GRAMMAR

Simple Present and Present Progressive for the Future

Notice

Our English exam **starts** at nine o'clock on Monday.

I **am revising** Chemistry with Elif this evening.

The new term **begins** next Monday, according to the school calendar.

We **are trying** a new study app next week — the teacher already booked the tablets.

Which sentences describe a fixed timetable or schedule, and which describe a personal plan or arrangement someone has already made?

Complete the rule

Look at the Notice sentences again. Complete the rule with the words in the box.

is/are + -ing

base verb (+s/es)

a fixed timetable or programme

a personal arrangement

Complete the rule

For _____ (school terms, exam dates, timetables), we use the Simple Present: _____.

✓ a fixed timetable or programme / base verb (+s/es)

Complete the rule

For _____ that a person has already planned, we use the Present Progressive: _____.

✓ a personal arrangement / is/are + -ing

The rule

We use the Simple Present for future events fixed by a timetable, programme or official calendar. We use the Present Progressive for a personal future arrangement that has already been planned.

TR Sabit bir program, ders programı ya da resmi takvime göre gerçekleşecek gelecek olaylar için Simple Present kullanılır. Kişisel olarak önceden planlanmış bir gelecek etkinlik için ise Present Progressive kullanılır.

When? Use the Simple Present for exam dates, timetables and the school calendar; use the Present Progressive for personal arrangements, like studying with a friend.

TR Sınav tarihlerini, ders programını ya da okul takvimini anlatırken Simple Present; bir arkadaşla ders çalışma planı gibi kişisel düzenlemelerden bahsederken Present Progressive kullanırız.

GRAMMAR

Present Progressive with 'always' + Question Tags

Notice

My desk mate **is always asking** me for a pen — it's a bit annoying!

You always do your homework early, **don't you**?

She **is always forgetting** her textbook, isn't she?

We aren't having a test this week, **are we**?

In the first and third sentences, does 'always' describe a neutral habit or something that annoys the speaker? How are the question tags formed after each type of sentence?

Complete the rule

Complete the rule with the words in the box.

annoying or surprising

negative

positive

same auxiliary/be verb

Complete the rule

Present Progressive + always describes a habit the speaker finds _____ (not a neutral fact).

✓ annoying or surprising

Complete the rule

A positive statement takes a _____ tag.

✓ negative

Complete the rule

A negative statement takes a _____ tag.

✓ **positive**

Complete the rule

The tag repeats the _____ from the main sentence.

✓ **same auxiliary/be verb**

The rule

Present Progressive + always describes a frequent habit that annoys or surprises the speaker (different from a neutral habit with Simple Present). A question tag adds a negative tag to a positive statement and a positive tag to a negative statement, repeating the same auxiliary/be verb.

TR 'Always' ile Present Progressive kullanıldığında, sık tekrar eden ve genellikle konuşanı rahatsız eden ya da şaşırtan bir alışkanlığı anlatır (nötr bir alışkanlıktan farklıdır). Question tag ise olumlu cümleye olumsuz, olumsuz cümleye olumlu bir kısa soru ekler; yardımcı fiil ana cümledekiyle aynı olur.

When? Use always + -ing to complain about a classmate's repeated, annoying behaviour; use question tags to confirm information or keep a conversation going.

TR Bir arkadaşının sürekli tekrar eden ve seni rahatsız eden bir davranışından şikayet ederken 'always + -ing' kullanırız; bir bilgiyi teyit etmek istediğimizde question tag ekleriz.

GRAMMAR

Adverbs from Adjectives (Regular and Irregular)

Notice

Ali answered the question **quickly** and **confidently**.

She always works **hard** in Chemistry, and she speaks English **fluently** too.

He did **well** in the presentation, although he felt nervous.

The teacher explained the new topic **clearly**, so we understood it easily.

Which words describe HOW someone does something? What happens to the adjective 'easy' when it becomes an adverb — and which adverb here does NOT end in -ly?

Complete the rule

Complete the rule with the words in the box.

-ily

-ly

well

the same form (hard, fast, late)

Complete the rule

Most adjectives become adverbs by adding _____ (quick → quickly).

✓ **-ly**

Complete the rule

Adjectives ending in -y change y to i and add _____ (easy → easily).

✓ **-ily**

Complete the rule

Some adjectives keep _____ as adverbs (a hard worker → work hard).

✓ the same form (hard, fast, late)

Complete the rule

'Good' has an irregular adverb: _____.

✓ **well**

The rule

Most adjectives add -ly to become adverbs (quick→quickly). Adjectives ending in -y change to -ily (easy→easily). Some adjectives keep the same form as adverbs (hard, fast, late). 'Good' has an irregular adverb: well.

TR Çoğu sıfat sonuna -ly eklenerek zarf olur (quick→quickly). -y ile biten sıfatlarda y, i'ye dönüşür ve -ly eklenir (easy→easily). Bazı sıfatlar zarf olarak da aynı kalır (hard, fast, late). 'Good' sıfatının zarfı düzensizdir: well.

When? We use adverbs to describe HOW an action is done — how someone answered a question, gave a presentation, or completed a task.

TR Bir eylemin NASIL yapıldığını anlatırken (bir sunumu nasıl yaptın, bir soruyu nasıl cevapladın gibi) zarf kullanırız.

Build sentences · Example

She explained the rule. (clear)

She explained the rule clearly.

Build sentences

He answered every question. (confident)

He answered every question confidently.

Build sentences

They finished the project. (easy)

GRAMMAR

Adjectives: -ed vs -ing

Notice

I'm really **interested** in Biology — the topics are so **interesting**.

This maths problem is **confusing**; I feel completely **confused**.

The new coding club sounds **exciting** — I'm so **excited** to join!

Some students feel **bored** in long lectures because the teacher's style is **boring**.

Which adjectives describe a PERSON'S feeling, and which describe the THING or SITUATION that causes that feeling?

Complete the rule

Complete the rule with the words in the box.

-ing

-ed

the person who feels something

the thing or situation that causes the feeling

Complete the rule

Adjectives ending in _____ describe _____.

✓ **-ed / the person who feels something**

Complete the rule

Adjectives ending in _____ describe _____.

✓ -ing / the thing or situation that causes the feeling

The rule

Adjectives ending in -ed describe how a person feels (I am interested). Adjectives ending in -ing describe the thing or situation that causes that feeling (The topic is interesting).

TR -ed ile biten sıfatlar, bir kişinin hissettiği duyguyu anlatır (I am interested = ilgileniyorum). -ing ile biten sıfatlar ise o duyguya sebep olan şeyi ya da durumu anlatır (The topic is interesting = konu ilgi çekici).

When? Choosing correctly between -ed and -ing matters when you describe how a lesson, topic or tool affects you.

TR Bir dersten, konudan ya da araçtan nasıl etkilendiğini anlatırken -ed/-ing sıfatlarını doğru seçmek önemlidir.

Build sentences · Example

This lesson is really _____. (interest)

GRAMMAR

Correlative Conjunctions (either...or / neither...nor) and Elliptical Responses

Notice

You can choose **either** Art **or** Music as your elective this term.

Neither Ali **nor** his desk mate finished the group project on time.

A: I really enjoy Biology. B: **So do I.**

A: I don't like early morning lessons. B: **Neither do I.**

How do 'either...or' and 'neither...nor' connect two choices? Do the short replies 'So do I' and 'Neither do I' repeat the whole sentence, or just agree/disagree briefly?

Complete the rule

Complete the rule with the words in the box.

two positive choices

two negative ideas

agree with a positive statement

agree with a negative statement

Complete the rule

'Either... or...' connects _____ (you can pick one).

✓ **two positive choices**

Complete the rule

'Neither... nor...' connects _____ (both are not true).

✓ **two negative ideas**

Complete the rule

'So + auxiliary + subject' (So do I) is used to _____ .

✓ agree with a positive statement

Complete the rule

'Neither + auxiliary + subject' (Neither do I) is used to _____.

✓ agree with a negative statement

The rule

'Either... or...' expresses a choice between two positive options. **'Neither... nor...'** shows that two things are both not true (the verb stays positive because the negative idea is already in neither/nor). Elliptical short responses use **'So + auxiliary + subject'** to agree with a positive statement, and **'Neither/Nor + auxiliary + subject'** to agree with a negative one, instead of repeating the whole sentence.

TR 'Either... or...' iki olumlu seçenekten birini ifade eder. 'Neither... nor...' ise iki şeyin de doğru/mevcut olmadığını anlatır (fiil olumlu formda kalır çünkü olumsuzluk zaten neither/nor'da vardır). Elliptical (kısa) yanıtlar, bir cümleyi tekrar etmek yerine 'So + yardımcı fiil + özne' (olumlu katılım) ya da 'Neither/Nor + yardımcı fiil + özne' (olumsuz katılım) ile aynı fikirde olduğumuzu kısaca gösterir.

When? Use these structures to present two options (either...or), to say two things are both not true (neither...nor), or to briefly agree with what someone just said (So do I / Neither do I).

TR İki seçenek sunarken (either...or), iki şeyin de doğru/mevcut olmadığını belirtirken (neither...nor), ya da bir arkadaşının söylediğine kısaca katılırken (So do I / Neither do I) bu yapıları kullanırız.

Build sentences · Example

You can study Chemistry.

Your turn

Write two sentences using either...or or neither...nor about your school subjects, and two short elliptical replies (So do I / Neither do I / So am I / Neither am I) agreeing with a partner's opinion.

I can study either...

Neither... nor...

So do I.

Neither am I.

Form

POSITIVE

You can choose either Art or Music.

So do I. / So am I.

NEGATIVE

Neither Ali nor his partner finished the project.

READING

Two Students, Two Favourite Subjects

Before you read

1. Look at the title. What do you think Deniz's and Mira's favourite subjects will be, and why might they like them?
2. What is your own favourite subject, and what kind of learning activities does it usually involve?

TWO STUDENTS, TWO FAVOURITE SUBJECTS · 1 / 3

Deniz has always loved Biology. Every week, her class does at least one hands-on activity — dissecting a flower, growing bacteria in a petri dish, or building a model of a cell. 'I remember facts much better when I've actually done something with my hands,' she explains. 'If a teacher just talks for forty minutes, I switch off after ten.' Deniz also keeps a set of flashcards with labelled diagrams, which she reviews for ten minutes every evening rather than cramming before a test.

TWO STUDENTS, TWO FAVOURITE SUBJECTS · 2 / 3

Mira, on the other hand, is far more excited by Coding, an elective course she chose in Year 9. She enjoys the logical, step-by-step nature of writing a programme, and she likes that mistakes are simply part of the process — a wrong line of code just produces an error message, not a bad grade. Mira mostly studies using online tutorials and a mind-mapping app, which helps her see how different commands connect to each other before she starts typing.

TWO STUDENTS, TWO FAVOURITE SUBJECTS · 3 / 3

Although Deniz and Mira are interested in completely different subjects, their stories share an important lesson: a subject feels enjoyable when the learning activities match the way a person naturally thinks. Some students learn best by doing, others by connecting ideas visually, and others by listening and discussing. Recognising your own learning style — and choosing study tools that fit it — can turn even a difficult subject into one you look forward to.

While you read

What is the main idea of the text?

a

Biology is more useful than Coding.

b

A subject feels enjoyable when the learning activities match how a student thinks.

c

Mira and Deniz study in exactly the same way.

While you read

Deniz's class does at least one _____ activity every week, such as dissecting a flower.

✓ hands-on

While you read

According to the text, Mira likes Coding partly because:

a mistakes are simply
part of the process, not
a bad grade

b it has no homework

c it doesn't require any
study tools

While you read

Deniz prefers to cram all her revision the night before a test.

a Correct

b Incorrect

✓ **Deniz reviews her flashcards for ten minutes every evening, rather than cramming.**

While you read

Mira uses a _____ app to see how different commands connect before she starts typing.

✓ **mind-mapping**

After you read

1. Whose learning style is more similar to yours — Deniz's or Mira's? Why?
2. Write one sentence about a study tool that helps you learn your favourite subject.

READING

A Guide to Smart Study Tools

Before you read

1. What study tools or apps do you already use to help you learn?
2. Do you think old tools like paper notebooks are still useful, or have digital tools replaced them completely?

A GUIDE TO SMART STUDY TOOLS · 1 / 3

Walk into almost any classroom today and you will find a mix of old and new study tools working side by side.

Alongside the familiar exercise book and paper textbook, many students now use a digital textbook that highlights key vocabulary automatically, or a flashcard app that shows them a word again just before they are likely to forget it. Teachers, too, increasingly rely on an interactive whiteboard to display diagrams, videos and quizzes that the whole class can respond to together.

A GUIDE TO SMART STUDY TOOLS · 2 / 3

One especially useful innovation is spaced repetition, the method behind many flashcard apps. Instead of reviewing everything the night before a test, students see each fact several times over a period of days or weeks, with longer gaps between each review. Research suggests that this approach helps information move from short-term to long-term memory far more effectively than last-minute cramming. Mind maps work on a similar principle: by connecting ideas visually, they make it easier to recall a whole topic rather than isolated facts.

A GUIDE TO SMART STUDY TOOLS · 3 / 3

However, no tool can replace regular practice and genuine understanding. A flashcard app can help you memorise vocabulary, but it cannot teach you to write a full paragraph; an interactive whiteboard can make a lesson more engaging, but students still need to take notes and think for themselves. The most effective students are usually not the ones with the most expensive gadgets, but the ones who choose a small number of tools that suit their own learning style and use them consistently.

While you read

What is the main purpose of this text?

- a To argue that paper textbooks should disappear completely
- b To explain different study tools and how to use them effectively**
