GRAMMAR LESSON · MODAL VERBS

Advice: Should / Ought to / Had better

Giving advice: should, ought to and the stronger had better.

Tavsiye Belirten Modaller

QUICK UNDERSTANDING

Birine **tavsiye** verirken İngilizcede üç ana yapı kullanılır: **should** ve **ought to** (genel, nazik tavsiye — "yapmalısın, iyi olur") ve **had better** (güçlü, aciliyet içeren tavsiye — "yapsan iyi olur, yoksa kötü bir şey olacak"). Üçü de fiilin yalın hâlini (bare infinitive) alır ama güç dereceleri ve kullanım bağlamları farklıdır.

The Structure

Formula

Subject + should/ought to/had better (+ not) + bare infinitive (V1)

should → bare infinitive (should go) | ought to → to-infinitive (ought TO go) | had better → bare infinitive (had better go, kısaca 'd better go)

Affirmative / Negative / Question

AFFIRMATIVE	NEGATIVE	QUESTION
Subject + should + V1 Subject + ought to + V1 Subject + had better + V1 You should apologise.	Subject + should not (shouldn't) + V1 Subject + ought not to + V1 Subject + had better not + V1 You'd better not be late.	Should + subject + V1? Ought + subject + to + V1? (nadir) Should I call her now?

Word Order

Özne — modal (should / ought to / had better) — fiil. Olumsuzda "not" modalden hemen sonra gelir; had better'da "not" better'dan SONRA gelir (had better NOT, yani "not" better'dan sonra), ought to'da "not" ought'tan sonra ve to'dan önce gelir.

- You **should not** skip breakfast. — Kahvaltıyı atlamamalısın.
- We **ought not to** waste food. — Yemek israf etmemeliyiz.
- You **had better not** tell him yet. — Ona henüz söylememen daha iyi olur.

How It Works

When do we use it?

- **should:** günlük, nazik tavsiye/öneri için — You should drink more water.
- **ought to:** should ile aynı anlamda ama biraz daha resmi/yazılı, ahlaki bir doğruluk hissi taşıyabilir — We ought to help those in need.
- **had better:** belirli bir durumda, kısa vadede, güçlü ve aciliyeti olan tavsiye için — kötü bir sonuç beklentisi vardır — You'd better hurry, or you'll miss the bus.
- **had better, genel/soyut tavsiyeler için DEĞİL, belirli/somut durumlar için kullanılır:** You'd better call her now (şu an, bu durumda).

When DON'T we use it?

- had better'ı genel/soyut gerçekler için KULLANMA** — bu bağlamda should daha doğaldır.
✗ People had better exercise regularly. → ✓ People should exercise regularly.
had better'dan sonra "to" KOYMA: ✗ You had better to leave now. → ✓ You had better leave now.

Short Answers

Kısa cevap: Yes, you should. / No, you shouldn't.
ought to ve had better ile soru formu günlük dilde çok az kullanılır; genelde should ile sorulur, cevap should ile verilir.

Türkçe Mantiği

Zihninde şu sırayla ilerle:

TÜRKÇEDE NE DEMEK İSTİYORUM? → "Erken yatsan iyi olur, yarın erken kalkacaksın." → BU BİR ZORUNLULUK MU, YOKSA GENEL BİR TAVSİYE Mİ? → Aciliyeti olan, sonucu önemli bir tavsiye → NE KADAR GÜÇLÜ VURGULAMAK İSTİYORUM? → Güçlü, neredeyse uyarı gibi → HANGİ YAPI? → had better (güçlü) — should/ought to olsaydı daha yumuşak olurdu → CÜMLE → "You'd better go to bed early."

Examples

SHOULD / OUGHT TO — GENEL TAVSİYE

- You should see a dentist about that toothache. — O diş ağrısı için bir dişçiye görünmelisin.
- We ought to recycle more at home. — Evde daha çok geri dönüşüm yapmalıyız.
- He shouldn't spend so much time on his phone. — Telefonunda bu kadar çok zaman geçirmemeli.
- Should we invite your parents to the wedding? — Ailenizi düşünce davet etmeli miyiz?
- Students ought not to ignore their teachers' advice. — Öğrenciler öğretmenlerinin tavsiyesini görmezden gelmemeli.

HAD BETTER — GÜÇLÜ, ACIL TAVSİYE

- You'd better finish the report before your boss arrives. — Patronun gelmeden raporu bitirsen iyi olur.
- We'd better leave now, or we'll get stuck in traffic. — Şimdi çıksak iyi olur, yoksa trafiğe takılırız.

- You'd better keep your seatbelt on — the pilot just gave a warning. — Kemerini bağlı tutsan iyi olur — pilot az önce uyarı yaptı.

Compare & Notice

Compare With

should / ought to	had better
Nazik, genel tavsiye. Uyulmazsa büyük bir sorun olacağı vurgusu yoktur. You should eat more vegetables.	Güçlü, acil tavsiye. Uyulmazsa kötü bir sonuç olacağı ima edilir. You'd better see a doctor — that cough sounds serious.

Karar Şeması (Decision Guide)

Zayıf Tavsiye ↔ Güçlü, Acil Tavsiye

should ↔ ought to < had better

had better, kötü bir sonuç riskini vurguladığı için should/ought to'dan çok daha güçlü ve acildir — neredeyse bir uyarı gibi hissedilir.

Common Mistakes

✗ You had better to call your mother.

✓ You had better call your mother.

WHY? had better'dan sonra to gelmez, doğrudan fiilin yalın hâli kullanılır — should ile aynı mantık.

✗ You should to see a doctor.

✓ You should see a doctor.

WHY? Türkçede "görmelisin" derken zihinde "to see" gibi bir yapı canlanabilir, ama should diğer modaller gibi bare infinitive alır, to almaz.

✗ We ought go now.

✓ We ought to go now.

WHY? ought to, should'un aksine "to" gerektiren tek istisna modaldır — "to"yu unutmak yaygın bir hatadır.

✗ You hadn't better be late.

✓ You had better not be late.

WHY? had better'da olumsuzluk eki "had"e değil, "better"in sonuna eklenir: had better NOT.

✗ People had better eat healthy food. (genel gerçek olarak)

✓ People should eat healthy food.

WHY? had better belirli, somut bir durum için kullanılır; genel/soyut tavsiyelerde should ya da ought to tercih edilir.
