# Future Forms Overview

will, be going to, present continuous or present simple — four ways to talk about the future.

Gelecek Zaman Yapılarına Giriş

## QUICK UNDERSTANDING

Türkçede gelecekte bahsederken genelde tek bir zaman eki ("-ecek/-acak") kullanırız, ama İngilizcede geleceği anlatmanın **dört farklı yolu** vardır: **will**, **be going to**, **present continuous** ve **present simple**. Hangisini seçeceğin, olayın ne kadar kesin olduğuna, önceden planlanıp planlanmadığına ve resmi bir programa bağlı olup olmadığına göre değişir.

## The Structure

### Formula

**will + V1 — Tahmin / anlık karar / söz**  
**am/is/are + going to + V1 — Plan / niyet / kanıta dayalı tahmin**  
**am/is/are + V-ing — Ayarlanmış randevu/plan**  
**present simple (V1/V-s) — Resmi program/tarife**

### Affirmative / Negative / Question

| Yapı               | Olumlu                   | Olumsuz                         | Soru                         |
|--------------------|--------------------------|---------------------------------|------------------------------|
| will               | I'll call you.           | I won't call you.               | Will you call me?            |
| be going to        | I'm going to call you.   | I'm not going to call you.      | Are you going to call me?    |
| present continuous | I'm calling her tonight. | I'm not calling her tonight.    | Are you calling her tonight? |
| present simple     | The meeting starts at 9. | The meeting doesn't start at 9. | Does the meeting start at 9? |

### Word Order

Her yapıda zaman ifadesi (tomorrow, next week, at 9) genelde cümle sonuna, bazen vurgu için cümle başına gelir.

- **I'll call** you later. — Seni sonra ararım.
- **The bus leaves** at 7:45 sharp. — Otobüs tam 7:45'te kalkar.

## How It Works

### When do we use it?

- **will:** anlık kararlar, tahminler, sözler, teklifler — I'll help you with that bag.
- **be going to:** önceden verilmiş kararlar/planlar, kanıta dayalı tahminler — We're going to renovate the kitchen next month.
- **present continuous:** kişisel, ayarlanmış randevular/planlar (genelde belirli bir zaman ile) — I'm having dinner with my parents on Friday.
- **present simple:** resmi programlar, tarifeler, takvimler — The film starts at 8:15.

### When DON'T we use it?

**Present simple'ı kişisel bir plan için KULLANMA** — bu yapı sadece sabit programlar/tarifeler içindir.

✗ I go to the dentist tomorrow. → ✓ I'm going to the dentist tomorrow.

**Önceden verilmiş bir kararı will ile anlatMA** — will anlık kararlar içindir.

✗ (Biletleri geçen hafta aldın) A: What are your plans? B: I'll go to the concert. → ✓ I'm going to the concert. / I'm going to the concert.

### Short Answers

Kısa cevap her zaman o cümlelerin kendi yardımcı fiiline göre verilir: **will** → **Yes, I will. / No, I won't.** **be going to / present continuous** → **Yes, I am. / No, I'm not.** **present simple** → **Yes, it does. / No, it doesn't.**

### Türkçe Mantığı

|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------|
| <b>✗</b> I go to the cinema tonight with Selin.                                                                                                                                          | <b>✓</b> I'm going to the cinema tonight with Selin.                           |
| <b>WHY?</b> Bu kişisel bir plan/randevu — present simple sadece sabit programlar için kullanılır.                                                                                        |                                                                                |
| <b>✗</b> (Sınav sonucunu az önce öğrendin, çok sevindin) I will tell my mum!                                                                                                             | <b>✓</b> I'll tell my mum!                                                     |
| <b>WHY?</b> Aslında bu doğru — anlık bir karar için will kullanılır; öğrenciler bunun yerine yanlışlıkla "going to" kullanmayı seçebilir, ama anlık kararlarda will daha doğaldır.       |                                                                                |
| <b>✗</b> Look at the sky, it will rain soon.                                                                                                                                             | <b>✓</b> Look at the sky, it's going to rain soon.                             |
| <b>WHY?</b> Elimizde şu anda görülen bir KANIT var (bulutlar); kanıta dayalı tahminlerde "going to" tercih edilir.                                                                       |                                                                                |
| <b>✗</b> The plane is leaving at 10pm tomorrow, so we must be at the airport by 8.                                                                                                       | <b>✓</b> The plane leaves at 10pm tomorrow, so we must be at the airport by 8. |
| <b>WHY?</b> Uçuş saatleri bir TARİFE/PROGRAM olduğu için present simple daha doğal ve resmidir (present continuous da yanlış sayılmaz, ama tarifeler için present simple tercih edilir). |                                                                                |
