Regret & Criticism: Should have / Ought to have

should have / shouldn't have — regret and criticism about the past.

Pişmanlık ve Eleştiri Belirten Yapılar

QUICK UNDERSTANDING

Should have ve **ought to have + V3**, geçmişte **yapılması gereken ama yapılmayan** (ya da yapılmaması gereken ama yapılan) bir şey hakkında **pişmanlık** veya **eleştiri** anlatmak için kullanılır. Türkçedeki "...meliydim ama yapmadım" mantığının İngilizcesidir — olay geçmişte kaldı, artık değiştirilemez, sadece yorum yapılıyor.

The Structure

Formula

Özne + should / ought to + have + V3 (past participle)

Olumsuz: shouldn't have + V3 / ought not to have + V3 → yapılan ama yapılmaması gereken bir şeyi eleştirir.

Affirmative / Negative / Question

AFFIRMATIVE

Özne + should have + V3

I should have saved more money.

NEGATIVE

Özne + shouldn't have + V3

You shouldn't have spent it all.

QUESTION

Should + özne + have + V3?

Should I have told him the truth?

Word Order

Özne — should(n't)/ought (not) to — have — V3 (past participle) — (nesne/tümleyen)

- I **should have called** you earlier. — Seni daha erken aramalıydım.
- They **shouldn't have left** without saying goodbye. — Veda etmeden gitmemeliydiler.

How It Works

When do we use it?

- **Kendi geçmiş bir hatamız için pişmanlık belirtmek:** I should have listened to my doctor's advice.
- **Başka birinin geçmişteki bir davranışını eleştirmek için:** You shouldn't have shouted at your brother.
- **Kaçırılan bir fırsat için üzüntü belirtmek:** We should have booked the tickets earlier; now they're sold out.
- **Ought to have, should have ile aynı anlamı taşır ama daha resmi/az kullanılan bir alternatiftir:** He ought to have told the truth from the start.

When DON'T we use it?

Should have'i şimdiki bir tavsiye için KULLANMA — o an hâlâ yapılabilecek bir şey için sadece "should" (have'siz) kullanılır.

✗ You should have call the doctor now. → ✓ You should call the doctor now.

Should have'i olası bir geçmiş tahmin (may have gibi) ile KARIŞTIRMA: should have kesin bir değerlendirme/eleştiridir, olasılık değil — "He should have arrived by now" farklı bir kullanım olup beklenti bildirir, pişmanlık değil.

Short Answers

Bu yapı genellikle soru yerine yorum/pişmanlık cümlesi olarak kullanılır; kısa cevap yerine "Yes, definitely." / "I know, I really should have." gibi doğal tepkiler tercih edilir.

Türkçe Mantığı

Zihninde şu sırayla ilerle:

TÜRKÇEDE NE DEMEK İSTİYORUM? → "Sınava daha çok çalışmalıyım." (ama çalışmadım, şimdi pişmanım) → BU GERÇEKLEŞTİ Mİ? → Hayır, tam tersi gerçekleşti → DUYGU? → Pişmanlık / eleştiri → CÜMLE → "I should have studied more for the exam."

Common Mistakes

✗ I should call her yesterday.

✓ I should have called her yesterday.

WHY? Geçmiş bir olay için "should" tek başına kullanılmaz; "have + V3" eklenmeden anlam şimdiki/genel bir tavsiyeye kayar.

✗ You should have to tell me earlier.

✓ You should have told me earlier.

WHY? "should have" ile "have to" karıştırılır; burada "have" sadece yardımcı fiildir, "have to" (zorunluluk) anlamı taşımaz — sonrasında doğrudan V3 gelir.

✗ He should have went to the doctor.

✓ He should have gone to the doctor.

WHY? have'den sonra fiilin past participle (V3) hali gelir, past simple hali (went) değil.

✗ You should have not lied to me.

✓ You shouldn't have lied to me.

WHY? Olumsuzluk eki "should" ile birleşir (shouldn't), "not" ayrı ve "have"den sonra kullanılmaz.

✗ I ought to called him.

✓ I ought to have called him.

WHY? "ought to" yapısında da "have + V3" atlanmaz; "to"dan sonra doğrudan V3 gelmez.
