1 pts

- The exam _____ (start) at nine sharp, according to the timetable.
- _____ you _____ (meet) your study partner after school today?
- Our school _____ (not / offer) that elective next term.

3 Judge the sentence.

Challenge

1. A: What time _____ the first lesson _____ (start) tomorrow?
2. B: It _____ (start) at eight, but I _____ (arrive) early to finish my project.

5 Reorder the sentence.

1. I am studying tonight my with group .

Present Progressive with 'always' + Question Tags**1 · NOTICE**

- My desk mate **is always asking** me for a pen — it's a bit annoying!
- You always do your homework early, **don't you?**
- She **is always forgetting** her textbook, isn't she?
- We aren't having a test this week, **are we?**

In the first and third sentences, does 'always' describe a neutral habit or something that annoys the speaker? How are the question tags formed after each type of sentence?

2 · DISCOVER — A · COMPLETE THE RULE

Complete the rule with the words in the box.

annoying or surprising negative positive same auxiliary/be verb

1. Present Progressive + always describes a habit the speaker finds _____ (not a neutral fact).
2. A positive statement takes a _____ tag.
3. A negative statement takes a _____ tag.
4. The tag repeats the _____ from the main sentence.

B Build sentences

Complete each sentence, then add the correct tag where shown.

e.g. he always / lose his notes (annoying) tag?

He is always losing his notes, isn't he?

1. she always / interrupt the teacher (annoying)

2. you do your homework early tag?

3. they aren't preparing for the quiz tag?

4. our teacher always / give extra examples (positive habit)

5. you always / check your phone in class (annoying) tag?

C Your turn

Write three sentences: one complaint using Present Progressive + always, and two statements with question tags about your classmates' study habits.

My friend is always... You always..., don't you? We aren't..., are we?

RULE

Present Progressive + always describes a frequent habit that annoys or surprises the speaker (different from a neutral habit with Simple Present). A question tag adds a negative tag to a positive statement and a positive tag to a negative statement, repeating the same auxiliary/be verb.

TR 'Always' ile Present Progressive kullanıldığında, sık tekrar eden ve genellikle konuşanı rahatsız eden ya da şaşırtan bir alışkanlığı anlatır (nötr bir alışkanlıktan farklıdır). Question tag ise olumlu cümleye olumsuz, olumsuz cümleye olumlu bir kısa soru ekler; yardımcı fiil ana cümledekiyle aynı olur.

When?

Use always + -ing to complain about a classmate's repeated, annoying behaviour; use question tags to confirm information or keep a conversation going.

TR Bir arkadaşının sürekli tekrar eden ve seni rahatsız eden bir davranışından şikayet ederken 'always + -ing' kullanırsınız; bir bilgiyi teyit etmek istediğimizde question tag ekleriz.

POSITIVE	NEGATIVE	QUESTION	SHORT ANSWERS
She is always forgetting her textbook. You always finish early, don't you?	We aren't having a test this week, are we?	Is he always losing his pen?	Yes, he is. / No, he isn't. Yes, I do. / No, I don't.

X WRONG	✓ RIGHT	WHY?
He always is losing his notes.	He is always losing his notes.	In the Present Progressive, 'always' comes after 'be' and before the main verb. TR Present Progressive'de 'always' be fiilinden SONRA, ana fiilden ÖNCE gelir.
She teaches Maths, doesn't teach she?	She teaches Maths, doesn't she?	The tag only repeats the auxiliary + subject, never the main verb. TR Tag'da ana fiil tekrar edilmez, sadece yardımcı fiil + özne kullanılır.

6 Choose the correct option.

Adverbs from Adjectives (Regular and Irregular)

1 · NOTICE

- Ali answered the question **quickly** and **confidently**.
- She always works **hard** in Chemistry, and she speaks English **fluently** too.
- He did **well** in the presentation, although he felt nervous.
- The teacher explained the new topic **clearly**, so we understood it easily.

Which words describe HOW someone does something? What happens to the adjective 'easy' when it becomes an adverb — and which adverb here does NOT end in -ly?

2 · DISCOVER — A · COMPLETE THE RULE

Complete the rule with the words in the box.

-ily -ly well the same form (hard, fast, late)

1. Most adjectives become adverbs by adding _____ (quick → quickly).
2. Adjectives ending in -y change y to i and add _____ (easy → easily).
3. Some adjectives keep _____ as adverbs (a hard worker → work hard).
4. 'Good' has an irregular adverb: _____.

B Build sentences

Change the adjective in brackets into the correct adverb.

e.g. She explained the rule. (clear)

She explained the rule clearly.

1. He answered every question. (confident)

2. They finished the project. (easy)

3. Our teacher speaks very ___ when she's excited. (fast)

4. I did ___ in the vocabulary quiz. (good)

5. She always studies ___ before exams. (hard)

C Your turn

Write four sentences about how you or your classmates do things at school, using at least four different adverbs (regular and irregular).

I usually work...

My friend answers questions...

Our teacher explains things...

We finished the task...

RULE

Most adjectives add -ly to become adverbs (quick→quickly). Adjectives ending in -y change to -ily (easy→easily). Some adjectives keep the same form as adverbs (hard, fast, late). 'Good' has an irregular adverb: well.

TR Çoğu sıfat sonuna -ly eklenerek zarf olur (quick→quickly). -y ile biten sıfatlarda y, i'ye dönüşür ve -ly eklenir (easy→easily). Bazı sıfatlar zarf olarak da aynı kalır (hard, fast, late). 'Good' sıfatının zarfı düzensizdir: well.

When?

We use adverbs to describe HOW an action is done — how someone answered a question, gave a presentation, or completed a task.

TR Bir eylemin NASIL yapıldığını anlatırken (bir sunumu nasıl yaptın, bir soruyu nasıl cevapladın gibi) zarf kullanırız.

POSITIVE	NEGATIVE	QUESTION	SHORT ANSWERS
She explained it clearly. He did well in the test.	He didn't answer confidently. She doesn't study regularly.	How did you do in the quiz? Does she always work hard?	Very well. / Not very well. Yes, she does.

X WRONG	✓ RIGHT	WHY?
He did the presentation good.	He did the presentation well.	'Good' is an adjective; to describe how an action is done, use the adverb 'well'. TR 'Good' sıfattır; fiili nitelemek için 'well' zarfı gerekir.
She answered very quick.	She answered very quickly.	To describe how she answered (a verb), you need the adverb quickly, not the adjective quick. TR Fiili nitelemek için zarf (quickly) gerekir, sıfat (quick) değil.
He studies hardly for every test.	He studies hard for every test.	'Hardly' means 'barely'; to say someone works with effort, use 'hard', not 'hardly'. TR 'Hardly' 'neredeyse hiç' demektir; 'çok çalışmak' için 'hard' kullanılır.

11 Choose the correct option.

3 × 1 pts

- He explained the grammar rule very _____.
☐ a clear ☐ b clearly ☐ c clearness
- She's a really _____ student — she always finishes on time.

Challenge

- B: I did _____ (good), actually — I finished _____ (quick) and checked my answers _____ (careful).

Adjectives: -ed vs -ing**1 · NOTICE**

- I'm really **interested** in Biology — the topics are so **interesting**.
- This maths problem is **confusing**; I feel completely **confused**.
- The new coding club sounds **exciting** — I'm so **excited** to join!
- Some students feel **bored** in long lectures because the teacher's style is **boring**.

Which adjectives describe a PERSON'S feeling, and which describe the THING or SITUATION that causes that feeling?

2 · DISCOVER — A · COMPLETE THE RULE

Complete the rule with the words in the box.

-ing**-ed****the person who feels something****the thing or situation that causes the feeling**

1. Adjectives ending in _____ describe _____.
2. Adjectives ending in _____ describe _____.

B Build sentences

Complete each sentence with the *-ed* or *-ing* form of the adjective.

e.g. This lesson is really _____. (interest)

This lesson is really interesting.

1. I feel ____ by this grammar rule. (confuse)
2. The science experiment was _____. (amaze)
3. She was ____ by the long lecture. (bore)
4. Our new study app is ____ — everyone loves it. (excite)

C Your turn

Write three sentences about your school subjects or study tools using *-ed* and *-ing* adjectives (e.g. *interested/interesting*, *bored/boring*, *excited/exciting*).

I'm interested in...

...is really interesting.

I feel confused when...

RULE

Adjectives ending in -ed describe how a person feels (I am interested). Adjectives ending in -ing describe the thing or situation that causes that feeling (The topic is interesting).

TR -ed ile biten sıfatlar, bir kişinin hissettiği duyguyu anlatır (I am interested = ilgileniyorum). -ing ile biten sıfatlar ise o duyguya sebep olan şeyi ya da durumu anlatır (The topic is interesting = konu ilgi çekici).

When?

Choosing correctly between -ed and -ing matters when you describe how a lesson, topic or tool affects you.

TR Bir dersten, konudan ya da araçtan nasıl etkilendiğini anlatırken -ed/-ing sıfatlarını doğru seçmek önemlidir.

POSITIVE	NEGATIVE	QUESTION	SHORT ANSWERS
I'm interested in Biology. Biology is interesting.	I'm not bored in this class. This class isn't boring.	Are you interested in coding? Is the topic confusing?	Yes, I am. / No, I'm not. Yes, it is. / No, it isn't.
X WRONG	✓ RIGHT	WHY?	
I am boring in long lessons.	I am bored in long lessons.	To describe how a person feels, use the -ed adjective. TR Kişinin hissettiği duygu için -ed sıfatı gerekir.	
This topic is very interested.	This topic is very interesting.	The topic itself causes interest, so it needs the -ing adjective. TR Konunun kendisi ilgi çekici olduğu için -ing sıfatı gerekir.	

15 Choose the correct option.

Challenge

1. A: Are you _____ (excite) about the new coding club?
2. B: Yes! It sounds really _____ (interest), and I heard the projects are _____ (amaze).

Correlative Conjunctions (either...or / neither...nor) and Elliptical Responses

1 · NOTICE

- You can choose **either** Art **or** Music as your elective this term.
- Neither** Ali **nor** his desk mate finished the group project on time.
- A: I really enjoy Biology. B: **So do I.**
- A: I don't like early morning lessons. B: **Neither do I.**

How do 'either...or' and 'neither...nor' connect two choices? Do the short replies 'So do I' and 'Neither do I' repeat the whole sentence, or just agree/disagree briefly?

2 · DISCOVER — A · COMPLETE THE RULE

Complete the rule with the words in the box.

two positive choices two negative ideas agree with a positive statement
agree with a negative statement

- 'Either... or...' connects _____ (you can pick one).
- 'Neither... nor...' connects _____ (both are not true).
- 'So + auxiliary + subject' (So do I) is used to _____.
- 'Neither + auxiliary + subject' (Neither do I) is used to _____.

B Build sentences

Combine the ideas using either...or / neither...nor, or write a short elliptical response.

e.g. You can study Chemistry. You can study Physics. (choice)

You can study either Chemistry or Physics.

1. Ali didn't finish the project. His partner didn't finish it either.
2. Choose Art. Choose Music. (elective choice)
3. A: I love group projects. B: (agree, positive)
4. A: I can't concentrate in noisy classrooms. B: (agree, negative)

C Your turn

Write two sentences using *either...or* or *neither...nor* about your school subjects, and two short elliptical replies (*So do I / Neither do I / So am I / Neither am I*) agreeing with a partner's opinion.

I can study either... Neither... nor... So do I. Neither am I.

RULE

'Either... or...' expresses a choice between two positive options. 'Neither... nor...' shows that two things are both not true (the verb stays positive because the negative idea is already in neither/nor). Elliptical short responses use 'So + auxiliary + subject' to agree with a positive statement, and 'Neither/Nor + auxiliary + subject' to agree with a negative one, instead of repeating the whole sentence.

TR 'Either... or...' iki olumlu seçenekten birini ifade eder. 'Neither... nor...' ise iki şeyin de doğru/mevcut olmadığını anlatır (fiil olumlu formda kalır çünkü olumsuzluk zaten neither/nor'da vardır). Elliptical (kısa) yanıtlar, bir cümleyi tekrar etmek yerine 'So + yardımcı fiil + özne' (olumlu katılım) ya da 'Neither/Nor + yardımcı fiil + özne' (olumsuz katılım) ile aynı fikirde olduğumuzu kısaca gösterir.

When?

Use these structures to present two options (*either...or*), to say two things are both not true (*neither...nor*), or to briefly agree with what someone just said (*So do I / Neither do I*).

TR İki seçenek sunarken (*either...or*), iki şeyin de doğru/mevcut olmadığını belirtirken (*neither...nor*), ya da bir arkadaşının söylediğine kısaca katılırken (*So do I / Neither do I*) bu yapıları kullanırız.

POSITIVE	NEGATIVE	QUESTION	SHORT ANSWERS
You can choose either Art or Music. So do I. / So am I.	Neither Ali nor his partner finished the project.	Would you rather study either subject?	Either is fine. / So do I. Neither, thanks. / Neither am I.

X WRONG	✓ RIGHT	WHY?
Neither Ali or his partner finished it.	Neither Ali nor his partner finished it.	'Neither' pairs with 'nor', not 'or'. TR 'Neither' ile 'nor' birlikte kullanılır, 'or' ile değil.
A: I love group projects. B: So I do.	B: So do I.	In the elliptical response, the auxiliary comes before the subject: So + do/am/is/are + subject. TR Elliptical yanıtta yardımcı fiil öznenen ÖNCE gelir: So + do/am/is/are + özne.
A: I can't concentrate here. B: Neither I can.	B: Neither can I.	Again, the auxiliary comes before the subject: Neither + can + I. TR Aynı şekilde, yardımcı fiil öznenen önce gelir.

19 Choose the correct option.

3 × 1 pts

- You can revise _____ your notes _____ the online summary — both work well.
(a) either / or (b) neither / nor (c) both / and

Date

Aim Understand the main idea and details, make inferences and connect the text to your own life.**1 Before you read***Make predictions before you read.*

1. Look at the title. What do you think Deniz's and Mira's favourite subjects will be, and why might they like them?
2. What is your own favourite subject, and what kind of learning activities does it usually involve?

Two Students, Two Favourite Subjects

- 1 Deniz has always loved Biology. Every week, her class does at least one hands-on activity — dissecting a flower, growing bacteria in a petri dish, or building a model of a cell. 'I remember facts much better when I've actually done something with my hands,' she explains. 'If a teacher just talks for forty minutes, I switch off after ten.' Deniz also keeps a set of flashcards with labelled diagrams, which she reviews for ten minutes every evening rather than cramming before a test.
- 2 Mira, on the other hand, is far more excited by Coding, an elective course she chose in Year 9. She enjoys the logical, step-by-step nature of writing a programme, and she likes that mistakes are simply part of the process — a wrong line of code just produces an error message, not a bad grade. Mira mostly studies using online tutorials and a mind-mapping app, which helps her see how different commands connect to each other before she starts typing.
- 3 Although Deniz and Mira are interested in completely different subjects, their stories share an important lesson: a subject feels enjoyable when the learning activities match the way a person naturally thinks. Some students learn best by doing, others by connecting ideas visually, and others by listening and discussing. Recognising your own learning style — and choosing study tools that fit it — can turn even a difficult subject into one you look forward to.

1. What is the main idea of the text?
☐ a Biology is more useful than Coding.
☐ b A subject feels enjoyable when the learning activities match how a student thinks.
☐ c Mira and Deniz study in exactly the same way.
2. Deniz's class does at least one _____ activity every week, such as dissecting a flower.
3. According to the text, Mira likes Coding partly because:
☐ a mistakes are simply part of the process, not a bad grade ☐ b it has no homework
☐ c it doesn't require any study tools

A Guide to Smart Study Tools

- 1 Walk into almost any classroom today and you will find a mix of old and new study tools working side by side. Alongside the familiar exercise book and paper textbook, many students now use a digital textbook that highlights key vocabulary automatically, or a flashcard app that shows them a word

again just before they are likely to forget it. Teachers, too, increasingly rely on an interactive whiteboard to display diagrams, videos and quizzes that the whole class can respond to together.

- 2 One especially useful innovation is spaced repetition, the method behind many flashcard apps. Instead of reviewing everything the night before a test, students see each fact several times over a period of days or weeks, with longer gaps between each review. Research suggests that this approach helps information move from short-term to long-term memory far more effectively than last-minute cramming. Mind maps work on a similar principle: by connecting ideas visually, they make it easier to recall a whole topic rather than isolated facts.
- 3 However, no tool can replace regular practice and genuine understanding. A flashcard app can help you memorise vocabulary, but it cannot teach you to write a full paragraph; an interactive whiteboard can make a lesson more engaging, but students still need to take notes and think for themselves. The most effective students are usually not the ones with the most expensive gadgets, but the ones who choose a small number of tools that suit their own learning style and use them consistently.

4 × 2 pts

Circle the correct option.

1. What is the main purpose of this text?
 - a To argue that paper textbooks should disappear completely
 - b To explain different study tools and how to use them effectively
 - c To describe the history of the interactive whiteboard
2. The method behind many flashcard apps, which shows facts again after longer gaps, is called _____.
3. According to the text, the most effective students always own the most expensive gadgets.
☐ Correct ☐ Incorrect
4. Why does the writer say 'no tool can replace regular practice'?
 - a Because study tools are not useful at all
 - b Because tools can help with some tasks, but students still need to practise and understand
 - c Because interactive whiteboards are too expensive for most schools

3 After you read

Write short answers. Then compare with a partner.

1. Which study tool from the text would you like to try? Why?

2. Do you agree that 'no tool can replace regular practice'? Explain your opinion with an example.
