Cleft Sentences — Vurgu Cümleleri

C1 seviyesinde **nominal clause** (What + clause + is) yapısını öğrenmiştin. C2 seviyesinde bu yapı, cümlelerin herhangi bir ögesini seçerek vurgulayabildiğin tam bir sisteme dönüşür: **cleft sentences** (yarılmış cümleler). Bu yapılar İngilizce'de bir bilgiyi diğerlerinden ayırıp ön plana çıkarmanın en doğal, en profesyonel yoludur.

📌 It-cleft: It is/was + X + that...

Sade cümle	It-cleft ile vurgu
Edison invented the phonograph.	It was Edison who invented the phonograph.

Sade cümle	It-cleft ile vurgu
Hard work makes genius, not talent.	It is hard work that makes genius, not talent.
She realised the truth in that moment.	It was in that moment that she realised the truth.

📌 Pseudo-cleft (Wh-cleft): What/All + clause + is + X

What-cleft

What made him a genius was relentless practice.

What people forget is the years of failure behind every breakthrough.

All-cleft — daraltma vurgusu

All it takes is patience and repetition.

All that separates the amateur from the master is practice.

TIP — Reverse pseudo-cleft

Pseudo-cleft'i ters çevirebilirsin, ikisi de doğrudur:

What surprised me was her patience.

Her patience was what surprised me.

It-cleft genelde *kişi/nesne/zaman/yer* vurgular; What-cleft genelde *eylem/sebebe/sonuç* vurgular.

The Myth of Effortless Genius

It is a comforting story: the genius who produces a masterpiece in a single flash of insight, untouched by struggle.

What the popular imagination rarely acknowledges is quite how misleading this picture is.

Take Mozart, so often held up as proof of pure, innate gift. **It was not raw talent alone that** produced his mature symphonies — **it was** more than a decade of gruelling, painstaking training under his father's relentless supervision, beginning before the age of five. **What separated Mozart from his contemporaries** was not some mysterious spark but thousands of hours others simply never logged.

Psychologists who have studied exceptional performers — most famously Anders Ericsson — have pointed again and again to the same uncomfortable conclusion. **What seems to distinguish** the eventual master from the merely competent, in many fields, is an almost unreasonable quantity of deliberate, effortful practice. Later research has shown that practice is not the whole story — but it is a large part of it. **It is this labour**, largely invisible and rarely glamorous, that popular biography quietly edits out.

None of this is to say that innate aptitude counts for nothing — **it would be naive to claim that** everyone could become Mozart given enough hours. But **what the myth of effortless genius does** is far more damaging than simply getting the history wrong: it discourages the very people who might otherwise persist, by suggesting that talent, not

effort, is what ultimately matters. **It is precisely this belief** — self-evident to almost no one who has studied the matter closely — that keeps so many gifted amateurs from ever becoming masters.

Comprehension

1. Not innate talent, but over a decade of painstaking, deliberate training that others never undertook.
2. Because it discourages people from persisting, by suggesting talent rather than effort determines success.
3. It-cleft examples emphasise the TRAINING and the LABOUR as the true cause; What/All-cleft examples emphasise WHAT separated Mozart from others and WHAT the myth actually does.

Görev 2 — Kendi deneyimin

It was not natural talent that made me a confident speaker of English; it was years of small, repeated efforts. What helped me most was reading aloud for ten minutes every evening. It was only when I started recording myself that I noticed my mistakes. What surprised me was how quickly short daily practice added up. All it really took was patience — and the courage to sound wrong for a while.

The Subjunctive — Dilek-Şart Kipi

C1'de *I wish / If only / It's high time* yapılarını görmüştün. C2 seviyesinde subjunctive, çok daha geniş ve resmi bir sisteme yayılır: **mandative subjunctive** (zorunluluk bildiren fiillerden sonra) ve **formulaic subjunctive** (kalıplaşmış, edebi/resmi ifadeler). Bu yapıların ortak özelliği: fiil, öznenin bağımsız olarak her zaman **yalın hâlde (base form)** kalır — 3. tekil şahısta bile "-s" almaz.

Mandative subjunctive — zorunluluk bildiren fiil/sıfatlardan sonra

Tetikleyici	Yapı	Örnek
essential / vital / imperative	It is + adj + that + S + base verb	It is essential that every voice be heard .

Tetikleyici	Yapı	Örnek
recommend / insist / demand / propose	S + verb + that + S + base verb	The committee insisted that the report be revised .
suggest / require	...that + S + (not) + base verb	Historians suggest that the archive not be destroyed .

🔗 Formulaic (kalıplaşmış) subjunctive

Edebi / resmi kalıplar

Suffice it to say that the truth was far more complicated.

Be that as it may, the decision still stands.

Come what may, the archive will be preserved.

Dilek / tören ifadeleri

So be it — we accept the consequences.

Long live the memory of those who resisted.

If truth **be told**, the record was never neutral.

TIP — Neden "-s" yok?

Subjunctive fiil her zaman **base form**dur, özne ne olursa olsun:

"It is vital that he **attend**" (attends DEĞİL)

"It is vital that she **be present**" (is DEĞİL)

Bu, C2 sınavlarında ve akademik/hukuki metinlerde çok sık görülen, ama günlük konuşmada nadir kullanılan çok resmi bir yapıdır.

Whose History Is It?

Every nation, **be it** ancient or newly formed, constructs a version of its own past that it can live with. Historians increasingly insist **that this process be examined** as carefully as the events it claims to record — for collective memory is rarely a neutral archive. It is, more often, a contested narrative, shaped as much by what a society chooses to forget as by what it remembers.

It is essential **that this distinction be understood**: history is what happened; collective memory is what a society has decided is worth enshrining. Monuments are raised, anniversaries observed, textbooks written — and in each of these acts, a quiet argument is made about which version of events deserves to survive. Where a nation's past includes episodes of violence or injustice, officials frequently propose **that the record not dwell** on them, preferring instead a narrative of unbroken progress.

Suffice it to say that this selective amnesia rarely serves the descendants of those who suffered. Truth commissions in dozens of countries have demanded **that painful chapters be reckoned with** rather than whitewashed, arguing that

reconciliation without honesty is merely amnesia dressed up as healing. **Be that as it may**, the political appetite for such reckoning is often thin; comfortable myths, once deeply ingrained, are not easily dislodged.

Come what may in the decades ahead, the argument over whose history gets told — and whose gets quietly edited out — will remain one of the most consequential a society can have with itself. If truth **be told**, a nation that cannot reckon honestly with its past is unlikely to navigate its future with any greater clarity.

Görev 2 — Kişisel görüş

I believe schools should teach painful chapters of history as well as proud ones. It is essential that students be given the full picture, not a comfortable myth. Suffice it to say that a history made only of victories teaches very little. Teachers, of course, must present such events with care and respect for the victims. Come what may, a society that learns honestly about its past is better prepared for its future.

İleri Devrik Yapılar (Advanced Inversion)

C1'de *Never / Rarely / No sooner* ile başlayan temel devrikleri gördün. C2 seviyesinde devrik yapı, çok daha zengin bir üslup aracına dönüşür: koşul cümlelerinde "if" olmadan devrik kurma, "Only" ile zaman/yol zarflarını vurgulama ve edebi anlatımda "Little did..." / "Such was..." gibi kalıplarla dramatik vurgu yaratma.

"If" olmadan koşul devrikleri

Normal koşul	Devrik (resmi/edebi)
If you should have any doubts...	Should you have any doubts...
If it were not for her courage...	Were it not for her courage...

Normal koşul	Devrik (resmi/edebi)
If it had not been for their silence...	Had it not been for their silence...

📌 "Only" ile zarf vurgusu + devrik

Only when / Only after

Only when the archive was opened did the truth emerge.

Only after decades of silence did she speak publicly.

Only by / Little did

Only by speaking out can real change occur.

Little did they know that their silence would be remembered.

📌 Edebi vurgu: Such was... / So + sıfat + was...

TIP — Dramatik etki için fronting

Such was the fear of retaliation **that** nobody dared to speak.

So complete was the silence **that** the crime went unrecorded for years.

Bu yapılar özellikle edebi anlatım, tarih yazımı ve resmi konuşmalarda "derece + sonuç" ilişkisini çok güçlü şekilde vurgular.

The Complicity of Silence

Only when survivors finally began to speak did the full scale of the institution's failures become impossible to ignore. For decades, colleagues who had turned a blind eye to what was happening around them told themselves a comforting story: that watching was not the same as doing, that silence was neutral.

Had it not been for a handful of individuals willing to bear witness, the pattern might never have surfaced at all.

Little did those who stayed silent realise that their omission would later be judged as harshly as any direct act — that tacit approval, however unspoken, is still a form of participation.

Moral philosophers have long argued that we are complicit by omission when we possess both the knowledge and the power to intervene, yet choose not to. **Only by acknowledging this** can institutions begin to build cultures where silence is no longer the safest option. **Were it not for** the courage of those who eventually broke ranks, an uncomfortable truth might have remained buried indefinitely.

Such was the culture of self-protection within the institution **that** even sympathetic colleagues found it easier to say nothing than to risk their own position. **So deeply entrenched was** this instinct **that** it took an external investigation,

rather than an internal reckoning, to finally force the issue into daylight. The lesson, uncomfortable as it is, endures: **should** a similar moment arise again, silence will once more be a choice — and, this time, a culpable one.

Görev 2 — Ahlaki bir ikilem

Imagine a student who sees a classmate being bullied every day. Were she to say nothing, she would become part of the problem. Little do many people realise that silence can protect the person doing harm. Only by speaking to a teacher can she help to change the situation. Had others spoken earlier, the bullying might have stopped months ago. Such is the power of one honest voice that it often gives others the courage to speak too.
