A Walk Around My Neighbourhood

Before you read

- What places are there in your neighbourhood?

My neighbourhood is small but convenient. There is a pharmacy next to my building, and there are two bakeries on the main street. If I need to send a parcel, the post office is just a five-minute walk away.

For recreation, there is a nice park with a running track opposite the school. At the weekend, the park can get crowded, especially near the roundabout where children play.

Getting around is easy too — there is a bus stop right outside my door, and the subway station is only two streets away. The bus fare is cheap, so most people use public transport instead of cars.

1. Where is the post office?
 - a. Next to the pharmacy
 - b. A five-minute walk away
 - c. Opposite the school
 - d. Near the roundabout
2. The park is _____ the school.
3. The subway station is far from the writer's home. — *True / False*

After you read

- Describe two places near your own home.
