A Day at Balıkesir Lisesi

Before you read

- What time does your school start?
- What rules does your school have about uniforms?

Balıkesir Lisesi opens its gates at half past seven every morning. Students must arrive before eight o'clock, because the first lesson starts exactly at eight. At the gate, a teacher checks that everyone is wearing the correct uniform.

The principal, Mrs. Aydın, welcomes new students on their first day and explains the most important rules: students mustn't use their phones during lessons, and they must ask for permission before leaving the classroom.

Every Monday, the whole school gathers in the yard for a short ceremony. Students raise the flag and listen to the national anthem. On special national days, like the 23rd of April, the ceremony is longer and every class prepares a small performance.
