Vocabulary — 12 words

Word	IPA	Turkish	Example
solar system <i>noun</i>	/ˈsəʊləɹ ˈsɪstəm/	güneş sistemi	There are eight planets in our solar system.
planet <i>noun</i>	/ˈplænɪt/	gezegen	Mars is a red planet.
satellite <i>noun</i>	/ˈsætələɪt/	uydu	The Moon is Earth's natural satellite.
orbit <i>verb/noun</i>	/ˈɔːrbɪt/	yörünge/yörüngede dönmek	The Earth orbits the Sun once a year.
atmosphere <i>noun</i>	/ˈætməsfɪər/	atmosfer	Earth's atmosphere protects us from the Sun's rays.
gravity <i>noun</i>	/ˈgrævəti/	yerçekimi	Gravity keeps our feet on the ground.
surface <i>noun</i>	/ˈsɜːrfɪs/	yüzey	The surface of the Moon is covered in dust.
moon <i>noun</i>	/muːn/	ay/uydu	Jupiter has many moons.
galaxy <i>noun</i>	/ˈgæləksi/	galaksi	Our galaxy is called the Milky Way.
distance <i>noun</i>	/ˈdɪstəns/	mesafe	The distance between Earth and the Sun is huge.
temperature <i>noun</i>	/ˈtemprətʃər/	sıcaklık	The temperature on Venus is extremely high.
rotate <i>verb</i>	/ˈroʊteɪt/	dönmek (kendi ekseninde)	The Earth rotates once every 24 hours.

Have to / Don't have to — Facts and Necessity

Use 'have to' for things that are necessary (facts or rules), and 'don't have to' when something is not necessary.

'Have to' bir şeyin gerekli olduğunu (kural ya da gerçek), 'don't have to' ise gerekli olmadığını belirtir.

When? Use have to/don't have to for scientific facts and necessities related to space.

Uzayla ilgili bilimsel gerçekler ve zorunluluklar için kullanılır.

Positive

- Astronauts have to train for years.

Negative

- We don't have to worry about gravity on Earth.

Question

- Do astronauts have to wear helmets?

Short answers

- Yes, they do. / No, they don't.

Common mistakes

- ~~Astronauts has to wear suits.~~ → **Astronauts have to wear suits.**

1. Astronauts _____ (have to) wear special suits in space.

2. On Earth, we _____ (not/have to) wear oxygen tanks.

3. Choose the correct sentence.

- a. She have to study space science.
- b. She has to study space science.
- c. She having to study space science.
- d. She haves to study space science.

4. Rewrite: it is necessary for satellites to orbit fast. (Use *have to*)

Our Solar System

Before you read

- How many planets do you know in our solar system?

Our solar system has eight planets that orbit the Sun. The closest planet to the Sun is Mercury, and the farthest is Neptune. Each planet has a different surface, atmosphere, and temperature.

Earth is special because it has an atmosphere that we can breathe and a perfect distance from the Sun, which keeps the temperature comfortable for life. Astronauts who travel to other planets have to wear special suits, because those planets don't have a breathable atmosphere.

The Moon is Earth's only natural satellite. It doesn't have its own light — it simply reflects light from the Sun. Many other planets in our solar system, like Jupiter and Saturn, have several moons.

1. Which planet is closest to the Sun?

- a. Earth
- b. Mercury
- c. Neptune
- d. Mars

2. The Moon is Earth's only natural _____.

3. Astronauts don't have to wear special suits on other planets. — *True / False*

After you read

- Which planet would you like to visit, and why?

A School Trip to the Planetarium

Before you listen

- Have you ever visited a planetarium or observatory?
1. How many moons does Jupiter have, according to the guide?
 - a. One
 - b. Several
 - c. None
 - d. Two
 2. Students _____ (have to) wear headphones during the show.

Planet Facts Quiz

Groups of 3 · 8 min

Share three facts about a planet of your choice using have to / don't have to and vocabulary from this theme.

Useful language: This planet has to..., Astronauts don't have to..., The atmosphere/surface/temperature is...

1. Choose a planet.
2. Research or recall three facts.
3. Present the facts to your group.

Writing

A Planet Fact File

60-80 words

Write a short fact file about a planet: its distance from the Sun, its atmosphere, and one interesting fact using have to/don't have to.

Plan:

1. Name the planet and its position in the solar system.
2. Describe its atmosphere and temperature.
3. Add one fact about astronauts using have to/don't have to.

Checklist:

- ☐ I used have to/don't have to correctly.
- ☐ I used at least three theme vocabulary words.
- ☐ I included one interesting fact.

1. 'Yerçekimi' means _____.
 - a. gravity
 - b. orbit
 - c. atmosphere
 - d. galaxy
2. Astronauts _____ (have to) train for years.
3. Which planet is farthest from the Sun?
 - a. Mercury
 - b. Earth
 - c. Neptune
 - d. Mars
4. The Moon reflects light from the Sun. — *True / False*
5. We _____ (not/have to) wear spacesuits on Earth.
6. According to the listening, students have to wear what?
 - a. Suits
 - b. Helmets
 - c. Headphones
 - d. Gloves
7. 'Uydu' means _____.
 - a. satellite
 - b. galaxy
 - c. orbit
 - d. surface
8. The Earth _____ (rotate) once every 24 hours.

Homework

AbOnlinEnglish Upper Secondary — Lise Hazırlık — Complete Theme · Orijinal içerik, TYMM müfredatıyla uyumlu.

Vocabulary

1. 'Atmosfer' means _____.
 - a. atmosphere
 - b. gravity
 - c. surface
 - d. distance
2. Our galaxy is called the Milky _____ (Way).

Grammar

1. Choose the correct sentence.
 - a. He have to study hard.
 - b. He has to study hard.
 - c. He having to study.
 - d. He haves to study.
2. _____ astronauts have to wear helmets? (question)

Reading

1. Why is Earth special, according to the text?
 - a. It has no atmosphere
 - b. It has a breathable atmosphere and good distance from the Sun
 - c. It has the most moons
 - d. It is closest to the Sun

Listening

1. Jupiter has more moons than any other planet, according to the guide. — *True / False*
