Cevap anahtarı

1 Vocabulary · Kelimeler

#	WORD / CHUNK	TÜRKÇE AÇIKLAMA
1	It is widely believed that...	Yaygın olarak inanılmaktadır ki... (impersonal passive)
2	has been shown to...	...olduğu gösterilmiştir (PP passive)
3	was put forward by...	...tarafından öne sürüldü (past passive)
4	is being researched	Araştırılmaktadır (present continuous passive)
5	groundbreaking	Çığır açan — büyük bir yenilik yapan
6	peer-reviewed	Hakemli — bilim insanlarınca denetlenen
7	replicate (the findings)	Bulguları tekrarlamak — doğrulama deneyi
8	hypothesis	Hipotez — sınanmamış varsayım
9	double-blind study	Çift kör çalışma — önyargısız deney
10	paradigm shift	Paradigma değişimi — köklü anlayış dönüşümü

2 Grammar · Gramer

Advanced Passive — İleri Edilgen Yapılar

B2 seviyesinde edilgen yapı sadece "is/was + V3" değildir. **Modal passives, continuous passives, perfect passives** ve özellikle akademik yazıda sıklıkla görülen **impersonal passive (It is believed/said/thought)** yapıları öğrenilir.

Tüm Zamanlarda Passive

Zaman	Passive Yapı	Örnek
Present Simple	is/are + V3	Thousands of trees are cut down daily.
Past Simple	was/were + V3	The vaccine was developed in 2020.

Zaman	Passive Yapı	Örnek
Present Continuous	is/are being + V3	The bridge is being repaired .
Past Continuous	was/were being + V3	The suspect was being watched .
Present Perfect	have/has been + V3	Three people have been arrested .
Past Perfect	had been + V3	The letter had been opened before she arrived.
Future	will be + V3	The results will be announced tomorrow.
Modal	modal + be + V3	This must be checked immediately.

📌 Impersonal Passive — Akademik dil

Yapı	Örnek	Türkçesi
It is believed that...	It is believed that the virus originated in 2019.	Virüsün 2019'da ortaya çıktığına inanılıyor.
It is thought that...	It is thought that the climate will warm by 2°C.	İklimin 2°C ısınacağı düşünülüyor.
It is said that...	It is said that exercise reduces stress.	Egzersizin stresi azalttığı söyleniyor.
It is reported that...	It is reported that unemployment has fallen.	İşsizliğin düştüğü bildirildi.
Subject + is thought to...	The treatment is thought to be effective.	Tedavinin etkili olduğu düşünülüyor.

TIP — İki yapı — aynı anlam

It is believed that people lived here 3,000 years ago.

= People are believed to have lived here 3,000 years ago.

İkinci yapı daha kompakt ve akademik metinlerde tercih edilir.

3 Reading · Okuma

The Microbiome Revolution

It **has recently been established** that the human body contains roughly 38 trillion bacteria — about the same order as the number of human cells (around 30 trillion). These microorganisms, collectively known as the microbiome, **have been shown** to influence digestion, immunity, and even mood and mental health.

For decades, bacteria **were regarded** simply as pathogens — things to **be eliminated**. This understanding **has been completely revised**. A groundbreaking new field — psychobiotics — **is being developed**. Links **have been found** between gut bacteria and depression, anxiety, and cognitive performance — so far mostly in animal studies.

The term "psychobiotic" **was first put forward** by researchers in Cork, Ireland, in 2013. At first, the idea **was treated** with scepticism by many scientists. Since then, many of the animal findings **have been replicated**, although evidence from human trials **is still considered** limited.

It **is now widely believed** that diet plays a major role in shaping the microbiome. Processed food and antibiotics **are thought to disrupt** the gut ecosystem significantly. Whether probiotic supplements can genuinely help **remains to be established** by further research.

More funding **must be directed** towards this field. The results, experts agree, **could prove** transformative for our understanding of mental health.

Comprehension Questions

1. How many bacteria does the human body contain?
2. What is 'psychobiotics'?
3. How was the idea initially received, and how has this changed?
4. Find 4 passive structures in the text from different tenses.

4 Exercises · Alıştırmalar

Doğru seçeneği işaretleyin.

1. It ___ that the microbiome affects mental health.
 (a) established (b) has been established
 (c) was establish
2. New treatments ___ currently in several labs.
 (a) are developed (b) are being developed
 (c) have developed
3. The link between gut and brain ___ by researchers.
 (a) has confirmed (b) has been confirmed
 (c) confirmed
4. Exercise ___ to reduce stress and improve mood.
 (a) believes (b) believed (c) is believed
5. Bacteria ___ as simple pathogens for centuries.
 (a) regarded (b) have regarded
 (c) were regarded
6. It ___ that diet plays a major role in gut health.
 (a) now widely believes (b) is now widely believing
 (c) is now widely believed
7. The theory ___ by Irish researchers in 2013.
 (a) put forward (b) was put forward
 (c) is put forward
8. Strong evidence ___ to support the hypothesis.
 (a) found (b) is found (c) has been found

9. The results ___ in a peer-reviewed journal.
 (a) published (b) were published
 (c) have been publish
10. He ___ to be one of the leading experts in the field.
 (a) considers (b) has considered
 (c) is considered
11. The experiment ___ three times to confirm validity.
 (a) repeated (b) is repeated (c) was repeated
12. Further research ___ before any conclusions are drawn.
 (a) must conduct (b) must be conducted
 (c) was conducted
13. It ___ that early intervention significantly improves outcomes.
 (a) has shown (b) shows (c) has been shown
14. The groundbreaking paper ___ in the scientific community.
 (a) has criticised (b) criticised
 (c) has been criticised
15. Significant progress ___ in this field over the last decade.
 (a) made (b) is made (c) has been made

5 Writing · Yazma

1. Bilimsel keşif

Write a short paragraph (4–5 sentences) about a scientific discovery using at least 4 passive structures from different tenses.

Start: It has recently been discovered that... / The findings were...

2. Impersonal passive

Write 3 formal sentences using impersonal passive:

1-) It is believed that...

2-) It has been shown that...

3-) [Your choice of a scientific or social fact]

✓ Answer Key · Cevap Anahtarı

Exercises

1. **b) has been established** — Impersonal PP Passive: It has been established that...

2. **b) are being developed** — Şu anda devam eden süreç → Present Continuous Passive: are being + V3

3. **b) has been confirmed** — PP Passive: has been + V3

4. **c) is believed** — Impersonal passive: Subject + is believed + to-infinitive

5. **c) were regarded** — Geçmişte → Past Simple Passive: were + V3

6. **c) is now widely believed** — Impersonal passive: It is widely believed that...

7. **b) was put forward** — Geçmişte → Past Passive: was + V3

8. **c) has been found** — PP Passive: has been + V3

9. **b) were published** — Past Passive: were + V3

10. **c) is considered** — Impersonal passive: Subject + is considered + to-infinitive

11. **c) was repeated** — Geçmişte tamamlandı → Past Passive

12. **b) must be conducted** — Modal Passive: must + be + V3

13. **c) has been shown** — Impersonal PP Passive: It has been shown that...

14. **c) has been criticised** — PP Passive: has been + V3

15. **c) has been made** — PP Passive: has been + V3

Comprehension

1. Roughly 38 trillion — about the same order as the number of human cells (around 30 trillion).
2. A new field linking gut bacteria to mental health, cognitive performance, depression, and anxiety.
3. Many scientists were sceptical at first; many animal findings have since been replicated, but human evidence is still limited.
4. e.g. has been established (PP), were regarded (past), is being developed (present cont.), must be directed (modal passive)

Writing — örnek cevaplar

Görev 1 — Bilimsel keşif

It has recently been discovered that gut bacteria can significantly affect our mood. The theory was first proposed in 2013 and has since been widely accepted. The findings have been replicated in dozens of peer-reviewed studies. New treatments are currently being developed based on this groundbreaking research.

Görev 2 — Impersonal passive

It is widely believed that artificial intelligence will transform medicine within the next decade. It has been shown that AI can detect certain cancers more accurately than doctors in some cases. It is generally accepted that this powerful technology must be carefully regulated to protect patients.

Law & Society

Gramer: Relative Clauses — Defining vs Non-Defining (who/which/whose/where/whereby)

Ad Soyad: _____

Sınıf / Tarih: _____

Puan: _____ / 15

Hukuk ve toplum temasıyla tanımlayıcı ve ek bilgi veren relative clause farkını, virgül kuralını ve whose / whereby kullanımını öğreniyorsun.

1 · Kelimeler

2 · Gramer

3 · Okuma

4 · Alıştırma

5 · Yazma

Cevap anahtarı

1 Vocabulary · Kelimeler

#	WORD / CHUNK	TÜRKÇE AÇIKLAMA
1	defining relative clause	Tanımlayıcı — virgülsüz, 'that' kullanılabilir
2	non-defining relative clause	Ek bilgi veren — virgüllü, 'that' kullanılamaz
3	whose + noun	...in/nin — iyelik gösterir (kişi veya nesne)
4	whereby	...yoluyla, ...vasıtasıyla (resmi)
5	jurisdiction	Yargı yetkisi — hangi mahkeme sorumlu?
6	legislation / statute	Mevzuat / yazılı kanun
7	liable (for)	Sorumlu (hukuki) — yasal yükümlülük
8	sue someone (for)	Birini dava etmek
9	precedent	Emsal — önceden verilen kararlar yol gösterir
10	civil rights vs human rights	Medeni haklar (vatandaş) vs İnsan hakları (evrensel)

2 Grammar · Gramer

Relative Clauses — Defining & Non-defining

B2 düzeyinde relative clauses iki türe ayrılır: **defining** (tanımlayan — virgülsüz) ve **non-defining** (ek bilgi veren — virgüllü). Bu ayrım hem anlam hem de noktalama açısından kritiktir.

Defining vs Non-defining

Tür	Kural	Örnek	Anlam
Defining	Virgül yok · that kullanılabilir	The man who called was rude.	Hangi adam? — arayan adam

Tür	Kural	Örnek	Anlam
Non-defining	Virgüllü · that KULLANILMAZ	My father, who is 60, loves jazz.	Ek bilgi — babam zaten bilinen biri

Zamir seçimi

Zamir	Kullanım	Defining	Non-defining
who	kişiler	✓	✓
which	nesneler/hayvanlar	✓	✓
that	kişi ve nesneler	✓	✗
whose	aitlik	✓	✓
where	yerler	✓	✓
when	zamanlar	✓	✓

COMMON MISTAKE — Non-defining'de that yasak!

✗ ~~My sister, that lives in London, is a chef.~~

✓ **My sister, who lives in London, is a chef.**

✗ ~~The Eiffel Tower, that was built in 1889, is in Paris.~~

✓ **The Eiffel Tower, which was built in 1889, is in Paris.**

TIP — Preposition + which/whom

Resmi yazıda preposition relative pronoun'dan önce gelir:

Informal: The company (that) I work *for* is expanding.

Formal: The company *for which* I work is expanding.

Informal: The person (who) I spoke *to* was helpful.

Formal: The person *to whom* I spoke was helpful.

3 Reading · Okuma

The Right to Be Forgotten

In May 2014, the Court of Justice of the European Union made a landmark ruling **which** changed internet privacy law forever. Mario Costeja González, **whose** name appeared in old newspaper articles **that** linked him to debt problems, had requested that Google remove the search links.

The court ruled that individuals **who** believe their outdated data harms their privacy have the right to request its removal. Companies **that** fail to comply may face significant fines.

This ruling, **which** only applies within the EU, has been deeply controversial. Journalists, **whose** work depends on public access to historical information, argued it threatened press freedom. Historians expressed concern about a world **where** inconvenient facts could simply be deleted.

A system **whereby** anyone could request the erasure of legally published information was described by critics as "digital amnesia." The company **whose** search results triggered the original case — Google — lost.

The debate continues: the right to privacy versus the right to information — two fundamental values **that** cannot always coexist. The year **when** this ruling was made marked a turning point in how the internet, **which** had long operated as an unlimited archive, **was forced to face** questions of accountability.

İ Gerçek olay ve araştırmalara dayanır; ders amacıyla sadeleştirilmiştir.

1

Comprehension Questions

1. Who was Mario Costeja González and what did he request?

2. What right did the court rule that individuals have?

3. Why were journalists and historians concerned?

4. Find one defining and one non-defining relative clause in the text. Explain the difference.

4 Exercises · Alıştırma

Doğru seçeneği işaretleyin.

1. The law ___ protects workers was passed in 2010.

- (a) which, (b) who (c) that

2. The new law, ___ was passed in 2010, protects workers.

- (a) that (b) who (c) which

3. The lawyer ___ defended him is nationally famous.

- (a) which (b) who (c) whose

4. The man ___ car was stolen reported it immediately.

- (a) who (b) which (c) whose

5. This is the case ___ lasted over five years.

- (a) who (b) whom (c) that

6. The verdict, ___ surprised everyone, was announced yesterday.

- (a) that (b) which (c) who

7. The country ___ legal system is based on common law operates differently.

- (a) which (b) that (c) whose

8. The judge, ___ had 30 years' experience, gave the final ruling.

- (a) who (b) that (c) which

9. Anyone ___ is found guilty may face up to ten years in prison.

- (a) which (b) who (c) whose

10. The legislation, ___ took three years to pass, is now in force.
(a) that (b) which (c) who
11. The evidence ___ was presented in court proved decisive.
(a) which, (b) who (c) that
12. Lawyers ___ specialise in human rights are increasingly in demand.
(a) which (b) who (c) whose
13. The city, ___ she grew up, has changed enormously.
(a) where (b) which (c) that
14. The ruling ___ changed internet law was made in 2014.
(a) which, (b) that (c) who
15. The organisation, ___ was founded in 1945, promotes human rights globally.
(a) that (b) which (c) who

5 Writing · Yazma

1. Relative clause alıştırması

Write 3 sentences:

- 1-) A defining relative clause (no comma, identifies the noun)
2-) A non-defining relative clause (with comma, adds extra information)
3-) A sentence using 'whose'

2. Hukuk ve toplum

Write 4–5 sentences about a law you think is important or unfair. Use at least 2 relative clauses. (e.g. 'The law that...' / 'This legislation, which...')

✓ Answer Key · Cevap Anahtarı

Exercises

1. **c) that** — Defining RC — hangi kanun? Virgül yok → that kullanılabilir

2. **c) which** — Non-defining (ek bilgi) — virgül var → which (NOT that!)

3. **b) who** — Kişi için defining RC → who (ya da that)

4. **c) whose** — İyelik → whose (the man whose car = the car of the man)

5. **c) that** — Defining — hangi dava? → that ya da which (virgülsüz)

6. **b) which** — Non-defining, virgül → which (NOT that!)

7. **c) whose** — İyelik → whose (the country whose legal system)

8. **a) who** — Non-defining, kişi, virgül → who (not that!)

9. **b) who** — Kişi (anyone) için defining RC → who

10. **b) which** — Non-defining (ek bilgi, virgül) → which

11. **c) that** — Defining (hangi delil?) → that ya da which (virgülsüz)

12. **b) who** — Kişi için defining RC → who

13. **a) where** — Yer + non-defining → where (or 'in which')

14. **b) that** — Defining (hangi karar?) → that ya da which (virgülsüz)

15. **b) which** — Non-defining (ek bilgi, virgül) → which

Comprehension

1. A Spanish man whose name appeared in old debt-related articles — he requested Google remove the links.
2. The right to request removal of outdated data that harms their privacy.
3. They feared it threatened press freedom and could allow inconvenient historical facts to be deleted.
4. Defining: 'individuals who believe...' (no comma, defines which individuals) / Non-defining: 'this ruling, which only applies within the EU,' (comma, extra info about the ruling)

Writing — örnek cevaplar

Görev 1 — Relative clause alıştırması

The law that I find most important is the right to a fair trial, which is protected in most democratic constitutions. My professor, who has worked in criminal law for thirty years, believes access to justice is the foundation of a functioning society. The regulation which was introduced in 2020, and which has already prevented dozens of wrongful convictions, must be strengthened further.

Görev 2 — Hukuk ve toplum

The right to education is a fundamental principle which every child deserves, regardless of background. Those whose families cannot afford schooling are systematically denied opportunities. It is a right which must be enforced globally, not just in wealthy nations. The organisations that campaign for this cause deserve far greater support.

Innovation & Change

Gramer: Cleft Sentences + Fronting for Emphasis

Ad Soyad: _____

Sınıf / Tarih: _____

Puan: _____ / 15

Yenilik ve değişim temasıyla It was ... that, What ... is yapılarını ve Never before / Not until gibi vurgu için öne alma (inversion) yapılarını öğreniyorsun.

1 · Kelimeler

2 · Gramer

3 · Okuma

4 · Alıştırmalar

5 · Yazma

Cevap anahtarı

1 Vocabulary · Kelimeler

#	WORD / CHUNK	TÜRKÇE AÇIKLAMA
1	It was X who/that...	Vurgu yapısı — cleft sentence
2	What... is/was...	Pseudo-cleft — What I need is...
3	Never before had...	Hiçbir zaman önce... (inversion)
4	Not until... did...	...a kadar değil... (inversion)
5	disruptive technology	Yıkıcı teknoloji — mevcut endüstrileri alt üst eden
6	pivot	Strateji değiştirmek — start-up terimi
7	scale up	Büyütmek, kapasiteyi artırmak
8	patent	Patent — buluş belgesi / koruma hakkı
9	prototype	Prototip — ilk çalışan model
10	first-mover advantage	Öncü avantajı — ilk pazara girenin üstünlüğü

2 Grammar · Gramer

Vurgu için cleft cümleler ve öne alma (fronting)

Türkçe'de vurgulamak istediğimiz öğeyi yüklem hemen önüne koyarız. İngilizce'de sözcük sırası daha sabittir; bu yüzden vurgu için cümle **ikiye bölünür** (cleft = yarılmış): *It was Maria who called.* veya *What I need is a break.* Olumsuz ya da kısıtlayıcı bir ifade cümle başına alınınca ise **soru düzeni (inversion)** kullanılır.

Özet tablo

Yapı / Kural	Form	Anlam	Örnek
It-cleft	It + was/is + FOCUS + that/who + rest	Belirli bir unsuru vurgular — kim/ne üzerinde	<i>It was Steve Jobs WHO changed everything. / It was the internet THAT transformed communication.</i>
Pseudo-cleft (What-cleft)	What + clause + is/was + FOCUS	Sonucu, ihtiyacı, sürprizi vurgular	<i>What surprised everyone WAS the speed. / What we need IS more funding.</i>
Inversion (negative fronting)	Never/Rarely/Not until + auxiliary + subject + verb	Dramatik vurgu — negatif ifade öne çıkar	<i>Never before HAD technology advanced so fast. / Not until 2007 DID the smartphone take off.</i>
Only/Seldom/Hardly	Only when / Seldom / Hardly ever + inversion	Kısıtlama/nadiren vurgusu	<i>Only when I saw the data DID I believe it. / Seldom HAS such progress been made.</i>

⚠ Inversion: auxiliary + subject + verb (soru sırası). ❌ 'Never I have seen' ✅ 'Never have I seen' | What-cleft: 'What matters IS...' (singular verb!). | It-cleft + zamir: günlük dilde 'It was them who...', resmi yazıda 'It was they who...'.

🔍 Örneklerle

🎯 It-cleft

It was the price **that** surprised me, not the design. → *Beni şaşırtan tasarım değil, fiyatı.*

It is in the evening **that** I study best. → *En iyi akşamları çalışırım.*

It wasn't until I moved abroad **that** I really learned English. → *İngilizceyi ancak yurt dışına taşınınca gerçekten öğrendim.*

💬 What-cleft (pseudo-cleft)

What I love about this city **is** the food. → *Bu şehirde sevdiğim şey yemekleri.*

What happened was (that) the system crashed. → *Olan şu: sistem çöktü.*

All I want is a quiet weekend. → *Tek istediğim sakin bir hafta sonu.*

🔄 Negatif öne alma + inversion

Never have I seen such a crowd. → *Hiç böyle bir kalabalık görmedim.*

Only then did we realise the danger. → *Tehlikeyi ancak o zaman fark ettik.*

Not only is it cheap, **but it's also** fast. → *Sadece ucuz değil, aynı zamanda hızlı.*

IMPORTANT — Zamir ile it-cleft

Günlük dilde *It was **me** who called.* denir; çok resmi yazıda *It was **I** who called.* tercih edilebilir. Fiil, vurgulanan kişiye uyar: *It is **I** who **am** responsible* (resmi) / *It's **me** who's responsible* (günlük).

COMMON MISTAKE — Inversion unutmak

✗ ~~Only then we realised the danger.~~ → ✓ Only then **did we realise** the danger.

✗ ~~What I need are a holiday.~~ → ✓ What I need **is** a holiday.

TIP — Konuşmada "What-cleft"

Sunum ve tartışmalarda dikkat çekmek için çok kullanışlıdır: *What I'd like to talk about today is... / What we need to remember is...*

Kendine sor — pratik yap

It was my sister _____ told me the news.

What I need _____ a long holiday.

Never _____ I heard such a beautiful song.

It wasn't until midnight _____ we finally arrived.

3 Reading · Okuma

The Smartphone Revolution

It was not until 2007 that the smartphone transformed from a niche device into the central object of modern life. Before the iPhone, mobile phones existed — but **it was Apple** who changed everything.

What Jobs understood was not simply that people needed a phone. **What he grasped** was something far more profound: that people needed a computer in their pocket. **It was this insight** that created a trillion-dollar industry.

Never before had a single consumer product disrupted so many industries simultaneously — music, photography, navigation, banking, communication. **Not until companies began losing billions** did many traditional industries realise the scale of the threat.

Only when we examine the speed of this change do we appreciate how remarkable it was. In 2005, relatively few people owned a smartphone. By 2015, well over a billion people did. **What is striking** is not merely the technology — it is the speed at which human behaviour adapted.

Seldom has a technology been adopted so rapidly across so many different cultures, income levels, and age groups simultaneously. **It was not the hardware** that made the iPhone revolutionary — **it was the App Store** that turned the phone into a platform.

İ Gerçek olay ve araştırmalara dayanır; ders amacıyla sadeleştirilmiştir.

Comprehension Questions

1. According to the text, what was Jobs' key insight?

2. What industries did smartphones disrupt according to the text?

3. Find one It-cleft and one What-cleft in the text.

4. Find one example of inversion in the text and explain why it is used.

4 Exercises · Alıştırmalar

Doğru seçeneği işaretleyin.

1. ___ was Einstein who developed the theory of relativity.

- (a) That (b) What (c) It

2. ___ surprised everyone was the speed of the change.

- (a) It (b) That (c) What

3. Never before ___ technology advanced so quickly.

- (a) had (b) did (c) was

4. Not until the 1990s ___ the internet reach ordinary homes.

- (a) did (b) had (c) was

5. It was the internet ___ changed global communication.

- (a) that (b) which, (c) who

6. Only when I saw the evidence ___ I believe the results.

- (a) did (b) had (c) was

7. ___ I need most right now is more time.

- (a) It (b) What (c) That

8. Rarely ___ such rapid innovation in such a short period.

- (a) have we seen (b) we have seen
(c) we had seen

9. ___ was her determination that ultimately made the difference.

- (a) What (b) That (c) It

10. Never ___ I forget the moment we launched the product.

- (a) am (b) will (c) have

11. ___ is remarkable is the speed at which AI has advanced.

- (a) It (b) That (c) What

12. Not only ___ it solve the problem — it created new opportunities.

- (a) did (b) was (c) had

13. It was ___ who first proposed the idea in 2008.

- (a) she (b) her (c) hers

14. Seldom ___ such a rapid shift in consumer behaviour.

- (a) have we witnessed (b) we have witnessed

- (c) did we witness

15. ___ matters most is not the idea, but the execution.

- (a) It (b) That (c) What

5 Writing · Yazma

1. Cleft yeniden yazma

Rewrite these sentences using cleft structures for emphasis:

1-) 'The internet changed global communication.'

2-) 'A small team of engineers invented the solution.'

3-) 'Persistence makes the difference.'

2. Yenilik yazısı

Write 4–5 sentences about an important innovation using at least 2 cleft structures and 1 inversion.

✓ Answer Key · Cevap Anahtarı

Exercises

1. **c) It** — Cleft yapısı: *It + was + vurgulanan unsur + who/that...*
2. **c) What** — Pseudo-cleft (What-cleft): *What + clause + was + [focus]*
3. **a) had** — Inversion after 'Never before' → *had + subject + V3*
4. **a) did** — 'Not until' + inversion → *did + subject + V1*
5. **a) that** — It-cleft: *It was + nesne + that (nesne için 'that')*
6. **a) did** — 'Only when' + inversion → *did + subject + V1*
7. **b) What** — What-cleft: *What + subject + verb + is + [focus]*
8. **a) have we seen** — Inversion after 'Rarely' → *have + subject + V3*
9. **c) It** — It-cleft: *It was + [focus] + that...*
10. **b) will** — Inversion: *Never + will + subject + V1 (future negative)*
11. **c) What** — What-cleft: *What is remarkable = the remarkable thing*
12. **a) did** — 'Not only' + inversion → *did + subject + V1*
13. **a) she** — It-cleft + subject pronoun → *'she' (not 'her' — it is the subject)*
14. **a) have we witnessed** — Inversion after 'Seldom' → *have + subject + V3*
15. **c) What** — What-cleft as subject: *What matters most = the most important thing*

Comprehension

1. That people needed a computer in their pocket — not just a phone.
2. Music, photography, navigation, banking, and communication.
3. It-cleft: 'It was Apple who changed everything.' / What-cleft: 'What Jobs understood was...' or 'What is striking is...'
4. e.g. 'Never before had a single consumer product disrupted...' — for dramatic emphasis on how unprecedented this was.

Grammar practice

1. It was my sister ____ told me the news. → **who / that**
2. What I need ____ a long holiday. → **is**
3. Never ____ I heard such a beautiful song. → **have**
4. It wasn't until midnight ____ we finally arrived. → **that**

Writing — örnek cevaplar

Görev 1 — Cleft yeniden yazma

It was Apple who fundamentally changed the technology industry, not Microsoft. What Steve Jobs understood was that people wanted a computer in their pocket, not on their desk. It was the App Store that transformed the smartphone into an open platform. Never before had a single consumer product disrupted so many industries simultaneously.

Görev 2 — Yenilik yazısı

It was the internet that truly transformed global communication in ways nobody had predicted. What a small team of engineers at CERN invented became the solution to a problem that nobody had yet named. What ultimately makes the difference between success and failure, I would argue, is persistence rather than genius or luck.

Ad Soyad: _____

Sınıf / Tarih: _____

Puan: _____ / 15

Dil ve iletişim temasıyla stop, remember, forget, try, regret gibi fiillerde V-ing ile to + V1 arasındaki anlam farkını öğreniyorsun.

1 · Kelimeler

2 · Gramer

3 · Okuma

4 · Alıştırmalar

5 · Yazma

Cevap anahtarı

1 Vocabulary · Kelimeler

#	WORD / CHUNK	TÜRKÇE AÇIKLAMA
1	resist + V-ing	Direnmek — resist temptation → resist taking
2	avoid + V-ing	Kaçınmak — avoid saying anything hurtful
3	stop to V1 vs stop V-ing	Durup yapmak (amaç) vs bırakmak (son vermek)
4	remember to V1 vs remember V-ing	Hatırlayıp yapmak (gelecek) vs hatırlamak (geçmiş)
5	try to V1 vs try V-ing	Denemek/çabalamak vs deneyip görmek
6	regret to V1 vs regret V-ing	Üzümlere söylemek (resmi) vs pişman olmak (geçmiş)
7	forget to V1 vs forget V-ing	Unutup yapmamak vs yapmayı unutmak (geçmiş)
8	go on to V1 vs go on V-ing	Sonra yapmak vs devam etmek
9	mean to V1 vs mean V-ing	Niyetinde olmak vs anlamına gelmek
10	need + V-ing (passive sense)	Yapılması gerekiyor — 'The car needs fixing.'

2 Grammar · Gramer

Gerund mı, infinitive mi? Anlamı değiştiren fiiller

B2 seviyesinde asıl zorluk, hem -ing hem to + V1 alabilen ama **anlamı değişen** fiillerdir. Genel bir ipucu: **-ing** çoğunlukla *önceden olmuş / gerçekleşmiş* bir eylemi, **to + V1** ise *sonra yapılacak / amaçlanan* bir eylemi gösterir. *remember doing* (yaptığını hatırlamak) ↔ *remember to do* (yapmayı unutmamak).

Özet tablo

Yapı / Kural	Form	Anlam	Örnek
Always V-ing (group 1)	enjoy / avoid / consider / deny / mind / risk / suggest / finish / keep / practise	Bu fiillerden sonra her zaman gerund → -ing	<i>I enjoy learning. / She avoided answering. / He denied taking it.</i>
Always to-inf (group 2)	want / decide / plan / hope / fail / refuse / afford / agree / manage / offer	Bu fiillerden sonra her zaman infinitive	<i>She decided to leave. / He failed to arrive. / They refused to comment.</i>
Meaning changes!	stop / remember / forget / try / regret / go on / mean	FARKLI anlam — dikkat!	<i>stop to smoke ≠ stop smoking / remember to call ≠ remember calling</i>
need + V-ing	'need' + V-ing = passive meaning	The car needs washing. = The car needs to be washed.	<i>Your essay needs checking. / This needs fixing urgently.</i>

⚠️ **ANLAM DEĞİŞİMİ kritik!** 'I stopped to smoke' = Durdum ve sigara içtim (amaç). 'I stopped smoking' = Sigara bıraktım. | 'I tried to open it' = Çabaladım (ama belki yapamadım). 'I tried opening it' = Denedim, baktım ne oldu.

🔍 Örneklerle

🧠 remember / forget

I **remember locking** the door. → Kapıyı kilitlediğimi hatırlıyorum. (geçmiş)

Remember to lock the door. → Kapıyı kilitlemeyi unutma. (gelecek)

I'll never **forget meeting** her. → Onunla tanıştığımı asla unutmayacağım.

🛑 stop / try

He **stopped smoking** last year. → Geçen yıl sigarayı bıraktı.

He **stopped to buy** some water. → Su almak için durdu.

Try restarting the phone. → Telefonu yeniden başlatmayı dene (bak işe yarayacak mı).

I **tried to open** the jar, but I couldn't. → Kavanozu açmaya çalıştım ama açamadım.

☹️ regret / go on / mean

I **regret saying** that. → *Bunu söylediğime pişmanım.*

We **regret to inform** you that... → *Size ... bildirmekten üzüntü duyarız. (resmi)*

She **went on talking** for an hour. → *Bir saat konuşmaya devam etti.*

Taking the job **means moving** to İzmir. → *İş kabul etmek İzmir'e taşınmak demek.*

COMMON MISTAKE — look forward to / be used to

Buradaki **to** bir edattır, bu yüzden arkasından **-ing** gelir:

✓ I look forward to **hearing** from you. ✗ look forward to **hear**

✓ I'm used to **getting up** early.

TIP — Algı fiilleri: see / hear + V1 ya da V-ing

*I saw him **cross** the road.* (eylemin tamamını gördüm) / *I saw him **crossing** the road.* (eylemin bir anını gördüm).

Kendine sor — pratik yap

Don't forget _____ (call) your grandmother tonight.

I'll never forget _____ (see) the sea for the first time.

She stopped _____ (eat) sugar two months ago.

I'm looking forward to _____ (meet) you.

3 Reading · Okuma

Can You Think in Another Language?

Many language learners report **beginning to think** in their new language at a certain level — a remarkable cognitive shift. But what does it actually mean **to think** in a language, and does it change how we see the world?

Researchers have tried **investigating** this connection for decades. Some linguists avoid **making** strong claims, preferring **to acknowledge** complexity. Others have stopped **trying to separate** language from thought entirely.

What is clear is that successful language acquisition involves **resisting** the urge **to translate** word-for-word from your first language. You must try **forgetting** your mother tongue as a crutch. Top learners tend **to stop relying** on translation

and start **engaging** directly with the new language.

They remember **learning** their first language unconsciously — without grammar rules, without translation, without effort. They try **recreating** that same natural process. Some even risk **making** embarrassing mistakes in public, understanding that this discomfort is essential for growth.

Many learners regret **not starting** earlier. But they also admit **to having** found unexpected joys: the moment of **dreaming** in a new language, of **making** a joke that lands, of **understanding** a film without subtitles.

İ Görüş yazısı — gerçek bilgiler içerir, yorumlar yazara aittir.

Comprehension Questions

1. What do many learners report at a certain level?

2. What does the text say successful learners must stop doing?

3. What risk do top learners take?

4. Find 3 verbs followed by gerund (V-ing) and 3 verbs followed by infinitive (to + V1) in the text.

4 Exercises · Alıştırıcılar

Doğru seçeneği işaretleyin.

- I enjoy ___ new languages. (learn)
(a) to learn (b) learn (c) learning
- She decided ___ abroad for a year. (study)
(a) studying (b) to study (c) study
- I stopped ___ coffee last year. (drink) — bıraktım
(a) to drink (b) drinking (c) drink
- He stopped ___ some water. (drink) — su içmek için durdu
(a) drinking (b) drink (c) to drink
- Remember ___ the door before you leave. (lock) — yapman gereken
(a) locking (b) lock (c) to lock
- I remember ___ this place as a child. (visit) — anı
(a) to visit (b) visiting (c) visit
- They tried ___ the window, but it was stuck. (open) — çabaladılar
(a) opening (b) to open (c) open
- Try ___ it with a little olive oil — it's delicious. (make) — dene
(a) making (b) to make (c) make
- She avoided ___ anything controversial. (say)
(a) to say (b) say (c) saying
- I forgot ___ the meeting in my calendar. (add) — eklemedim
(a) adding (b) to add (c) add
- I'll never forget ___ the northern lights. (see) — yaşadım
(a) seeing (b) to see (c) see
- He kept ___ the same mistake. (make)
(a) to make (b) make (c) making
- I regret ___ you that your application was unsuccessful. (inform) — resmi
(a) informing (b) to inform (c) inform
- She regrets ___ that job offer five years ago. (refuse) — pişmanlık
(a) to refuse (b) refuse (c) refusing

15. He risks ____ his job if he's late again. (lose)

- (a) losing (b) to lose (c) lose

5 Writing · Yazma

1. Anlam farkı

Write 2 sentence pairs showing the meaning difference:

1-) stopped to... / stopped ...ing

2-) remember to... / remember ...ing

3-) try to... / try ...ing

2. Dil öğrenmek

Write 4–5 sentences about your experience learning English (or another language). Use at least 4 different verb patterns (gerund and infinitive).

✓ Answer Key · Cevap Anahtarı

Exercises

1. **c) learning** — *enjoy + gerund: enjoy + V-ing*
2. **b) to study** — *decide + infinitive: decide + to + V1*
3. **b) drinking** — *stop + V-ing = bitirmek, son vermek (bıraktım)*
4. **c) to drink** — *stop + to-inf = başka bir amaç için durmak*
5. **c) to lock** — *remember + to-inf = hatırla ve yap (gelecek görev)*
6. **b) visiting** — *remember + V-ing = (geçmiş) anıyı hatırlamak*
7. **b) to open** — *try + to-inf = çabalamak (ama belki başaramadı)*
8. **a) making** — *try + V-ing = deneyip görmek (nasıl olacağını görmek için)*
9. **c) saying** — *avoid + V-ing (kural — her zaman gerund)*
10. **b) to add** — *forget + to-inf = yapmayı unutmak (gelecek görev — yapmadım)*
11. **a) seeing** — *forget + V-ing = (geçmiş) deneyimi unutmak (hep hatırlayacak)*
12. **c) making** — *keep + V-ing = devam etmek (kural — her zaman gerund)*
13. **b) to inform** — *regret + to-inf = üzümlere söylemek (resmi duyuru)*
14. **c) refusing** — *regret + V-ing = geçmişte yaptığına pişmanlık*
15. **a) losing** — *risk + V-ing (kural — her zaman gerund)*

Comprehension

1. Beginning to think in their new language — a cognitive shift.
2. Relying on translation and using their mother tongue as a crutch.
3. Making embarrassing mistakes in public.
4. V-ing: avoid making, resist translating, risk making / to-inf: try to separate, tend to stop, prefer to acknowledge

Grammar practice

1. Don't forget ____ (call) your grandmother tonight. → **to call**
2. I'll never forget ____ (see) the sea for the first time. → **seeing**
3. She stopped ____ (eat) sugar two months ago. → **eating**
4. I'm looking forward to ____ (meet) you. → **meeting**

Writing — örnek cevaplar

Görev 1 — Anlam farkı

1. I stopped to read the sign — it said 'No Entry'. / I stopped reading the report because it was making me angry.
- 2-) I remember to take my medication every morning without fail. / I remember learning to ride a bike — my father let go without telling me.
- 3-) I tried to explain the problem as clearly as I could. / I tried using a completely different approach, and this time it actually worked.

Görev 2 — Dil öğrenmek

I genuinely enjoy learning English, particularly through authentic texts and podcasts. I've stopped translating every unknown word because it disrupts my reading flow. I want to develop my spoken fluency more than anything else. I try to think directly in English as much as possible — it is challenging but extremely effective.

Ad Soyad: _____

Sınıf / Tarih: _____

Puan: _____ / 15

Ekonomi ve eşitsizlik temasıyla geçmişe dair eleştiri, kaçırılan fırsat ve çıkarım bildiren should have, could have, might have, must have, needn't have yapılarını öğreniyorsun.

1 · Kelimeler

2 · Gramer

3 · Okuma

4 · Alıştırmalar

5 · Yazma

Cevap anahtarı

1 Vocabulary · Kelimeler

#	WORD / CHUNK	TÜRKÇE AÇIKLAMA
1	should have + V3	Yapmalıydı (ama yapmadı) — eleştiri/pişmanlık
2	could have + V3	Yapabilirdi (ama yapmadı) — kaybedilen fırsat
3	might have + V3	Yapmış olabilirdi — belirsiz geçmiş ihtimal
4	must have + V3	Mutlaka yapmış olmalı — kesin geçmiş çıkarım
5	ought to have + V3	Gerekirdi — etik yükümlülük
6	need not have + V3	Gereksiz yere yapıldı
7	wealth inequality	Servet eşitsizliği — giderek büyüyen uçurum
8	GDP (Gross Domestic Product)	GSYİH — ülkenin toplam ekonomik üretimi
9	austerity measures	Kısıntı önlemleri — harcama kesintileri
10	trickle-down economics	Damla damla aşağıya inen ekonomi — tartışmalı teori

2 Grammar · Gramer

Modal Perfects — Geçmişteki Yorumlar

Modal perfects, geçmişte olan (veya olmayan) eylemler hakkında **tahmin, pişmanlık, eleştiri veya imkânsızlık** ifade eder. Yapı: **modal + have + V3**

Tüm Modal Perfects

Yapı	Anlam	Örnek
must have + V3	kesin tahmin (geçmiş)	She's not here. She must have left early.
can't have + V3	imkânsız (geçmiş)	He can't have stolen it — he wasn't there.

Yapı	Anlam	Örnek
might/could have + V3	belirsiz ihtimal	She might have forgotten about the meeting.
should have + V3	yapılması gerekendi ama yapılmadı	You should have called me! (aramadın)
shouldn't have + V3	yapılmaması gerekendi ama yapıldı	I shouldn't have eaten so much. (yedim)
could have + V3	yapabilirdi ama yapmadı	She could have helped but she didn't.
needn't have + V3	gerekmiyordu ama yapıldı	You needn't have bought flowers! (ama aldın)

DON'T CONFUSE — must have vs should have

must have → tahmin (sen karar veriyorsun):

"She *must have been* tired." (Çok yorgun olmalı — bence kesin)

should have → pişmanlık/eleştiri (yapılmadı):

"She *should have rested*." (Dinlenseydi ya — ama dinlenmedi)

needn't have → gereksiz eylem (yapıldı ama gerekmiyordu):

"You *needn't have cooked* — we ordered pizza." (Pişirdin ama gerek yoktu)

3 Reading · Okuma

The 2008 Financial Crisis — What Went Wrong?

The 2008 global financial crisis devastated economies worldwide. Millions lost their homes, jobs, and savings. In 2011, the official US inquiry concluded that the crisis was avoidable. In other words, it **should not have happened** — at least not at this scale.

Financial regulators **should have acted** much sooner. Warning signs had been visible for years. Banks **ought to have been** required to hold much larger capital reserves as insurance. Rating agencies **should have scrutinised** the toxic mortgage-backed securities far more rigorously. The fact that they **must have known** about the risks — given the data available to them — makes their failure particularly troubling.

Governments **could have intervened** earlier. Some economists, such as John Taylor, argue that the Federal Reserve **might have cooled** the housing bubble if it had not kept interest rates so low in 2002–2004. Others believe even different policies **could not have avoided** a crash completely.

The economic consequences of the crisis fell hardest on those with the least. The wealth gap, already large in 2007, widened dramatically. Working-class families **should never have been** the ones bearing the burden of a crisis they **did not create**.

We **should have learned** from the Great Depression of the 1930s. But it seems we **hadn't**. The same patterns of deregulation, unchecked speculation, and short-term thinking that **caused** problems in the 1930s **caused** them again, seventy years later.

• Financial Crisis Inquiry Commission (2011) — Final Report — <https://www.govinfo.gov/app/details/GPO-FCIC>

Comprehension Questions

1. What did the official US inquiry conclude in 2011?

2. What do some economists, such as John Taylor, argue about the Federal Reserve?

3. Who bore the heaviest consequences of the crisis?

4. Find 3 modal perfects in the text and explain what each expresses (criticism / missed opportunity / certain past deduction / etc.).

4 Exercises · Alıştırmalar

Doğru seçeneği işaretleyin.

- You ___ told me earlier! I could have helped.
(a) could have (b) might have (c) should have
- She ___ won if she'd trained harder.
(a) could have (b) should have (c) ought to have
- He ___ taken a different route — we'll never know.
(a) might have (b) should have (c) needn't have
- They ___ paid their employees fairly. It was wrong.
(a) might have (b) ought to have (c) need not have
- You ___ worried — everything was fine in the end.
(a) should not have (b) need not have (c) must not have
- I ___ my umbrella — it didn't rain at all.
(a) need not have brought (b) should not have brought (c) could not have brought
- The regulators ___ the banks more carefully. Now millions suffer.
(a) could have regulated (b) should have regulated (c) might have regulated
- She ___ the job, but she didn't apply. (fırsat vardı)
(a) could have got (b) must have got (c) needn't have got
- We ___ from history, but we repeated the same mistakes.
(a) might have learned (b) should have learned (c) need not have learned
- She ___ the whole night reading — she looks exhausted.
(a) should have spent (b) could have spent (c) must have spent
- They ___ the contract before signing. Now there are problems.
(a) might have read (b) should have read (c) need not have read
- You look exhausted. You ___ worked so late last night.
(a) could not have (b) might not have (c) should not have

13. The warning signs were clear. Someone ____ noticed them.

- (a) should have (b) needn't have (c) can't have

14. She ____ the prize — her performance was flawless. (certain deduction)

- (a) should have won (b) must have won
(c) could have won

15. They ____ the meeting — only 3 people were attending.

- (a) should not have organised
(b) need not have organised
(c) could not have organised

5 Writing · Yazma

1. Modal perfects

Write 4 sentences about a past event or historical moment using:

- 1-) should have (criticism)
2-) could have (missed opportunity)
3-) might have (uncertain past)
4-) must have (certain deduction)

2. Tarihsel hata

Choose a historical mistake (financial crisis, political failure, environmental disaster). Write 4–5 sentences about what should/could have been done differently.

Answer Key · Cevap Anahtarı

Exercises

1. **c) should have** — Geçmiş eleştiri (yapılmadı) → *should have + V3*
2. **a) could have** — Kaybedilen fırsat (yapabilirdi) → *could have + V3*
3. **a) might have** — Belirsiz geçmiş ihtimal → *might have + V3*
4. **b) ought to have** — Etik yükümlülük (gerekirdi) → *ought to have + V3*
5. **b) need not have** — Gereksiz yere yapıldı → *need not have + V3*
6. **a) need not have brought** — Gereksiz yere götürdü → *need not have + V3*
7. **b) should have regulated** — Geçmiş eleştiri (yapılmadı) → *should have + V3*
8. **a) could have got** — Fırsat vardı ama kullanmadı → *could have + V3*
9. **b) should have learned** — Pişmanlık + yapılmayan → *should have + V3*
10. **c) must have spent** — Kesin geçmiş çıkarım (kanıta dayalı) → *must have + V3*
11. **b) should have read** — Eleştiri — yapılmadı → *should have + V3*
12. **c) should not have** — Yapılmaması gerekirdi → *should not have + V3*
13. **a) should have** — Bu bağlamda: yapmalıydılar ama yapmadılar → *should have*
14. **b) must have won** — Kesin çıkarım → *must have + V3*
15. **b) need not have organised** — Gereksiz yere düzenlendi → *need not have + V3*

Comprehension

1. That the crisis was avoidable.
2. That it might have cooled the housing bubble if it had not kept interest rates so low in 2002–2004.
3. Working-class families — those with the least, who did not create the crisis.
4. e.g. *should have acted* (criticism — they didn't act) / *could have intervened* (missed opportunity) / *must have known* (certain past deduction)

Writing — örnek cevaplar

Görev 1 — Modal perfects

The 2008 financial crisis should have been prevented — the warning signs were clearly visible for years. Regulators could have intervened much earlier and should have done so. The Federal Reserve might have raised interest rates more aggressively in 2005 to cool the housing bubble. Senior politicians must have known about the systemic risks but chose to ignore them for political reasons.

Görev 2 — Tarihsel hata

During the 2008 financial crisis, governments around the world should have acted far more decisively and far sooner. Major banks could have been regulated much more strictly in the years preceding the collapse. Millions of ordinary homeowners might have kept their properties if more protective policies had been in place. World leaders must have understood the severity of the situation — they simply lacked the courage to act.

#	WORD / CHUNK	TÜRKÇE AÇIKLAMA
1	nevertheless / nonetheless	Buna karşın, yine de — contrast (stronger than 'however')
2	furthermore / moreover	Bunun yanı sıra, üstelik — addition (more formal than 'also')
3	in spite of / despite + noun/V-ing	...e rağmen (NOT 'despite that...')
4	consequently / therefore / hence	Sonuç olarak — cause and result
5	whereas / while	...iken, oysa — contrast between two things
6	to a certain extent	Belirli bir ölçüde — partial agreement
7	it could be argued that	Savunulabilir ki... — introducing a view
8	admittedly	Kabul etmek gerekirse — conceding a point
9	in contrast / by contrast	Buna karşın, aksine — formal contrast
10	to summarise / in conclusion	Özetlemek gerekirse / sonuç olarak

2 Grammar · Gramer

Discourse Markers & Advanced Linkers

B2 düzeyinde yazma ve konuşmada metni organize etmek için güçlü bağlaçlar ve discourse marker'lar kullanılır. Bunlar fikirleri mantıklı şekilde birbirine bağlar, yazıyı akıcı ve akademik yapar.

Bağlaç kategorileri

Kategori	Bağlaçlar	Örnek
Contrast	however · nevertheless · whereas · on the other hand · in contrast · yet	Sales fell. However , the company remained profitable.

Kategori	Bağlaçlar	Örnek
Concession	although · even though · despite · in spite of · while · albeit	Despite the rain, the event continued.
Addition	furthermore · moreover · in addition · besides · what is more	The plan is cost-effective. Furthermore , it is sustainable.
Result	therefore · consequently · as a result · thus · hence	Demand increased. Consequently , prices rose.
Exemplification	for instance · for example · such as · namely	Many factors contribute, for instance , diet and exercise.
Summary	in conclusion · to summarise · overall · in short	Overall , the results are encouraging.

DON'T CONFUSE — despite vs although

despite / in spite of + noun/gerund (-ing):

- ✓ *Despite* being tired, she finished the work.
- ✓ *In spite of* the cost, they proceeded.

although / even though + subject + verb:

- ✓ *Although* she was tired, she finished the work.
- ✗ ~~*Despite* she was tired...~~

TIP — however'ın yeri

however cümle başında, ortasında veya sonunda kullanılabilir:

However, the results were poor.

The results, *however*, were poor.

The results were poor, *however*.

Virgülle ayrılır — "but" ile karıştırma! (But cümle ortasında bağlaç olarak kullanılır)

3 Reading · Okuma

Is Artificial Intelligence Art?

In 2022, an image created with the AI program Midjourney — *Théâtre D'opéra Spatial* by Jason M. Allen — won first prize in the digital arts category of the Colorado State Fair's art competition. **Consequently**, questions about creativity, authorship, and the nature of art intensified dramatically.

AI can produce visually stunning images in seconds. **Nevertheless**, many artists and philosophers argue that it fundamentally lacks the human intention, lived experience, and emotional depth that define genuine artistic expression.

Furthermore, the economic impact on working artists is significant: their styles, training data, and creative output are used without consent or compensation.

In contrast, defenders of AI art point out that tools have always transformed art. The camera, when it first appeared, was dismissed as a threat to painting. **Whereas** earlier critics predicted it would destroy art, the camera actually liberated painting from the obligation of pure representation, giving rise to Impressionism and beyond.

Despite this historical precedent, the current situation feels qualitatively different in scale and speed. **Whereas** a photographer still makes countless deliberate choices — lighting, angle, timing, framing — an AI produces outputs based on statistical patterns in training data. **Admittedly**, the boundary between human creativity and pattern recognition is blurring.

To a certain extent, it could be argued that all art involves absorbing and recombining patterns learned from others.

Nevertheless, the question of whether a machine can truly be said to *create* — rather than merely generate — remains genuinely open.

- Smithsonian Magazine (2022) — Art made with AI wins at state fair — <https://www.smithsonianmag.com/smart-news/artificial-intelligence-art-wins-colorado-state-fair-180980703/>

Comprehension Questions

1. What happened at the Colorado State Fair in 2022?

2. What historical comparison does the text make?

3. Find one 'contrast' marker, one 'concession' marker, and one 'addition' marker in the text.

4. What open question does the text end with?

4 Exercises · Alıştırma

Doğru seçeneği işaretleyin.

- The painting was expensive. ____, it was worth every penny.
(a) Despite (b) Whereas (c) Nevertheless
- ____ being tired, she finished the entire project.
(a) Despite (b) Nevertheless (c) Whereas
- ____ she prefers abstract art, her sister loves realism.
(a) Nevertheless (b) Furthermore (c) Whereas
- He didn't practise. ____, he performed poorly.
(a) Consequently (b) Nevertheless (c) Furthermore
- The exhibition was popular. ____, it attracted international media attention.
(a) Whereas (b) Furthermore (c) Despite
- ____ the lack of funding, the artists completed the project.
(a) Nevertheless (b) Whereas (c) In spite of
- She worked extremely hard. ____, she didn't get the promotion.
(a) Nevertheless (b) Therefore (c) Furthermore

8. The design is original. ____, the technical execution is flawless.
(a) Moreover (b) Despite (c) Whereas
9. He loves painting. ____, he has never taken a formal lesson.
(a) However (b) Consequently (c) Furthermore
10. AI creates art quickly. ____, many argue it lacks emotional depth.
(a) Furthermore (b) However (c) Therefore
11. ____ this criticism, many artists use AI as a creative tool.
(a) Nevertheless (b) Despite (c) Whereas
12. The gallery was unexpectedly closed. ____, visitors waited outside for hours.
(a) Consequently (b) Furthermore (c) Nevertheless
13. ____ traditional art requires physical skill, digital art requires technical knowledge.
(a) Although (b) Furthermore (c) Whereas
14. The film was slow. ____, it was visually stunning.
(a) Consequently (b) Nevertheless (c) Furthermore
15. ____ its critics, the policy has achieved measurable results.
(a) Despite (b) Although (c) In spite

5 Writing · Yazma

1. Discourse marker egzersizi

Write a paragraph about art or creativity (traditional vs digital, human vs AI, etc.) using at least 6 different discourse markers.

2. Karşılaştırma

Compare two types of art (e.g. photography and painting, music and visual art, street art and gallery art). Use: whereas, nevertheless, furthermore, however, despite.

✓ Answer Key · Cevap Anahtarı

Exercises

1. **c) Nevertheless** — Contrast — *buna karşın (expensive BUT still worth it) → Nevertheless*
2. **a) Despite** — *Despite + V-ing (NOT 'despite that') → rağmen*
3. **c) Whereas** — Contrast between two people/things → *Whereas*
4. **a) Consequently** — Cause-result → *Consequently (= as a result)*
5. **b) Furthermore** — Addition (supporting point) → *Furthermore / Moreover*
6. **c) In spite of** — *In spite of + noun phrase (rağmen)*
7. **a) Nevertheless** — Unexpected contrast (*hard work BUT no promotion*) → *Nevertheless*
8. **a) Moreover** — Addition (stronger than 'furthermore' here) → *Moreover*
9. **a) However** — Beklenmeyen karşıtlık → *However*
10. **b) However** — Contrast → *However (= but, more formal)*
11. **b) Despite** — *Despite + noun/this → rağmen*
12. **c) Nevertheless** — Unexpected result — *buna rağmen → Nevertheless*
13. **c) Whereas** — Contrast between two different things → *Whereas*
14. **b) Nevertheless** — Concession (*slow BUT still stunning*) → *Nevertheless*
15. **a) Despite** — *Despite + noun phrase → rağmen*

Comprehension

1. An AI-generated image won first prize at the art competition.
2. The camera was also once dismissed as a threat to art, but it actually liberated painting.
3. Contrast: 'Nevertheless' / 'Whereas' / Concession: 'Admittedly' / 'Despite' / Addition: 'Furthermore'
4. Whether a machine can truly 'create' rather than merely 'generate.'

Writing — örnek cevaplar

Görev 1 — Discourse marker egzersizi

Traditional art requires physical skill and years of practice, whereas digital art demands technical knowledge and software fluency. Nevertheless, both forms are capable of producing deeply emotional and technically brilliant work. Furthermore, the boundary between the two has become increasingly blurred in recent years. Despite this convergence, many established galleries continue to distinguish between them.

Görev 2 — Karşılaştırma

Photography and painting are both powerful forms of visual art with distinct demands. Whereas painting requires manual technique developed over years, photography relies on an acute sense of timing and compositional instinct. Nevertheless, both mediums can capture human emotion with extraordinary power. Furthermore, many contemporary artists deliberately combine the two. Despite their surface differences, they share the same fundamental ambition: to make the viewer feel something meaningful.

Ethics & Society

Grammar: Subjunctive Mood + Formal Conditional Inversions

Ad Soyad: _____

Sınıf / Tarih: _____

Puan: _____ / 15

Etik ve toplum temasıyla *It is essential that he be...* gibi mandative subjunctive yapısını ve *Should you... / Were it to...* resmi koşul devriklerini öğreniyorsun.

1 · Kelimeler

2 · Gramer

3 · Okuma

4 · Alıştırmalar

5 · Yazma

Cevap anahtarı

1 Vocabulary · Kelimeler

#	WORD / CHUNK	TÜRKÇE AÇIKLAMA
1	It is essential that + BASE VERB	Şart ki... — mandative subjunctive (essential/vital/crucial)
2	We recommend that + BASE VERB	Öneririz ki... — subjunctive (no -s, no -ed, no 'to')
3	Were + subject + to + V1...	Eğer... olsaydı — formal if-clause replacement
4	Should + subject + V1...	Eğer... — formal conditional inversion
5	autonomous	Özerk, bağımsız — kendi kararlarını alan
6	transparency	Şeffaflık — gizli olmayan, açık
7	accountability	Hesap verebilirlik — sonuçlardan sorumlu olmak
8	surveillance	Gözetleme, izleme
9	algorithmic bias	Algoritmik önyargı — yazılımın ayrımcı sonuç üretmesi
10	consent (informed)	Aydınlatılmış onam — tam bilgiyle verilen rıza

2 Grammar · Gramer

Subjunctive ve resmi koşul devriği

Mandative subjunctive, bir şeyin *gerekli / önerilen / talep edilen* olduğunu bildiren resmi yapıdır: *It is essential that he be on time.* Burada fiil, özne ne olursa olsun **yalın hâlde** kalır (-s, -ed, to yok). İngiliz İngilizcesinde aynı anlam için *should + V1* de sık kullanılır. Resmi koşul devriğinde ise *if* atılır ve yardımcı fiil başa gelir: *Should you need help... / Were we to fail...*

📌 Özet tablo

Yapı / Kural	Form	Anlam	Örnek
Mandative Subjunctive	It is essential/vital/crucial/important + that + subject + BASE VERB	Resmi İngilizce'de -s yok, -ed yok, 'to' yok	<i>It is essential that he BE present. / We insist that she ATTEND. (not 'attends!')</i>
Recommend/Suggest/Insist/Demand + that	that + subject + base verb	Aynı kural — base verb (V1)	<i>I recommend that you TAKE the exam. / The board demands that he RESIGN.</i>
Were + subject + to	Were this to happen, the consequences would be severe.	Formal, low-probability if-clause	<i>Were the company to fail, thousands would lose jobs.</i>
Should + subject	Should you require assistance, please contact us.	Formal customer-service/legal English — if'in resmi alternatifi	<i>Should any problems arise, do not hesitate to call.</i>

⚠️ Mandative subjunctive = BASE VERB (no conjugation!) ❌ 'It is essential that she goes.' ✅ 'It is essential that she go.' | 'be' subjunctive: 'It is important that he be informed.' (not 'is!') | Mainly written/formal English.

🔍 Örneklerle

 that + özne + V1

The doctor **recommended that she rest** for a week. → *Doktor bir hafta dinlenmesini önerdi.*

It is vital **that every student be** informed. → *Her öğrencinin bilgilendirilmesi hayati önemde.*

They **insisted that he not leave**. → *Gitmemesi konusunda ısrar ettiler.*

 should ile alternatif

The doctor recommended that she **should rest**.
→ *(İngiliz İngilizcesi, daha az resmi)*

It's important that everyone **should know** the rules. → *Herkesin kuralları bilmesi önemli.*

 Resmi koşul devriği

Should you have any questions, please contact us. → *Sorunuz olursa lütfen bize ulaşın.*

Were the plan to fail, we would need a backup.
→ *Plan başarısız olursa yedeğe ihtiyacımız olur.*

Had I known, I would have helped. → *Bilseydim yardım ederdim.*

**COMMON MISTAKE — Subjunctive'te çekim yapmak**

- ~~✗ We suggest that he takes the train.~~ → ☒ We suggest that he **take** the train.
- ~~✗ Were I you, ... doğru, ama ✗ If I would be you~~ → ☒ If I **were** you
- ~~✗ Had I knew~~ → ☒ Had I **known**

**TIP — Nerede kullanılır?**

Resmi e-postalar, iş yazışmaları, kurallar ve sözleşmeler: *Should you wish to cancel your order, ... / The committee requires that all forms be submitted by Friday.* Günlük konuşmada daha basit yapılar tercih edilir.

**Kendine sor — pratik yap**

It is essential that he _____ (be) here by 9.

_____ you require further information, please call us. (if yerine)

She demanded that the report _____ (send) immediately.

_____ I known about the problem, I would have fixed it.

3 Reading · Okuma

Should Machines Make Life-or-Death Decisions?

As artificial intelligence systems are increasingly deployed in healthcare, criminal justice, and military applications, ethicists insist that rigorous standards of transparency and accountability **be maintained**. It is essential that every automated decision **be explainable** to those it affects. It is vital that humans **retain** ultimate authority to override machine recommendations.

Critics argue that society requires companies **to be** far more rigorous in testing AI systems before deployment. **Were a self-driving vehicle to cause** a fatal accident, the question of legal and moral responsibility would become extraordinarily complex. **Should such systems fail** in high-stakes environments, the consequences could be irreversible.

We recommend that governments **introduce** mandatory auditing of all AI systems used in public decision-making. It is not enough that these systems **be** merely accurate — it is essential that they **be** fair, audited, and held to democratic standards.

The demand that corporations **provide** open access to their training data is growing. Were algorithms **to continue operating** without oversight, the potential for entrenched algorithmic bias would be substantial.

Should legislators fail to act, we risk creating a society in which consequential decisions about human lives **are made** by systems that no one fully understands — or can challenge.

İ Görüş yazısı.

Comprehension Questions

1. What do ethicists insist about automated decisions?
2. Find an example of a formal conditional without 'if' in the text.
3. Find a mandative subjunctive in the text.
4. What does the text warn could happen if legislators fail to act?

4 Exercises · Alıştırmalar

Doğru seçeneği işaretleyin.

1. It is essential that every employee ___ the new safety training. (attend)
(a) attends (b) attend (c) is attending
2. We recommend that she ___ the final interview. (attend)
(a) attend (b) attends (c) attending
3. It is vital that he ___ immediately. (act)
(a) acts (b) is acting (c) act
4. ___ you have any questions, please do not hesitate to contact us.
(a) Were (b) Should (c) Had

5. ____ this to happen, the consequences would be catastrophic.
(a) Should (b) Were (c) Had
6. The law requires that companies ____ their algorithms publicly. (disclose)
(a) disclose (b) discloses (c) disclosing
7. ____ the government to intervene now, the crisis might still be contained.
(a) Should (b) Had (c) Were
8. It is important that all data ____ securely. (store — passive)
(a) is stored (b) be stored (c) stores
9. They insist that the report ____ by Friday. (submit — passive)
(a) is submitted (b) submits (c) be submitted
10. ____ any problems arise during installation, call our helpline.
(a) Were (b) Should (c) Had
11. The board demands that the director ____ for the decision. (account)
(a) account (b) accounts (c) accounting
12. It is crucial that the truth ____ hidden from the public. (not be)
(a) not be (b) is not (c) does not be
13. ____ the algorithm to be proven biased, the company would face serious consequences.
(a) Should (b) Had (c) Were
14. We suggest that all members ____ the updated code of conduct. (review)
(a) reviews (b) review (c) to review
15. It is essential that this information ____ confidential. (remain)
(a) remains (b) is remaining (c) remain

5 Writing · Yazma

1. Resmi tavsiye

Write 4 formal recommendations about AI or technology ethics using:

1-) It is essential that...

2-) We recommend that...

3-) It is vital that...

4-) Were [X] to happen, [consequence]...

2. Etik argüman

Should AI be allowed to make medical decisions without a doctor's oversight? Write 5 sentences using formal conditionals and subjunctive structures.

✓ Answer Key · Cevap Anahtarı

Exercises

1. **b) attend** — Mandative subjunctive: *It is essential that + BASE VERB (no -s!)*
2. **a) attend** — *recommend that + BASE VERB*
3. **c) act** — *It is vital that + subject + BASE VERB*
4. **b) Should** — Formal conditional inversion: *Should + subject + V1 (= If you have)*
5. **b) Were** — Formal low-probability conditional: *Were + subject + to + V1*
6. **a) disclose** — *require that + BASE VERB*
7. **c) Were** — *Were + özne + to + V1 = resmi, düşük olasılıklı koşul*
8. **b) be stored** — Mandative subjunctive + passive: *that + be + V3*
9. **c) be submitted** — *insist that + be + V3 (passive subjunctive)*
10. **b) Should** — *Should + subject = formal if-clause*
11. **a) account** — *demand that + BASE VERB*
12. **a) not be** — Negative mandative subjunctive: *that + not + be (base verb for 'be')*
13. **c) Were** — *Were + subject + to = formal hypothesis*
14. **b) review** — *suggest that + BASE VERB*
15. **c) remain** — Mandative subjunctive: *remain (no -s!)*

Comprehension

1. That they be explainable to those they affect — with human authority to override them.
2. 'Were a self-driving vehicle to cause...' or 'Should such systems fail...' or 'Should legislators fail to act...'
3. 'It is essential that every automated decision be explainable.' / 'We recommend that governments introduce...'
4. A society where life-or-death decisions are made by systems no one fully understands or can challenge.

Grammar practice

1. It is essential that he ____ (be) here by 9. → **be**
2. ____ you require further information, please call us. (if yeline) → **Should**
3. She demanded that the report ____ (send) immediately. → **be sent**
4. ____ I known about the problem, I would have fixed it. → **Had**

Writing — örnek cevaplar

Görev 1 — Resmi tavsiye

It is essential that all automated decisions affecting individuals be fully explainable and challengeable. We strongly recommend that governments introduce independent oversight bodies with genuine investigative powers. It is vital that citizens retain the right to appeal any AI decision that affects their lives. Were such systems to operate without human oversight, the consequences for civil liberties could be catastrophic.

Görev 2 — Etik argüman

I firmly believe that AI should not make final medical decisions without direct human oversight and verification. It is essential that the clinician's judgement remain at the centre of any life-or-death medical choice. Were an AI system to make a serious error without adequate supervision, patients could be grievously harmed. We therefore recommend that all legislation require documented human verification for every significant medical AI decision.

Globalisation

Gramer: Nominalisation and Academic Register

Ad Soyad: _____

Sınıf / Tarih: _____

Puan: _____ / 15

Küreselleşme temasıyla fiil ve sıfatları isimleştirmeyi (develop → development, stable → stability) ve akademik yazıda nesnel üslup kurmayı öğreniyorsun.

1 · Kelimeler

2 · Gramer

3 · Okuma

4 · Alıştırmalar

5 · Yazma

Cevap anahtarı

1 Vocabulary · Kelimeler

#	WORD / CHUNK	TÜRKÇE AÇIKLAMA
1	achieve → achievement	Başarı (fiilden isim yapma)
2	develop → development	Gelişme, kalkınma
3	integrate → integration	Entegrasyon, bütünleşme
4	resist → resistance	Direniş, direnç
5	establish → establishment	Kuruluş, kurulum
6	migrate → migration	Göç
7	reduce → reduction	Azalma, azaltma
8	complex → complexity	Karmaşıklık (sıfattan isim)
9	stable → stability	İstikrar (sıfattan isim)
10	global supply chain	Küresel tedarik zinciri

2 Grammar · Gramer

İsimleştirme (nominalisation) ve akademik üslup

Akademik ve resmi metinlerde eylemler çoğu zaman **isime dönüştürülür**. Böylece cümle daha kısa, nesnel ve bilgi yoğun olur: *Prices increased rapidly, so people protested.* → *The rapid increase in prices led to protests.* Fiildeki zarf, isimde **sıfata** dönüşür (rapidly → rapid); özne ya da nesne ise çoğunlukla **of** ile bağlanır.

📌 Özet tablo

Yapı / Kural	Form	Anlam	Örnek
Verb → Noun	Common suffixes: -tion/-sion, -ment, -ance/-ence, -al, -ure	Fiilden isim türetme	<i>integrate → integration / develop → development / fail → failure / arrive → arrival</i>
Adjective → Noun	Suffixes: -ity, -ness, -ance, -cy	Sıfattan isim türetme	<i>complex → complexity / stable → stability / frequent → frequency / aware → awareness</i>
Why nominalise?	Academic/formal register — less personal, more objective, more concise	'People move' = informal / 'Migration increases' = academic	<i>The achievement of equality remains distant. (formal) vs. 'It's hard to make people equal.' (informal)</i>
The + noun + of	The + V-N + of + noun phrase = formal action phrase	İsimlesen fiilin nesnesini gösterme	<i>The development OF new technologies / The reduction OF poverty / The integration OF markets</i>

⚠️ ⚠️ Common nominalisation errors: ❌ 'the increasing of trade' ✅ 'the increase in trade' | ❌ 'the failing of the talks' ✅ 'the failure of the talks' | Check the correct noun form — some are irregular!

🔍 Örneklerle

🔄 Günlük → Akademik

Scientists **discovered** the virus in 1983.

→ The **discovery of** the virus in 1983... → *Virüsün 1983'te keşfi...*

The government **decided** to cut taxes.

→ The government's **decision** to cut taxes... → *Hükümetin vergileri düşürme kararı...*

✖️ Sık kullanılan kalıplar

an **increase in** / a **decrease in** / a **rise in** → *...de artış / azalış*

the **impact of** X **on** Y → *X'in Y üzerindeki etkisi*

the **need for** reform → *reform ihtiyacı*

a **lack of** evidence → *kanıt eksikliği*

Nominalisation + bağlayıcı fiil

Poor diet **contributes to** illness. → *Kötü beslenme hastalığa katkıda bulunur.*

The drop in sales **resulted from** higher prices.
→ *Satışlardaki düşüş yüksek fiyatlardan kaynaklandı.*

Better training **led to** an improvement in safety.
→ *Daha iyi eğitim güvenlikte iyileşmeye yol açtı.*

COMMON MISTAKE — Yanlış isim ya da edat

~~an increase of prices~~ → ☒ an increase **in** prices

~~the analyse~~ → ☒ the **analysis** ~~the fail~~ → ☒ the **failure**

~~the explaining of~~ → ☒ the **explanation** of

TIP — Aşırıya kaçma

Tek cümlede üç-dört isimleştirme metni ağırlaştırır. İyi akademik yazı, isimleştirmeyi *ana fikri özlü vermek* için kullanır; geri kalanı canlı fiillerle anlatır.

Kendine sor — pratik yap

The government's _____ to raise taxes was criticised. (decide → isim)

There was a sharp _____ in unemployment. (rise → isim)

The _____ of the new law took two years. (introduce)

A lack _____ funding delayed the project.

3 Reading · Okuma

The Promise and the Problem of Globalisation

The **integration** of global markets was supposed to benefit everyone. The **expansion** of trade has indeed created wealth — but also widening **inequality**. The **development** of communication technology has accelerated this process to a speed that was unimaginable even thirty years ago.

The **establishment** of international institutions — the WTO, the IMF, the World Bank — was intended to provide economic **stability**. But the **resistance** of many communities to rapid economic change has been far greater than policymakers anticipated. **Migration** — both economic and forced — has increased dramatically, generating profound political consequences.

The **outsourcing** of manufacturing to lower-wage countries created complex ethical questions. The **concentration** of wealth in the hands of a small global elite represents perhaps globalisation's greatest failure. Despite its promises, the **achievement** of genuine global economic equality remains a distant aspiration.

The **reduction** of extreme poverty in some regions — particularly in East Asia — represents a genuine success. But this has sometimes come at the cost of de-industrialisation elsewhere, generating resentment and political instability.

The **complexity** of these trade-offs cannot be overstated. There are no simple solutions. What is required is not the abandonment of global **cooperation**, but its more careful, equitable, and democratic **management**.

İ Görüş yazısı.

Comprehension Questions

1. What was the establishment of international institutions intended to provide?
2. What does the text identify as globalisation's greatest failure?
3. What success does the text acknowledge alongside its failures?
4. Find 5 nominalisations in the text. For each, give the original verb or adjective.

4 Exercises · Alıştırma

Doğru seçeneği işaretleyin.

1. The ____ (achieve) of global equality remains a distant aspiration.
(a) achieving (b) achievement (c) achieved
2. The ____ (develop) of new technologies has been rapid.
(a) developing (b) development (c) developed
3. The ____ (integrate) of markets created both opportunities and risks.
(a) integrating (b) integrated (c) integration
4. There has been significant ____ (resist) to these changes.
(a) resisting (b) resisted (c) resistance
5. The ____ (establish) of the UN marked a new era.
(a) establishing (b) established (c) establishment
6. The ____ (reduce) of poverty is a key global priority.
(a) reducing (b) reduction (c) reduced
7. Global ____ (migrate) has increased dramatically.
(a) migrating (b) migration (c) migrated
8. The ____ (fail) of the talks led to a serious crisis.
(a) failing (b) failure (c) failed
9. Economic ____ (stable) is essential for long-term investment.
(a) stabilising (b) stability (c) stabilised
10. The ____ (complex) of the issue is often underestimated.
(a) complexion (b) complexify (c) complexity
11. The ____ (maintain) of standards requires constant effort.
(a) maintaining (b) maintained (c) maintenance
12. There has been a significant ____ in trade. (increase)
(a) increase (b) increasing (c) increased
13. The ____ (equal) of opportunity should be guaranteed by law.
(a) equalling (b) equalled (c) equality

14. The ____ (concentrate) of wealth among the top 1% is extreme.

- (a) concentrating (b) concentration
(c) concentrated

15. Economic ____ (expand) has slowed considerably in recent years.

- (a) expanding (b) expanded (c) expansion

5 Writing · Yazma

1. Nominalizasyon dönüşümü

Rewrite these informal sentences in a more academic/formal style using nominalisation:

1-) 'People are integrating into global markets.'

2-) 'Governments are failing to act.'

3-) 'The economy is developing rapidly.'

2. Akademik paragraf

Write a formal paragraph (4–5 sentences) about globalisation or another social issue. Use at least 5 nominalisations.

✓ Answer Key · Cevap Anahtarı

| 8. b) failure — <i>fail</i> → <i>failure</i> | |

Comprehension

- Economic stability.
- The concentration of wealth in the hands of a small global elite.
- The reduction of extreme poverty, particularly in East Asia.
- e.g. integration (integrate) / expansion (expand) / inequality (unequal) / development (develop) / resistance (resist) / migration (migrate)

Grammar practice

- The government's _____ to raise taxes was criticised. (decide → isim) → **decision**
- There was a sharp _____ in unemployment. (rise → isim) → **rise / increase**
- The _____ of the new law took two years. (introduce) → **introduction**
- A lack _____ funding delayed the project. → **of**

Writing — örnek cevaplar

Görev 1 — Nominalizasyon dönüşümü

The rapid integration of developing economies into global markets has accelerated significantly over the past three decades. The failure of governments to address growing inequality has deepened poverty in large regions of the Global South. The uneven development of the economy has clearly not benefited all populations equally or fairly.

Görev 2 — Akademik paragraf

Globalisation has led to the unprecedented integration of financial markets and the dramatic expansion of global trade. However, the concentration of extraordinary wealth in a very small number of hands has been a major and growing failure. Despite the genuine reduction of extreme poverty in some regions, the development of truly equitable global economic systems has remained frustratingly slow.

Cevap anahtarı

1 Vocabulary · Kelimeler

#	WORD / CHUNK	TÜRKÇE AÇIKLAMA
1	It appears that...	Görünüşe bakılırsa... (moderate hedging)
2	Evidence suggests...	Kanıtlar göstermektedir ki... (hedged claim)
3	It is possible that...	Mümkündür ki... (weak hedging)
4	tends to	Genellikle ...e meyillidir (habitual tendency)
5	it could be argued that	Savunulabilir ki... (distancing from claim)
6	be likely to	...e muhtemel (probability)
7	presumably	Büyük olasılıkla, tahmin edildiğine göre
8	to some extent	Belirli bir ölçüde — partial truth
9	it remains unclear whether	...belirsizliğini korumaktadır
10	cognitive bias	Bilişsel önyargı — düşünce hataları

2 Grammar · Gramer

Hedging Language — Belirsizlik & İhtimal

Hedging, akademik ve profesyonel dilde kesin olmayan ifadeler kullanmaktır. "Bu kesinlikle doğrudur" yerine "Bu muhtemelen doğru görünüyor" demek — daha akademik ve güvenilir bir ton sağlar.

Hedging yapıları

Yapı	Güç	Örnek
It seems that...	zayıf tahmin	It seems that unemployment is falling.
It appears that...	zayıf tahmin	It appears that the policy has failed.

Yapı	Güç	Örnek
It is likely that...	orta ihtimal	It is likely that prices will rise.
It is possible that...	zayıf ihtimal	It is possible that new evidence will emerge.
X seems/appears to...	gözleme dayalı	The treatment seems to work effectively.
X tends to...	genel eğilim	Prices tend to rise in winter.
X is thought/believed to...	genel kanı	Exercise is believed to reduce anxiety.
suggest / indicate	veri yorumu	The data suggests a correlation.

REAL ENGLISH — Akademik yazıda

Güçlü ama tehlikeli: "This proves that X causes Y."

Akademik ve doğru: "The evidence suggests that X may contribute to Y."

Kesin olmayan dil kullanmak zayıflık değil — akademik dürüstlüktür. IELTS ve CAE writing'de hedge kullanmak seni daha yüksek band score'a taşır.

Why We Make Irrational Decisions

It has long been established that human decision-making is not purely rational. Evidence suggests that we are influenced by cognitive biases that operate largely below the level of conscious awareness — systematic errors in thinking that appear to be hardwired into human cognition.

It appears that the way a choice is framed — rather than its objective content — can significantly alter our decision. People tend to respond differently to "a 90% survival rate" than to "a 10% mortality rate," even though these are logically identical. This phenomenon, known as the framing effect, was described by Amos Tversky and Daniel Kahneman in 1981 and has been replicated in many studies since.

It is possible that evolutionary pressures have embedded certain irrational tendencies into our cognitive architecture. Loss aversion — the tendency to weigh losses more heavily than equivalent gains — may be among the most powerful and well-documented of these biases.

It could be argued that simply knowing about our biases might help us make better decisions. However, there is some evidence that awareness alone is rarely sufficient. Presumably, breaking deeply ingrained cognitive habits requires deliberate practice over time.

To a certain extent, these findings challenge the classical economic assumption of the "rational actor." It remains unclear whether better institutional design could compensate for individual cognitive limitations — a question that continues to occupy researchers across psychology, economics, and neuroscience.

Comprehension Questions

1. What is the 'framing effect'?

2. What is loss aversion?

3. Does awareness of biases help us overcome them, according to the text?

4. Find 4 hedging expressions in the text and classify each as strong/moderate/weak/distancing.

4 Exercises · Alıştırıcılar

Doğru seçeneği işaretleyin.

1. ___ that stress significantly increases the risk of heart disease.
 (a) It is obvious (b) We know for certain
 (c) Evidence suggests
2. Exercise ___ improve mental health in some individuals.
 (a) definitely (b) obviously (c) may
3. ___ that genetics play a significant role, but the extent is still debated.
 (a) It is certain (b) Everyone knows (c) It appears
4. The results are ___ to be affected by sample size.
 (a) obviously (b) likely to be (c) certainly
5. ___ that other, unmeasured variables could explain these findings.
 (a) It is certain (b) It is possible
 (c) Research proves
6. This result ___ be the most important finding of the decade.
 (a) obviously (b) definitely (c) could
7. ___ that social media use is linked to reduced attention spans.
 (a) It is proven (b) There is some evidence
 (c) Research concludes
8. The data are ___ influenced by the conditions of the experiment.
 (a) certainly (b) obviously (c) likely to be
9. ___ that we are all unconsciously biased to some degree.
 (a) It is certain (b) It could be argued
 (c) It proves
10. The exact cause ___ unclear, but stress appears to be a major factor.
 (a) remains (b) is obviously (c) is definitely
11. This pattern ___ to be more common in urban environments.
 (a) tends (b) is (c) definitely is
12. ___ all individuals are susceptible, but the degree varies significantly.
 (a) It is proven that (b) It is assumed that
 (c) It is certain that
13. Regular mindfulness practice ___ reduce cortisol levels in some studies.
 (a) definitely (b) obviously (c) appears to
14. ___ whether this effect generalises across all age groups.
 (a) It is certain (b) Research proves
 (c) It remains unclear
15. There ___ a relationship between sleep quality and cognitive performance.
 (a) is obviously (b) is certainly (c) appears to be

5 Writing · Yazma

1. Hedging dönüşümü

Rewrite these overconfident sentences using appropriate hedging:

1-) 'Social media CAUSES depression.'

2-) 'Sleep deprivation DESTROYS memory.'

3-) 'Genetics DETERMINE intelligence.'

2. Akademik paragraf

Write 4–5 sentences about a psychological topic (bias, memory, decision-making, etc.) using hedging language. Aim for a mix of moderate and weak hedging.

✓ Answer Key · Cevap Anahtarı

Exercises

1. c) **Evidence suggests** — Moderate hedging — akademik, güçlü ama kesin değil → Evidence suggests that...
2. c) **may** — Weak-moderate hedging — kesin değil → may
3. c) **It appears** — Moderate hedging → It appears that...
4. b) **likely to be** — Moderate hedging → likely to be (muhtemelen)
5. b) **It is possible** — Weak hedging → It is possible that...
6. c) **could** — Hedging with modal → could (olabilir — kesin değil)
7. b) **There is some evidence** — Hedged evidence claim → There is some evidence that...
8. c) **likely to be** — Moderate hedging adverb/adjective → likely

9. b) **It could be argued** — Distancing from claim → It could be argued that...
10. a) **remains** — 'remains unclear' = belirsizliğini koruyor (academic hedging)
11. a) **tends** — 'tends to' = genellikle (moderate — not absolute)
12. b) **It is assumed that** — Hedged assumption → It is assumed that...
13. c) **appears to** — Moderate hedging → appears to (görünüşe bakılırsa)
14. c) **It remains unclear** — Uncertainty hedging → it remains unclear whether...
15. c) **appears to be** — Moderate hedging → appears to be

Comprehension

1. The tendency to respond differently to the same information depending on how it is presented (e.g. '90% survival' vs '10% mortality').
2. The tendency to weigh losses more heavily than equivalent gains.
3. Not necessarily — there is evidence that awareness alone is rarely sufficient; it may require deliberate practice.
4. e.g. 'has long been established' (strong) / 'appears' (moderate) / 'is possible' (weak) / 'it could be argued' (distancing)

Writing — örnek cevaplar

Görev 1 — Hedging dönüşümü

Social media use has long been associated with increased rates of anxiety among young people. It appears that excessive use may worsen existing depression symptoms, though the causal relationship remains contested. It is entirely possible that the relationship between social media and mental health is considerably more complex than previously assumed. It could be argued, however, that social media also provides important community support for isolated individuals who might otherwise have none.

Görev 2 — Akademik paragraf

Sleep deprivation appears to impair memory consolidation quite significantly, according to current research. It has been suggested by several major studies that even mild, chronic sleep loss may meaningfully affect cognitive performance. It is plausible that different individuals are affected to varying degrees depending on their neurology. It seems highly likely that maintaining consistent sleep patterns would produce measurable improvements in academic outcomes.

7	pandemic preparedness	Pandemi hazırlığı
8	terraforming	Başka bir gezegenin yaşanılabilir yapılması
9	post-scarcity economy	Kıtlık sonrası ekonomi
10	technological singularity	Teknolojik tekilik — yapay zeka patlama noktası

2 Grammar · Gramer

Karışık koşul cümleleri ve resmi devrik koşul

Normal koşul cümlelerinde iki taraf aynı zamandan bahseder. **Karışık (mixed) koşulda** ise *if* tarafı ile sonuç tarafı **farklı zamanlardadır**: geçmişteki bir olayın şimdiki sonucu, ya da şu an doğru olan bir durumun geçmişteki sonucu. Resmi yazıda *if* atılıp **Had / Were / Should** başa alınabilir.

Özet tablo

Yapı / Kural	Form	Anlam	Örnek
Mixed: Past IF → Present Result	If + had + V3, would + V1 (now)	Geçmişteki farklı eylem → Şimdiki farklı durum	<i>If we had invested in clean energy in the 1970s, we wouldn't be facing a climate emergency now.</i>
Mixed: Present IF → Past Result	If + Past Simple, would have + V3	Şimdiki farklı durum → Geçmişteki farklı sonuç	<i>If she were more careful (now), she wouldn't have made that mistake (yesterday).</i>
Formal 3rd (no if)	Had + subject + V3 + ... + would have + V3	'Had' = 'If had' — inversion without 'if'	<i>Had they acted sooner, the outcome would have been very different.</i>
Were + subject + to	Were + subject + to + V1 = formal if + subject + V1	Düşük ihtimalli formal koşul	<i>Were AI to achieve general intelligence, the implications would be profound.</i>

⚠ Mixed conditional = iki farklı zaman dilimi. 'If we had known (PAST), we would be (NOW) better prepared.' | 'Had they known' = 'If they had known' (formal inversion). | 'Were this to happen' = low probability / formal.

🔍 Örneklerle

🔄 Geçmiş koşul → şimdiki sonuç

If I **had taken** the job, I **would be living** in London now. → *O işi alsaydım şimdi Londra'da yaşıyor olurum.*

If she **hadn't missed** the bus, she **would be** here. → *Otobüsü kaçırmıyaydı burada olurdu.*

🔄 Şimdiki durum → geçmiş sonuç

If I **spoke** French, I **would have understood** the film. → *Fransızca bilsem filmi anlardım (anlamadım).*

If he **weren't** so shy, he **would have asked** her out. → *Bu kadar utangaç olmasa ona çıkma teklif ederdi.*

👑 Devrik (if'siz)

Had we left earlier, we wouldn't have missed the train. → *If we had left earlier...*

Were it not for your help, I would fail. → *Yardımın olmasa başaramazdım.*

Should the weather change, the match will be cancelled. → *Hava değişirse maç iptal edilir.*

**IMPORTANT — Zaman ipuçlarına bak****now, today, still** → sonuç tarafı şimdi: *would + V1 / would be + V-ing***yesterday, last year, then** → sonuç tarafı geçmiş: *would have + V3***COMMON MISTAKE — Devrikte if kalmaz, olumsuzda kısaltma olmaz****✗ If had I known...** → **✓ Had I known...****✗ Hadn't we left early...** → **✓ Had we not left early...****Kendine sor — pratik yap**

If I had studied medicine, I _____ (be) a doctor now.

If he were more organised, he _____ (not / lose) his keys yesterday.

_____ we known about the traffic, we would have taken the train.

_____ it not for the rain, we would go out.

3 Reading · Okuma**What Future Are We Building?**

If we had taken climate warnings seriously in the 1970s, we would not be facing the emergency we face today. That is a textbook mixed conditional: a past failure with a present consequence.

Had governments acted on the scientific consensus of the 1990s, the trajectory of warming would have been radically different. That is a pure third conditional — a past imaginary.

Were artificial intelligence to achieve general human-level intelligence this century, the implications would be among the most profound in human history. We cannot yet know if this will happen — but we can prepare.

Had humanity invested as heavily in pandemic preparedness as in military technology, COVID-19 might have claimed far fewer lives. This is another past conditional — a tragic one.

The question is not only what we should have done. It is what we will choose to do now. If we were to take seriously the existential risks we face — climate change, biodiversity loss, AI safety, pandemic risk — our priorities as a civilisation would look very different from today's.

The future is not predetermined. But every day that passes without adequate action makes the best outcomes less achievable — and the worst, more likely. Had we understood this earlier — would we have acted? Perhaps. The more pressing question: now that we understand it — will we?

i Görüş yazısı.

Comprehension Questions

1. What mixed conditional does the text give at the beginning?

2. What formal conditional without 'if' appears in the text? Write it out.

3. Find an example of 'Were + subject + to' in the text.

4. What is the text's central question at the end?

4 Exercises · Alıştırmalar

Doğru seçeneği işaretleyin.

1. If we ___ in clean energy in the 1970s, we ___ this crisis now.
 (a) had invested / wouldn't be facing
 (b) invested / won't face (c) invest / wouldn't face
2. ___ they acted sooner, the outcome ___ very different.
 (a) If / will be (b) Had / would have been
 (c) Were / will be
3. If she ___ more careful, she ___ that mistake yesterday.
 (a) were / wouldn't have made
 (b) was / didn't make (c) is / wouldn't make
4. ___ this situation to continue, the consequences would be severe.
 (a) Had (b) Were (c) Should
5. If we ___ the warning signs earlier, we ___ in this situation today.
 (a) had recognised / wouldn't be
 (b) recognised / won't be
 (c) recognise / wouldn't be
6. ___ the government invested more, outcomes might have been better.
 (a) Had (b) Were (c) Should
7. ___ AI to achieve general intelligence, the world would be fundamentally changed.
 (a) Had (b) Should (c) Were
8. ___ she been trained differently, she would be a stronger leader today.
 (a) Were (b) Had (c) Should
9. If we ___ these problems, future generations ___ the consequences.
 (a) ignore / will face (b) had ignored / will face
 (c) ignore / would have faced
10. ___ you require assistance, our team is available 24 hours a day.
 (a) Were (b) Should (c) Had
11. If the pandemic ___ sooner, many lives ___ saved.
 (a) ended / will be (b) ends / would be
 (c) had ended / would have been
12. ___ this technology existed 30 years ago, it would have seemed like science fiction.
 (a) Were (b) Had (c) Should
13. She ___ a better position today if she ___ those earlier opportunities.
 (a) will be in / took (b) would be / takes
 (c) would be in / had taken
14. ___ humanity to unite on this issue, extraordinary progress would be possible.
 (a) Had (b) Were (c) Should
15. If we ___ acted more wisely in the past, we ___ a different world today.
 (a) had / would have been living in
 (b) had / would be living in (c) have / would live in

5 Writing · Yazma

1. Mixed conditionals

Write 3 sentences about global issues:

1-) Mixed conditional (past cause → present result)

2-) Mixed conditional (present state → past result)

3-) Formal conditional with 'Had' (no if)

2. Geleceği hayal etmek

If humanity were to solve climate change in the next decade, how would the world be different? Write 4–5 sentences using mixed and formal conditionals.

✓ Answer Key · Cevap Anahtarı

Exercises

- 1. a) had invested / wouldn't be facing** — Mixed: PP if-clause (geçmiş) + would + V1 (şimdiki sonuç)
- 2. b) Had / would have been** — Formal 3rd conditional: Had + subject + V3 + would have + V3
- 3. a) were / wouldn't have made** — Mixed: Present IF (were) + Past result (wouldn't have + V3)
- 4. b) Were** — Formal conditional inversion: Were + subject + to + V1
- 5. a) had recognised / wouldn't be** — Mixed: PP if-clause (geçmiş) + would not be (şimdiki sonuç)
- 6. a) Had** — Formal 3rd conditional without 'if': Had + subject + V3
- 7. c) Were** — Were + subject + to + V1 = formal/low-probability conditional
- 8. b) Had** — Formal mixed: Had + been + V3 (past) + would be (present)
- 9. a) ignore / will face** — 1. tip koşul (gerçek olasılık): If + Present Simple, will + V1
- 10. b) Should** — Formal conditional: Should + subject + V1 (= If you require)
- 11. c) had ended / would have been** — 3rd conditional: PP if-clause + would have + been + V3
- 12. b) Had** — Formal 3rd conditional: Had + subject + V3 (past imaginary)
- 13. c) would be in / had taken** — Mixed: Present result (would be) + Past cause (had taken)
- 14. b) Were** — Were + subject + to + V1 = formal 2nd conditional
- 15. b) had / would be living in** — Mixed: PP if-clause + would be + V-ing (present continuous result)

Comprehension

- If we had taken climate warnings seriously (past), we would not be facing the emergency we face today (present result).
- 'Had governments acted on the scientific consensus, the trajectory would have been radically different.'
- 'Were artificial intelligence to achieve general human-level intelligence...'
- Now that we understand the existential risks — will we actually act?

Grammar practice

- If I had studied medicine, I ____ (be) a doctor now. → **would be**
- If he were more organised, he ____ (not / lose) his keys yesterday. → **wouldn't have lost**
- ____ we known about the traffic, we would have taken the train. → **Had**
- ____ it not for the rain, we would go out. → **Were**

Writing — örnek cevaplar

Görev 1 — Mixed conditionals

If governments had acted on climate warnings in the 1990s, we would not be facing this crisis today. Had scientists been given more sustained funding earlier, scalable solutions would likely have been found sooner. Were we to invest seriously in renewable energy infrastructure now, the trajectory of global temperatures would improve dramatically within a generation.

Görev 2 — Geleceği hayal etmek

If humanity were to solve the climate crisis within a decade, our cities and energy systems would be radically transformed. Fossil fuels would no longer be burned for power or heat. Had we started this transition earlier, millions of lives that will be lost to extreme weather could have been saved. The world would look radically different — quieter, cleaner, and more sustainable — and we would have chosen it.
