Predictions About Space

Groups of 3 · 8 min

Discuss three predictions about the future of space travel using will/won't.

Useful language: I think... will..., ...probably won't..., In the future, humans will...

1. Brainstorm three predictions about space travel.
2. Discuss how likely each one is.
3. Share your group's most interesting prediction with the class.

Writing

Life in the Future

100-120 words

Write a paragraph with your predictions about space exploration and life in the future, using will/won't.

Plan:

1. Make two predictions about space exploration using will.
2. Make one prediction about what won't happen soon.
3. Explain why you think this.

Checklist:

- ☐ I used will/won't correctly.
- ☐ I made at least three predictions.
- ☐ I used theme vocabulary about space.
