

Teacher Guide

Curriculum snapshot

Level	B1.2
Hours	14
Sub-themes	Planets and space, Life in the universe, Space explorations
Target grammar	Zero conditional, First conditional

Learning outcomes

Code	Skill	Student can...
ENG.10.8.L1		understand the main idea of a talk about space
ENG.10.8.L2		find specific details in a listening about space
ENG.10.8.L3		follow a conversation about life in the universe
ENG.10.8.L4		recognise predictions and facts about the future
ENG.10.8.P1		pronounce space vocabulary correctly
ENG.10.8.R1		understand the main idea of a reading about space
ENG.10.8.R2		find details in a text about space
ENG.10.8.R3		understand the writer's opinion about alien life
ENG.10.8.R4		understand cause-effect ideas in a text about space
ENG.10.8.V1		use space and universe vocabulary
ENG.10.8.G1		use zero and first conditional correctly
ENG.10.8.W1		write sentences describing a planet
ENG.10.8.W2		write zero conditional sentences about space facts
ENG.10.8.W3		write first conditional predictions
ENG.10.8.W4		write a paragraph about the future of space
ENG.10.8.W5		write a diary entry as an astronaut
ENG.10.8.W6		plan writing about a space topic
ENG.10.8.W7		self-check my writing about space

Code	Skill	Student can...
AbOnlinEnglish Upper Secondary — 10. Sınıf — Teacher Guide · Orijinal içerik, TYMM müfredatıyla uyumlu.		
ENG.10.8.S1		express opinions about life on other planets
ENG.10.8.S2		discuss the pros and cons of space exploration
ENG.10.8.S3		ask and answer questions about planets
ENG.10.8.S4		make predictions about future space travel
ENG.10.8.S5		describe an imaginary space mission
ENG.10.8.S6		agree and disagree politely in a discussion

Book alignment

Theme	AbOnlinEnglish's Theme 8 material covers planets, space exploration, and life in the universe at the same topic scope as the book's Theme 8, using entirely original texts and tasks.
Outcome	24 original outcome statements were written for Theme 8, matching the skill areas of the book's unit without copying its official MEB wording.
Vocabulary	25 original space and astronomy words matching the topic scope of Theme 8, each with an original example sentence, not the book's own text.
Grammar	Two full original grammar entries were developed for zero and first conditional, the grammar points covered in the book's Theme 8, with entirely original notice sentences and practice items.
Reading	Two original reading passages (180-320 words) on planets and life in the universe were written to match the book's Theme 8 topic scope, with entirely original comprehension questions.
Listening	One original listening dialogue about an astronaut's daily routine was written to match the book's Theme 8 topic scope, with original comprehension questions.
Speaking	Two original speaking tasks were designed around discussing alien life and planning a space mission, matching the communicative goals of the book's Theme 8.
Writing	Two original writing tasks were designed, describing a planet and predicting the future of space travel, matching the book's Theme 8 writing goals.
Assessment	An original review set and a sectioned test covering vocabulary, grammar, reading, and listening were written to assess Theme 8 outcomes without reusing any book content.
