

Lesson Plans

Lesson 1 · Introducing Space and the Universe (40 min)

Target language: Basic space vocabulary; I think there is/isn't life on other planets.

Materials: Board, Vocabulary cards, Projector (optional)

1. **5 min** Warm-up: Ask students what they know about space and the universe. (T-S)
2. **10 min** Present key vocabulary (planet, galaxy, universe, star) with visuals. (T-S)
3. **10 min** Students match words to definitions in pairs. (pairs)
4. **10 min** Short discussion: Do you think there is life on other planets? (pairs)
5. **5 min** Feedback and wrap-up. (T-S)

Assessment: Teacher monitors vocabulary matching accuracy and discussion participation.

Support: Provide a word-picture matching handout.

Core: Standard vocabulary and discussion tasks.

Extension: Ask students to add three more space words they already know.

Homework: Look up 3 more space-related words and their Turkish meanings.

Lesson 2 · Planets of the Solar System (40 min)

Target language: Describing planets: size, distance, temperature

Materials: Solar system diagram, Worksheet

1. **5 min** Warm-up: Name the planets you know in English. (individual)
2. **10 min** Teach new vocabulary (orbit, gravity, distance, surface, atmosphere). (T-S)
3. **15 min** Pair work: Ask and answer questions about planets using a fact sheet. (pairs)
4. **5 min** Class quiz on planet facts. (T-S)
5. **5 min** Wrap-up and preview of next lesson. (T-S)

Assessment: Check accuracy of question-answer exchanges in pairs.

Support: Provide sentence frames for questions and answers.

Core: Standard pair-work practice.

Extension: Students research one extra planet fact to share.

Homework: Write 3 sentences describing your favourite planet.

Lesson 3 · Space Exploration Vocabulary (40 min)

Target language: Space exploration vocabulary and pronunciation

Materials: Vocabulary list, Audio for pronunciation (optional)

1. **5 min** Warm-up: Show pictures of a rocket, astronaut, and space station. (T-S)
2. **10 min** Present vocabulary with pronunciation practice. (T-S)
3. **15 min** Students create original sentences with new words in pairs. (pairs)
4. **5 min** Volunteers share sentences with the class. (individual)
5. **5 min** Pronunciation drill and wrap-up. (T-S)

Assessment: Teacher checks pronunciation and correct word usage in sentences.

Support: Provide a sentence-starter list.

Core: Standard sentence-building task.

Extension: Students write a short paragraph using 5 new words.

Homework: Practice pronouncing the 10 new words at home.

Lesson 4 · Zero Conditional — Noticing the Pattern (40 min)

Target language: Zero conditional: If + present simple, present simple

Materials: Grammar handout, Board

1. **5 min** Warm-up: Show notice sentences about zero conditional on the board. (T-S)
2. **10 min** Guide students to notice the pattern (present simple + present simple). (T-S)
3. **15 min** Complete gap-fill practice on zero conditional individually, then check in pairs. (individual/pairs)
4. **5 min** Class feedback and correction. (T-S)
5. **5 min** Wrap-up: Elicit the rule from students. (T-S)

Assessment: Review gap-fill answers for correct verb forms.

Support: Provide the rule explicitly before the gap-fill.

Core: Standard noticing and gap-fill task.

Extension: Students write two extra zero conditional facts about nature.

Homework: Complete 4 zero conditional sentences from the workbook.

Lesson 5 · Zero Conditional — Building Sentences (40 min)

Target language: Building zero conditional sentences from cues

Materials: Cue cards, Worksheet

1. **5 min** Quick review of zero conditional rule. (T-S)
2. **15 min** Students build sentences from cue cards in pairs. (pairs)
3. **10 min** Students write 2-3 original zero conditional sentences about space. (individual)
4. **5 min** Share sentences with the class. (individual)
5. **5 min** Wrap-up and error correction. (T-S)

Assessment: Collect and check original sentences for correct structure.

Support: Provide sentence starters for the writing task.

Core: Standard cue-based sentence building.

Extension: Students correct 2 intentionally wrong sentences from the teacher.

Homework: Write 5 original zero conditional sentences.

Lesson 6 · First Conditional — Noticing the Pattern (40 min)

Target language: First conditional: If + present simple, will + base verb

Materials: Grammar handout, Board

1. **5 min** Warm-up: Show notice sentences about first conditional on the board. (T-S)
2. **10 min** Guide students to notice the pattern (present simple + will). (T-S)
3. **15 min** Complete gap-fill practice on first conditional individually, then check in pairs. (individual/pairs)
4. **5 min** Class feedback and correction. (T-S)
5. **5 min** Wrap-up: Elicit the rule and compare with zero conditional. (T-S)

Assessment: Review gap-fill answers for correct verb forms.

Support: Provide the rule explicitly before the gap-fill.

Core: Standard noticing and gap-fill task.

Extension: Students explain in their own words the difference between zero and first conditional.

Homework: Complete 4 first conditional sentences from the workbook.

Lesson 7 · First Conditional — Building Sentences (40 min)

Target language: Building first conditional sentences from cues

Materials: Cue cards, Worksheet

1. **5 min** Quick review of first conditional rule. (T-S)
2. **15 min** Students build sentences from cue cards in pairs. (pairs)
3. **10 min** Students write 2-3 original first conditional predictions about space travel. (individual)
4. **5 min** Share sentences with the class. (individual)
5. **5 min** Wrap-up and error correction. (T-S)

Assessment: Collect and check original sentences for correct structure.

Support: Provide sentence starters for the writing task.

Core: Standard cue-based sentence building.

Extension: Students correct 2 intentionally wrong sentences from the teacher.

Homework: Write 5 original first conditional sentences.

Lesson 8 · Grammar Practice — Zero vs. First Conditional (40 min)

Target language: Distinguishing zero and first conditional

Materials: Mixed practice worksheet

1. **5 min** Warm-up: Quick review comparing the two conditional forms. (T-S)
2. **20 min** Students complete mixed practice items (gap-fill, MCQ, judge, order, rewrite). (individual)
3. **10 min** Pair check and discussion of tricky items. (pairs)
4. **5 min** Class feedback and error correction. (T-S)

Assessment: Check mixed practice worksheet for accuracy.

Support: Highlight the compare table before starting.

Core: Standard mixed practice.

Extension: Students complete challenge-level items.

Homework: Complete remaining mixed practice items.

Lesson 9 · Reading — Our Neighbours in Space (40 min)

Target language: Reading for main idea and detail about planets

Materials: Reading text 'Our Neighbours in Space', Question handout

1. **5 min** Pre-reading: predict what the text will mention based on the title. (T-S)
2. **10 min** Silent reading of the text. (individual)
3. **15 min** Answer comprehension questions individually, then check in pairs. (individual/pairs)
4. **5 min** Class discussion of answers. (T-S)
5. **5 min** Post-reading discussion questions. (pairs)

Assessment: Check comprehension question answers for accuracy.

Support: Pre-teach difficult vocabulary before reading.

Core: Standard reading comprehension task.

Extension: Students summarise the text in 3 sentences.

Homework: Re-read the text and underline all conditional sentences.

Lesson 10 · Reading — Are We Alone in the Universe? (40 min)

Target language: Inferring opinion; understanding cause-effect with conditionals

Materials: Reading text 'Are We Alone in the Universe?', Question handout

1. **5 min** Pre-reading discussion: Do you think there is life on other planets? (T-S)
2. **10 min** Silent reading of the text. (individual)
3. **15 min** Answer comprehension questions individually, then check in pairs. (individual/pairs)
4. **5 min** Class discussion of answers and the writer's opinion. (T-S)
5. **5 min** Post-reading discussion questions. (pairs)

Assessment: Check comprehension answers and inference question responses.

Support: Provide guiding questions for inference.

Core: Standard reading comprehension task.

Extension: Students discuss how they would feel if aliens were discovered.

Homework: Write 3 sentences giving your opinion about alien life.

Lesson 11 · Listening — A Day in the Life of an Astronaut (40 min)

Target language: Listening for main idea and detail about astronaut life

Materials: Listening transcript (read aloud by teacher), Question handout

1. **5 min** Pre-listening: What questions would you ask an astronaut? (T-S)
2. **10 min** First listening (teacher reads transcript): general understanding. (T-S)
3. **10 min** Second listening: students answer comprehension questions. (individual)
4. **10 min** Pair check and class feedback. (pairs)
5. **5 min** Post-listening discussion questions. (pairs)

Assessment: Check listening comprehension question answers.

Support: Give students the questions before listening.

Core: Standard listening comprehension task.

Extension: Students write 2 extra questions they would ask the astronaut.

Homework: Write a short paragraph about what surprised you most.

Lesson 12 · Speaking — Is There Life Out There? (40 min)

Target language: Expressing and discussing opinions using conditionals

Materials: Useful language handout

1. **5 min** Warm-up: quick poll — who believes in alien life? (T-S)
2. **5 min** Present useful language for opinions and agreeing/disagreeing. (T-S)
3. **20 min** Pair discussion task: Is There Life Out There? (pairs)
4. **5 min** A few pairs share their conclusions with the class. (individual)
5. **5 min** Wrap-up and feedback on language use. (T-S)

Assessment: Teacher monitors use of conditionals and useful language during discussion.

Support: Provide sentence starters and allow notes.

Core: Standard paired discussion.

Extension: Discuss the ethics of contacting alien life if found.

Homework: Write a short paragraph summarising your discussion.

Lesson 13 · Speaking — Plan a Space Mission & Writing Practice (40 min)

Target language: Planning and presenting a mission; describing a planet in writing

Materials: Mission planning template

1. **5 min** Warm-up: review key vocabulary for planning a mission. (T-S)
2. **15 min** Groups plan an imaginary space mission using the template. (groups)
3. **10 min** Groups present their mission briefly to the class. (groups)
4. **10 min** Individual writing: begin planning the 'Describe a Planet' task. (individual)

Assessment: Teacher monitors group presentations and writing plans.

Support: Provide a template with guiding prompts.

Core: Standard group planning and presentation.

Extension: Groups add a possible risk and solution to their mission plan.

Homework: Finish writing the 'Describe a Planet' text (120-150 words).

Lesson 14 · Writing — The Future of Space Travel & Theme Review (40 min)

Target language: Writing predictions about the future using first conditional; theme review

Materials: Writing task handout, Review quiz

1. **10 min** Plan the 'Future of Space Travel' essay individually using the planning steps. (individual)
2. **15 min** Write the essay, using at least two first conditional sentences. (individual)
3. **5 min** Peer-check using the self-check checklist. (pairs)
4. **5 min** Quick mixed review quiz covering the whole theme. (individual)
5. **5 min** Wrap-up: reflect on what was learned in this theme. (T-S)

Assessment: Collect essays and check checklist completion; review quiz results.

Support: Provide sentence starters and the checklist in advance.

Core: Standard essay writing and review quiz.

Extension: Stronger students add a counter-argument to their essay.

Homework: Finalise and submit the essay; review vocabulary for the theme test.
