

Complete Theme

Vocabulary — 30 words

Word	IPA	Turkish	Example
interactive whiteboard <i>noun</i>	/ˌɪntərˈæktɪv ˈwaɪtbɔːd/	etkileşimli akıllı tahta	Our teacher writes the homework on the interactive whiteboard.
touchscreen <i>noun</i>	/ˈtʌtʃskriːn/	dokunmatik ekran	You can tap the touchscreen to choose the right answer.
projector <i>noun</i>	/prəˈdʒektə(r)/	projeksiyon cihazı	The projector shows the slides on the wall so everyone can see them.
charger <i>noun</i>	/ˈtʃɑːdʒə(r)/	şarj cihazı	Bring your charger because the tablets often run out of battery.
wireless <i>adjective</i>	/ˈwaɪələs/	kablosuz	The classroom has a fast wireless connection for all our devices.
device <i>noun</i>	/dɪˈvaɪs/	cihaz	Every student in our class has a personal learning device.
app <i>noun</i>	/æp/	uygulama	We use a vocabulary app to practise new words every night.
download <i>verb</i>	/ˌdaʊnˈləʊd/	indirmek	You have to download the worksheet before the lesson starts.
online platform <i>noun</i>	/ˈɒnlain ˈplætfoːm/	çevrimiçi platform	Our teacher posts all the assignments on the school's online platform.
virtual <i>adjective</i>	/ˈvɜːtʃuəl/	sanal	We joined a virtual classroom with students from another city.
update <i>verb</i>	/ʌpˈdeɪt/	güncellemek	The app updates itself automatically every week.
distance learning <i>noun</i>	/ˈdɪstəns ˈlɜːnɪŋ/	uzaktan eğitim	During distance learning, we had all our lessons through video calls.
artificial intelligence <i>noun</i>	/ˌɑːtrɪˈfɪʃl ɪn ˈtelɪdʒəns/	yapay zekâ	Artificial intelligence can check your grammar mistakes in seconds.
robot <i>noun</i>	/ˈrəʊbɒt/	robot	In the future, a small robot might help the teacher explain new topics.
innovative <i>adjective</i>	/ˈɪnəvɪtɪv/	yenilikçi	Our school tries new, innovative ways to make lessons more interesting.
hologram <i>noun</i>	/ˈhɒləgræm/	hologram	In a future classroom, a hologram of the solar system could float above your desk.

Word	IPA	Turkish	Example
AbOnlinEnglish Upper Secondary — Lise Hazırlık — Complete Theme · Orijinal içerik, TYMM müfredatıyla uyumlu.			
connect <i>verb</i>	/kəˈnekt/	bağlanmak	First, connect your tablet to the classroom's wireless network.
upgrade <i>verb</i>	/ʌpˈɡreɪd/	yükseltmek, geliştirmek	The school plans to upgrade every classroom with new touchscreens next year.
crash <i>verb</i>	/kræʃ/	çökmek (yazılım vb.)	The app crashed in the middle of the lesson, so we lost our project file.
exhibition <i>noun</i>	/ˌeksɪˈbɪʃn/	sergi	Our class visited a Future Classroom exhibition to see new educational technology.
futuristic <i>adjective</i>	/ˌfjuːtʃəˈrɪstɪk/	fütüristik, geleceğe ait	A classroom robot sounds futuristic, but some schools already use them.
technician <i>noun</i>	/tekˈnɪʃn/	teknisyen	The robot can't repair itself, so a technician has to fix it.
install <i>verb</i>	/ɪnˈstɔːl/	kurmak (yazılım/donanım)	The new software will be installed by the IT teacher next week.
backup copy <i>noun</i>	/ˈbækʌp ˌkɒpi/	yedek kopya	Because the Wi-Fi went down, our teacher taught us to always keep a backup copy of our work.
confusing <i>adjective</i>	/kənˈfjuːzɪŋ/	kafa karıştırıcı	At first the new learning app felt confusing, but it became easier after a short video.
responsibly <i>adverb</i>	/rɪˈsponsəbli/	sorumlu bir şekilde	Our group wrote a guide about using learning apps responsibly.
rely on <i>phrase</i>	/rɪˈlaɪ ɒn/	güvenmek, bel bağlamak	Students shouldn't only rely on a screen; talking to real people is important too.
pace <i>noun</i>	/peɪs/	hız, tempo	The classroom robot can help students who work at a different pace.
float <i>verb</i>	/fləʊt/	havada asılı durmak, yüzmek	The hologram looked like a 3D map floating in the air above the desks.
correct <i>verb</i>	/kəˈrekt/	düzeltilmek	The robot corrects simple mistakes itself and shows a clearer explanation.

Passive voice: future tenses and modals

We use the passive with future tenses and modals to focus on the action itself, not on who does it. Form: will be / modal (can, must, should, may) + be + past participle.

Gelecek zamanda veya modal fiillerle edilgen çatı, eylemi yapan kişiden çok eylemin kendisini vurgulamak için kullanılır. Yapı: will be / modal (can, must, should, may) + be + fiilin 3. hâli (past participle).

When? We use it when who does the action is unknown or unimportant, especially for rules, instructions, and future developments about technology.

Kimin yaptığı önemli değilse ya da bilinmiyorsa, kural/plan/talimat anlatırken (özellikle teknoloji kuralları, kurallar, gelecekteki gelişmeler) kullanılır.

Positive

- New tablets will be given to every student.
- The software must be updated.

Negative

- Personal devices won't be allowed in exams.
- The files shouldn't be deleted.

Question

- Will the tablets be collected at the end of the lesson?
- Can the homework be uploaded late?

Short answers

- Yes, it will. / No, it won't.
- Yes, it can. / No, it can't.

Common mistakes

- ~~The tablets will given to students.~~ → **The tablets will be given to students.**
- ~~Homework can uploaded any time.~~ → **Homework can be uploaded any time.**

1. New computers _____ to the school next month.

- a. will send
- b. will be sent
- c. will sent

2. The app _____ every week to fix small problems.

- a. must update
- b. must be updated
- c. must updated

3. _____ the tablets be charged before the lesson?

- a. Will
- b. Do
- c. Are

4. Personal phones _____ allowed during the test.

- a. won't be
- b. won't
- c. not be

5. The interactive whiteboard _____ (clean) every morning.

AbOnlinEnglish Upper Secondary — Lise Hazırlık — Complete Theme · Orijinal içerik, TYMM müfredatıyla uyumlu.

6. In five years, some lessons _____ (teach) by robots.

7. The homework will uploaded to the platform tonight. — *True / False*

8. All devices must be switched off during the exam. — *True / False*

9. A: How _____ the new software _____ (install)?

10. B: It _____ (install) by the IT teacher next week.

11. Make a question about a school rule for tablets.

Reflexive pronouns

Reflexive pronouns show that the person doing the action and the person affected by it are the same: myself, yourself, himself, herself, itself, ourselves, yourselves, themselves.

Dönüşlü zamirler (reflexive pronouns), eylemi yapan kişi ile eylemden etkilenen kişinin aynı olduğunu gösterir: myself, yourself, himself, herself, itself, ourselves, yourselves, themselves.

When? We use them to emphasise that someone did something without help, or with certain verbs that need an object referring back to the subject (teach, enjoy, hurt, repair, etc.).

Bir şeyi başkasının yardımı olmadan yaptığımızı vurgulamak için ya da 'kendine' anlamı taşıyan fiillerle (enjoy, teach, hurt, repair vb.) kullanılır.

Positive

- I learned the app myself.
- The device restarts itself automatically.

Negative

- The robot doesn't repair itself.
- They didn't organise the project themselves — a teacher helped.

Question

- Did you set up the software yourself?

Short answers

- Yes, I did it myself.

Common mistakes

- ~~She teach herself English with an app.~~ → **She teaches herself English with an app.**
- ~~We fixed the tablet ourself.~~ → **We fixed the tablet ourselves.**

1. I built this presentation _____.

- a. myself
- b. itself
- c. yourself

2. The app updates _____ automatically.

- a. himself
- b. itself
- c. ourselves

3. We organised the technology fair _____.

- AbOnlinEnglish Upper Secondary — Lise Hazırlık — Complete Theme · Orijinal içerik, TYMM müfredatıyla uyumlu.
- a. ourself
 - b. ourselves
 - c. themselves

4. She taught _____ how to code last summer.

5. The students solved the problem _____, without any help.

6. The robot can't repair himself. — *True / False*

7. I downloaded the app myself. — *True / False*

8. A: Did you set up the wireless connection _____?

9. B: No, the IT teacher helped us. We couldn't do it _____.

10. The tablet doesn't turn off automatically. (*Rewrite using a reflexive pronoun with the same meaning.*)

Connecting words (cause, effect, contrast, time)

Connecting words join two ideas: because/so (cause-effect), although/but (contrast), after/before/when (time order). They make our sentences clearer and our writing more fluent.

Bağlaçlar iki fikri birbirine bağlar: because/so (sebeup-sonuç), although/but (zıtlık), after/before/when (zaman sırası). Cümlelerin anlamını netleştirmek ve daha akıcı yazmak için kullanılır.

When? We use them to explain the cause, effect, contrast or time order of events, especially in project presentations and written texts.

Bir olayın nedenini, sonucunu, bir zıtlığı veya olayların sırasını açıklarken, özellikle proje sunumları ve yazılı metinlerde kullanılır.

Positive

- Because the Wi-Fi was slow, the video didn't load.
- The tablets are new, so they work very fast.

Question

- Why couldn't you finish the online quiz?

Common mistakes

- ~~Because the projector broke. We used the whiteboard.~~ → **Because the projector broke, we used the whiteboard.**
- ~~Although technology helps us learn, but it can also distract us.~~ → **Although technology helps us learn, it can also distract us.**

1. The lesson was cancelled _____ the server crashed.

- a. because
- b. although
- c. so

2. The battery was low, _____ I charged my tablet.

- a. although
- b. so
- c. because

3. _____ the app is free, it still needs an internet connection.

- AbOnlinEnglish Upper Secondary — Lise Hazırlık — Complete Theme · Orijinal içerik, TYMM müfredatıyla uyumlu.
- a. Because
 - b. Although
 - c. After

4. _____ you finish the quiz, click 'submit'.

- a. Because
- b. So
- c. After

5. The Wi-Fi was down. _____, we couldn't join the online lesson.

6. _____ the classroom has a projector, our teacher still uses the board sometimes.

7. Because the robot is helpful. It can't answer every question. — *True / False*

8. After the teacher uploads the file, students can download it. — *True / False*

9. A: _____ the tablets were fully charged, the lesson still started late.

10. B: Yes, _____ the projector needed an update, we lost ten minutes.

11. Join the ideas: 'the internet was slow' / 'so' / 'the video kept stopping'.

A Tour of a Smart Classroom

Before you read

- Look at the title. What technology do you expect to read about?
- Guess: name two devices you think a 'smart classroom' might have.

Our school opened a new smart classroom this year, and I was one of the first students to try it. When you walk in, the first thing you notice is the huge interactive whiteboard at the front. It isn't just a screen — you can touch it, write on it, and even play educational games on it.

Every student has a small tablet connected to the classroom's wireless network. Worksheets are never printed on paper anymore; instead, they are downloaded from the school's online platform at the start of the lesson. If a device runs out of battery, there is a charger under every desk.

During our science lesson, the teacher used the projector to show a 3D model of the solar system. It looked almost like a hologram floating above the desks! Although the equipment is expensive, our headteacher says it will be upgraded again next year with new, more innovative tools.

Of course, technology sometimes causes problems. Last week, the Wi-Fi went down, so we couldn't upload our homework on time. Because of this, our teacher taught us to always keep a backup copy. Students must also charge their tablets themselves every night — nobody does it for us!

I really enjoy learning in the smart classroom because lessons feel more interactive and modern. However, I still think a good teacher is more important than any device, no matter how advanced it is.

1. What is the text mainly about?

- a. A student's experience of a smart classroom
- b. How to repair a broken projector
- c. The history of the interactive whiteboard

2. What is under every desk?

- a. A charger
- b. A router
- c. A printer

3. What happened when the Wi-Fi went down?

- a. The lesson finished early
- b. Students couldn't upload their homework on time
- c. The whiteboard stopped working

4. In paragraph 3, what does 'it' in 'It looked almost like a hologram' refer to?

- a. The projector
- b. The 3D model of the solar system
- c. The interactive whiteboard

5. According to the text, the writer thinks technology is more important than a good teacher. — *True / False*

6. Whose job is it to charge the tablets every night?

- AbOnlineEnglish Upper Secondary — Lise Hazırlık — Complete Theme · Orijinal içerik, TYMM müfredatıyla uyumlu.
- a. The caretaker's
 - b. The students' own job
 - c. The IT teacher's

After you read

- What technology would you like to have in your own classroom? Write two sentences.
- Compare the smart classroom in the text with your own classroom. Find one similarity and one difference.

My Two Weeks with a Learning App

Before you read

- Do you use any apps to help you study? Which ones?
- Predict: what problems could someone have when they start using a new learning app?

Two weeks ago, my English teacher recommended a new vocabulary app for our class project. At first, I found it a little confusing, but I taught myself how to use it in about ten minutes by watching a short video.

Every evening, I open the app on my phone and review ten new words. The app updates my progress automatically, so I can see exactly which words I need to practise again. Because the app tracks my mistakes, it gives me more practice with the words I find difficult.

Although I enjoy the app, it isn't perfect. Sometimes it needs an internet connection, so I can't use it on the school bus where there is no Wi-Fi. When this happens, I use paper flashcards instead — an old method that still works well!

For our technology project, our group decided to create a short guide for other students about using learning apps responsibly. We explained that apps are a great tool, but students shouldn't only rely on a screen; talking to real people is important too.

After two weeks, I can say the app really helped me learn new words faster. I will keep using it, but I will also keep talking, reading and writing in English every day — technology should support learning, not replace it.

1. What is the text mainly about?

- a. A review of a school's technology equipment
- b. A student's diary about learning with an app
- c. Instructions for installing an app

2. How did the writer learn to use the app?

- a. A teacher explained it in class
- b. They taught themselves by watching a video
- c. A friend showed them at home

3. Why does the writer sometimes use paper flashcards?

- a. The app is too easy
- b. There is no Wi-Fi on the school bus
- c. The teacher doesn't allow phones

4. What was the group's technology project about?

- a. Building a robot
- b. A guide about using learning apps responsibly
- c. Designing a new classroom

5. The writer believes technology should completely replace talking, reading and writing. — *True / False*

6. How does the writer probably feel about the app after two weeks?

- a. Disappointed
- b. Positive, but realistic about its limits
- c. Bored

After you read

- Would you like to try a vocabulary app like this? Why or why not?
- Write one rule you would add to a 'using learning apps responsibly' guide.

Planning Our Technology Project

Before you listen

- You will hear two students planning their 'ideal classroom' technology project.
- Predict: what jobs or roles might they need for the project? Think of two.

1. What are Kaan and Sude planning?

- a. A school trip
- b. Their technology project
- c. A test schedule

2. What role does Kaan choose?

- a. The teacher
- b. The student
- c. The robot

3. What does Sude use in her role?

- a. A tablet to research online
- b. A printed textbook
- c. A telephone

4. Kaan thinks classroom robots are completely impossible and unrealistic. — *True / False*

5. What will Kaan do tonight?

- a. Buy a robot
- b. Organise the notes himself
- c. Call the teacher

At the Future Classroom Exhibition

Before you listen

- You will hear a guide talking to students at a 'Future Classroom' technology exhibition.
- Guess: what kind of technology might be shown at an exhibition like this?

1. Where does this conversation happen?

- a. At a technology exhibition
- b. In a normal classroom
- c. At a school meeting

2. What could holograms be used for, according to the guide?

- a. Teaching geography or science
- b. Charging devices
- c. Cleaning the classroom

3. What can the classroom robot do?

AbOnlineEnglish Upper Secondary — Lise Hazırlık — Complete Theme · Orijinal içerik, TYMM müfredatıyla uyumlu.

- a. Completely replace a teacher
- b. Help students who work at a different pace
- c. Teach only mathematics

4. The guide says the robot can never check anyone's writing. — *True / False*

5. How does Elif feel at the end of the conversation?

- a. Bored
- b. Inspired, with new ideas for her project
- c. Confused

Find Someone Who... (Classroom Technology)

Whole class, mingling · 10-12 dk

Walk around the class and ask your classmates questions with Do you...?, Can you...? and Have you ever...? to find someone who matches each sentence about classroom technology. Write their name next to the sentence.

Useful language: Do you use an app to study English?, Can you connect your device to the school Wi-Fi yourself?, Have you ever used a virtual classroom?, Yes, I do. / No, I don't. / Yes, I have. / No, I haven't.

1. Look at your worksheet: 6 sentences about classroom technology (e.g. '...downloads homework every day').
2. Stand up and ask a classmate a question to check if the sentence is true for them.
3. If it's true, write their name. If not, ask another classmate.
4. Try to find a different name for each sentence.
5. Sit down and share two interesting answers with the class.

Presenting Our Future Classroom

Pairs / small groups · 10-15 dk

With a partner, act out a short presentation for the performance project: one of you is a student and the other is a teacher in an ideal future classroom. Describe the tools you use and how technology helps you learn.

Useful language: In our classroom, homework will be uploaded automatically., Students can teach themselves new topics with this app., Although the robot helps us, our teacher is still the most important person here., Because we use these tools, lessons are more interesting.

1. Decide on the tools your future classroom has (e.g. holograms, a classroom robot, an online platform).
2. Decide who is the Teacher and who is the Student in the scene.
3. Write 4-6 lines each, using at least two grammar points from this theme.
4. Practise your roles together, then perform for another pair or the class.
5. Give feedback: name one strong point in your classmates' performance.

A Guide to Using Classroom Technology Responsibly

60-80 words

Write a short guide for new students titled 'Using Our Classroom Technology Responsibly'. Include at least two rules with the passive voice (will be / must be / can be + past participle) and one sentence with a connecting word.

Plan:

1. Choose a title for your guide.
2. List 3-4 rules using the passive voice with future tenses or modals.
3. Add one sentence with a connecting word (because, so, although, after).
4. Check your grammar and punctuation.

Checklist:

- ☐ I used at least two sentences with the future or modal passive.
- ☐ I used at least one connecting word.
- ☐ I used at least three target words from Vocabulary.
- ☐ I checked my spelling and capital letters.

Our Ideal Technology Classroom — Project Script

80-110 words

Write the script for the performance project: 'Technological Classroom Tools, Learning with Technology, and Future Classrooms.' Describe the ideal use of technology in the classroom, the roles of students and teachers, and the tools used. Write at least two lines for each role (student and teacher), using at least two of this theme's grammar points.

Plan:

1. Decide on the roles (for example, Teacher, Student, and maybe a Robot Assistant) and where the scene happens.
2. List the tools each role uses (interactive whiteboard, tablet, app, hologram, robot...).
3. Write 8-10 lines of dialogue between the roles, showing how technology helps learning.
4. Read it aloud with your group and time it — it should take about 1-2 minutes.

Checklist:

- ☐ I have at least two clear roles (student and teacher).
- ☐ I used the passive voice, reflexive pronouns, or a connecting word correctly.
- ☐ My script makes sense and has 8-10 lines.
- ☐ I practised reading it aloud with my group.

1. Choose the correct meaning: 'wireless'
 - a. needing a wire
 - b. without wires
 - c. broken
2. What does 'upgrade' mean?
 - a. to make something better or more modern
 - b. to switch something off
 - c. to sell something
3. New tablets _____ to every student next year.
 - a. will give
 - b. will be given
 - c. will gave
4. The software _____ every month.
 - a. must update
 - b. must be updated
 - c. must updated
5. We organised the whole project _____.
 - a. ourself
 - b. ourselves
 - c. themselves
6. The app updates _____ automatically.
 - a. himself
 - b. itself
 - c. herself
7. _____ the app is free, it still needs an internet connection.
 - a. Because
 - b. Although
 - c. So
8. In 'A Tour of a Smart Classroom', what is under every desk?
 - a. A charger
 - b. A router
 - c. A printer
9. In 'My Two Weeks with a Learning App', the writer wants technology to completely replace talking, reading and writing. — *True / False*

Support

1. Match 8 vocabulary words from this theme to their Turkish meanings.
2. Copy out the example sentences for 6 target words.
3. Complete 5 gap-fill sentences using the word bank from class.
4. Read the theme's reading text again and underline 5 new words.

Core

1. Write 6 original sentences using words from this theme's vocabulary (interactive whiteboard, touchscreen, projector...).
2. Write 5 sentences using Passive voice: future tenses and modals.
3. Answer the reading comprehension questions again from memory.
4. Record yourself saying the Speaking task's useful language phrases.

Extension

1. Write a short paragraph (80-100 words) combining at least 6 target words and Passive voice: future tenses and modals.
2. Prepare 3 extra questions about the theme's topic to ask a classmate.
3. Rewrite two 'Common mistakes' sentences correctly and explain why.
4. Create your own 3-question quiz on this theme's grammar for a partner.

A · Vocabulary

1. A machine that shows slides or pictures on a wall or screen is a _____.
 - a. charger
 - b. projector
 - c. device
2. If a classroom has no cables for the internet, the connection is _____.
 - a. wireless
 - b. virtual
 - c. innovative
3. You have to _____ the worksheet before you can open it on your tablet. (indirmek)
4. A computer program you use on a phone or tablet is called an _____.
 - a. app
 - b. update
 - c. upgrade

B · Grammar

1. New laptops _____ to students next term.
 - a. will give
 - b. will be given
 - c. will gave
2. The whiteboard _____ every morning.
 - a. should clean
 - b. should be cleaned
 - c. should cleaned
3. I fixed the connection problem _____.
 - a. myself
 - b. itself
 - c. himself
4. The robot can't repair _____.
 - a. himself
 - b. itself
 - c. themselves
5. _____ the Wi-Fi was down, we couldn't join the online lesson. (sebep)
6. The technician will install the software. (*Rewrite in the passive voice.*)

C • Reading

AbOnlinEnglish Upper Secondary — Lise Hazırlık — Complete Theme · Orijinal içerik, TYMM müfredatıyla uyumlu.

1. According to 'My Two Weeks with a Learning App', how did the writer learn to use the app?
 - a. A teacher explained it in class
 - b. They taught themselves by watching a video
 - c. A friend showed them at home
2. Why does the writer sometimes use paper flashcards instead of the app?
 - a. The app is broken
 - b. There is no Wi-Fi on the school bus
 - c. Flashcards are cheaper
3. In 'A Tour of a Smart Classroom', the writer thinks a device is more important than a good teacher. — *True / False*

D • Functional Language / Use of English

1. Make a sentence about a classroom rule for devices.
2. _____ the projector broke, we used the whiteboard instead. (etkinin nedenini bağlamak)
3. The students solved the problem _____, without any help.

E • Guided Writing

1. homework / can / upload / to the platform / any time (*Make a correct passive sentence.*)
2. we / design / our project website / ourselves (*Make a correct sentence.*)
