

YEAR 9 (AFTER PREP) · THEME 8 · LIFE IN THE UNIVERSE & THE FUTURE

Answer Key

B2.1

Öğretmen için — öğrencilere dağıtılmaz

Hazırlık Sonrası 9. Sınıf

Vocabulary · Exercise 1

- | | |
|-------|-------|
| 1 – e | 5 – h |
| 2 – c | 6 – g |
| 3 – b | 7 – f |
| 4 – d | 8 – a |

Vocabulary · Exercise 2

- | | |
|-----------------------------|--------------------------|
| 1 – habitable | 5 – resource consumption |
| 2 – colonise | 6 – sustainable |
| 3 – artificial intelligence | 7 – renewable energy |
| 4 – overpopulation | 8 – space exploration |

Grammar · Discover A (Zero Conditional (General Truths and Scientific Facts))

- | | |
|---------------------------------------|----------------|
| 1 – general truths / scientific facts | 3 – if or when |
| 2 – Simple Present | |

Grammar · Discover B — model answers

- | | |
|---|---|
| 1 – If you heat water, it boils. | 4 – If scientists find liquid water, it usually suggests possible life. |
| 2 – If there is no gravity, objects float. | |
| 3 – If a star runs out of fuel, it eventually dies. | 5 – What happens if an astronaut does not wear a suit? |

Grammar · Exercise 1

- | | |
|--------------|-------------|
| 1 – a) runs | 3 – a) heat |
| 2 – a) float | |

Grammar · Exercise 2

- | | |
|---------|----------------|
| 1 – has | 2 – don't grow |
|---------|----------------|

Grammar · Exercise 3

- | | |
|-------------|--|
| 1 – Correct | 2 – Incorrect → If a rocket loses power, it falls back to Earth. |
|-------------|--|

Grammar · Exercise 4

1 – happens / loses

Grammar · Exercise 5

1 – If a planet has an atmosphere, it can support life.

Grammar · Discover A (First Conditional (Real Future Possibilities))

1 – a real, possible future result

3 – will + base verb

2 – Simple Present

Grammar · Discover B – model answers

1 – If we develop better technology, we will solve the overpopulation problem.

3 – If the mission is successful, astronauts will land on Mars by 2040.

2 – If we don't reduce resource consumption, future generations will suffer.

4 – If you discover a new planet, what will you call it?

Grammar · Exercise 6

1 – a) don't reduce

3 – a) will have

2 – b) will land

Grammar · Exercise 7

1 – develop

2 – will get

Grammar · Exercise 8

1 – Correct

2 – Incorrect → If we do not protect the environment, life will become harder.

Grammar · Exercise 9

1 – will happen / discover

Grammar · Exercise 10

1 – If the mission is successful, astronauts will land on Mars by 2040.

Grammar · Discover A (Second Conditional (Unreal or Unlikely Present-Future Situations))

1 – unreal or unlikely

3 – would + base verb

2 – Simple Past

4 – were

Grammar · Discover B — model answers

1 – If I were a scientist, I would focus on renewable energy.

2 – If humanity discovered another Earth-like planet, it would not solve our problems immediately.

3 – If governments invested more in space research, we would travel to other planets sooner.

4 – What would you do if you had the chance to travel to space?

Grammar · Exercise 11

1 – b) lived

2 – c) were

3 – b) would

Grammar · Exercise 12

1 – invested

2 – wouldn't solve / would not solve

Grammar · Exercise 13

1 – Correct

2 – Incorrect → If humans lived on the Moon, they would need domes.

Grammar · Exercise 14

1 – could / would it look

Grammar · Exercise 15

1 – If we lived on Mars, we would need oxygen.

Grammar · Discover A (Wish Clauses (Wishes about the Present and the Past))

1 – Simple Past / a present situation you want to be different

2 – Past Perfect / a past situation you regret

3 – could + base verb

Grammar · Discover B — model answers

1 – Scientists wish they knew more about distant galaxies.

2 – I wish humanity had discovered a habitable planet years ago.

3 – She wishes she could travel to space.

4 – I wish we had started protecting the environment earlier.

Grammar · Exercise 16

1 – b) knew

2 – b) had

3 – b) could

Grammar · Exercise 17

1 – had

2 – had discovered

Grammar · Exercise 18

1 – Correct

2 – Incorrect → I wish scientists would find a solution soon.

Grammar · Exercise 19

1 – were / had started

Grammar · Exercise 20

1 – I wish we had cleaner energy.

Reading · The Hunt for a Second Earth

1 – b) Astronomers are searching for exoplanets that could support life, but the conditions are very strict.

4 – Incorrect → Only a small fraction of exoplanets discovered so far could realistically host life.

2 – liquid water

5 – radiation

3 – b) too hot

Reading · Life in 2126: Three Predictions

1 – b) Predictions about energy, technology and space in the next century

tasks once done only by humans.

2 – renewable energy

4 – a) They may become almost completely self-sufficient.

3 – Incorrect → Machines already perform many

5 – Moon

Listening · A Podcast About Habitable Planets

1 – a) The right distance from its star

3 – heat

2 – Incorrect → Mars lost most of its atmosphere millions of years ago.

4 – a) More evidence, such as signs of gases produced by living things

Listening · Class Talk: The Future Solutions Project

1 – b) Design a technology that solves a universal issue and write a futuristic journal entry

3 – Incorrect → Students will present their ideas in pairs.

2 – environmental crises

Revision · Quick check

- | | |
|--|---|
| 1 – a) has | 9 – a) change its environment to make it suitable for life |
| 2 – b) will have | |
| 3 – lived | 10 – colonised |
| 4 – had | 11 – Robots will probably do most factory jobs in the future. |
| 5 – b) If you heat water, it boils. | 12 – Incorrect → If robots replace factory workers, many people will need new skills. |
| 6 – Incorrect → If humanity discovered a new planet, it would change everything. | 13 – I wish we had flying cars. |
| 7 – had discovered | 14 – a) AI ethics specialist |
| 8 – a) habitable | |

Test · 1 · Vocabulary

- | | |
|------------------|-----------------------|
| 1 – a) habitable | 3 – b) exoplanet |
| 2 – a) renewable | 4 – a) overpopulation |

Test · 2 · Grammar

- | | |
|--------------------|-----------------------|
| 1 – a) boils | 4 – b) had |
| 2 – b) will search | 5 – b) had discovered |
| 3 – c) were | |

Test · 3 · Reading

- | | |
|--|------------------------|
| 1 – b) A permanent base on the Moon | recycle water and air. |
| 2 – Incorrect → Engineers are testing systems that | 3 – decades |

Test · 4 · Writing

1 –

Test · 5 · Speaking (öğretmen değerlendirmesi)

1 –
