much better, the more... the more..., colder and colder — stronger comparisons.

İleri Düzey Karşılaştırma Yapıları

## QUICK UNDERSTANDING

Basit karşılaştırma yapılarının (bigger, more interesting) ötesinde, İngilizcede farkın büyüklüğünü vurgulamak, iki değişkenin birlikte değiştiğini anlatmak veya sürekli artan/azalan bir durumu ifade etmek için özel yapılar kullanılır: **much/far/a lot + comparative**, **the more...the more**, **double comparatives** ve **increasingly**.

## The Structure

### Formula

**much / far / a lot / a bit / slightly + comparative (+ than)**  
**The + comparative + S + V, the + comparative + S + V**  
**comparative + and + comparative (double comparative)**  
**increasingly + sıfat/zarf**

### Affirmative / Negative / Question

| Yapı                   | Örnek                               | Anlamı                                    |
|------------------------|-------------------------------------|-------------------------------------------|
| much/far + comparative | much more interesting               | çok daha ilginç                           |
| the more...the more    | the older I get, the wiser I become | ne kadar yaşlanırsam o kadar bilgeleşirim |
| double comparative     | busier and busier                   | gittikçe daha meşgul                      |
| increasingly           | increasingly difficult              | gittikçe/giderek zorlaşan                 |

### Word Order

- **much/far/a lot** comparative sıfat/zarftan HEMEN ÖNCE gelir: much more expensive, far better.
- **the more...the more** yapısında her iki yarı da "the + comparative" ile başlar ve özne-fiil sırasını takip eder: The more money you have, the more problems you get.
- **double comparative**'de iki comparative "and" ile bağlanır: hotter and hotter, more and more difficult.
- **increasingly** nitelendirdiği sıfat/zarftan hemen önce gelir: increasingly common.

## How It Works

### When do we use it?

- **Farkın büyüklüğünü vurgulamak için (much/far/a lot + comparative):** This test is far more difficult than the last one.
- **İki değişkenin birlikte arttığını/azaldığını anlatmak için (the more...the more):** The more you practice, the better you get.
- **Sürekli artan/azalan bir durumu anlatmak için (double comparatives):** It's getting colder and colder.
- **Kademeli bir değişimi anlatmak için (increasingly + sıfat):** Online shopping is becoming increasingly popular.

### When DON'T we use it?

**Comparative'i güçlendirmek için "very" KULLANMA** — very sadece sıfatın kendisini güçlendirir, comparative ile kullanılmaz.

✗ This book is very better than the film. → ✓ This book is much better than the film.

**Double comparative'te "more and more good" gibi "more" ile -er'i KARIŞTIRMA:**

✗ It's getting more colder every day. → ✓ It's getting colder and colder every day.

### Short Answers

**Hızlı kural:** Farkı büyütme için much/far/a lot; sürekli değişimi anlatmak için X-er and X-er (veya more and more X) ya da increasingly; iki şeyin birbirine bağlı değişimi için the + comparative, the + comparative.

### Türkçe Mantığı

#### Zihninde şu sırayla ilerle:

TÜRKÇEDE NE DEMEK İSTİYORUM? → "Bu ev diğerinden ÇOK DAHA büyük." (basit "daha büyük" değil, fark BÜYÜK) → FARKI VURGULAMAM GEREKİYOR MU? → Evet → comparative'i güçlendiren bir kelime gerekir → HANGİ KELİME? → much/far/a lot + comparative (very kullanılmaz!) → CÜMLE → "This house is much bigger than the other one."

TÜRKÇEDE NE DEMEK İSTİYORUM? → "Ne kadar çok çalışırsan o kadar çok kazanırsın." (iki şey birlikte değişiyor) → İKİ DEĞİŞKEN Mİ BİRLİKTE DEĞİŞİYOR? → Evet → the + comparative..., the + comparative... → CÜMLE → "The harder you work, the more you earn."

## Examples

- The older the car gets, the less reliable it becomes. — Araba yaşlandıkça, o kadar az güvenilir hale geliyor.
- The sooner we leave, the earlier we'll arrive. — Ne kadar erken çıkarsak, o kadar erken varırız.

#### DOUBLE COMPARATIVES & INCREASINGLY
